Strategic Multilateral Exchange:

Strategic Multilateral Exchange Jean Jaskold Gabszewicz, 2002-01-01 To non economists it is hard to understand why economists spend so much effort on the competitive model whereas the world seems to be replete with large and powerful economic actors In this respect Jean Gabszewicz is atypical he has spent most of his research time working on imperfectly competitive markets However instead of restricting himself to partial equilibrium analyses he has tackled from the outset the problem of imperfect competition in a system of interrelated markets with the aim of studying how market power is spread throughout the whole system This is one of the most challenging and fascinating tasks that economists face But this is also a very hard one and may explain why so few have tried This book builds on the seminal contributions of Cournot and Edgeworth and does not intend to provide a full fledged answer to the many questions raised by the general theory of imperfect competition However by presenting in a transparent way most of the problems that lie at the roots of imperfect competition in general equilibrium and by proposing various elegant solutions it paves the way to any future research in the field No doubt it will become a basic reference in the long run The economics profession should thank Jean Gabszewicz for a fresh and daring way of looking at market power Jacques Thisse Universit Catholique de Louvain Belgium and cole Nationale des Ponts et Chauss es France Jean Gabszewicz s new book is devoted to the study of strategic multilateral exchange Contrary to the classical competitive paradigm in which agents are assumed to behave as price takers here traders are allowed to consciously behave as strategic agents who aim to influence trade to their own advantage This is usually done in oligopoly theory using a partial equilibrium approach while in this case a system of interrelated markets is considered

Economics Essays Gerard Debreu, Wilhelm Neuefeind, Walter Trockel, 2013-04-17 Back in the good old days on the fourth floor of the Altbau of Bonn s Ju ridicum Werner Hildenbrand put an end to a debate about a festschrift in honor of an economist on the occasion of his turning 60 with a laconic Much too early Remembering his position five years ago we did not dare to think about one for him But now he has turned 65 If consulted he would most likely still answer Much too early However he has to take his official re tirement and we believe that this is the right moment for such an endeavor No doubt Werner Hildenbrand will not really retire As professor emeritus free from the constraints of a rigid teaching schedule and the burden of com mittee meetings he will be able to indulge his passions We expect him to pursue with undiminished enthusiasm his research travel golfing the arts and culinary pleasures escaping real retirement
