Strategies For Survival Cultural Behavior In An Ecological Context:

Strategies for Survival Michael A. Jochim, 2013-09-11 Strategies for Survival Cultural Behavior in an Ecological Context focuses on the ecological relationships between cultural behavior and its environmental context The proliferation of ecological studies within anthropology suggests the increasing emphasis given to the systemic context of behavior The aim of this book is to develop a framework for examining these relationships and for comparing diverse ecological studies within a coherent conceptual structure It seeks to include any aspect of behavior to investigate the links between ideological and material factors to broaden the view of relevant factors and possible assumptions and to relate the processes of decision making to their specific context in a manner allowing cross cultural comparisons In the process certain popular forms of ecological explanation will be examined In addition specific behavioral examples will be investigated in an attempt to explain patterns of similarities and differences This book is addressed to all individuals interested in human environmental interactions including professional anthropologists and general students of human behavior Property Rights in a Social and Ecological Context Susan Hanna, Mohan Munasinghe, 1995-01-01 The collection of papers in the book Property Rights and the Environment Social and Ecological Issues 6 and this companion volume examine the relationships between people the environment and property rights and the ways in which a given social and ecological context affects those relationships The papers are products of a research program at the Royal Swedish Academy of Sciences Stockholm The main objective of the program was to convene social scientists and natural scientists to address research questions in their full social and ecological dimensions The program s participants addressed five general issues related to property rights and the environment 1 the design of governance systems for sustainability 2 the relationship between equity stewardship and environmental resilience 3 the use of traditional knowledge in resource management 4 the mechanisms that link people to their environments and 5 the role played by population and poverty This volume presents case studies that address questions of design application in those five areas 6 Also available Property Rights and the Environment Social and Ecological Issues ISBN 0 8213 3415 8 Stock No 13415 An Introduction to Cultural Ecology Mark Q. Sutton, E. N. Anderson, 2020-08-26 This contemporary introduction to the principles and research base of cultural ecology is the ideal textbook for advanced undergraduate and beginning graduate courses that deal with the intersection of humans and the environment in traditional societies After introducing the basic principles of cultural anthropology environmental studies and human biological adaptations to the environment the book provides a thorough discussion of the history of and theoretical basis behind cultural ecology The bulk of the book outlines the broad economic strategies used by traditional cultures hunting gathering horticulture pastoralism and agriculture Fully explicated with cases illustrations and charts on topics as diverse as salmon ceremonies among Northwest Indians contemporary Maya agriculture and the sacred groves in southern China this book gives a global view of these strategies An important emphasis in this text is on the nature of contemporary ecological issues

how peoples worldwide adapt to them and what the Western world can learn from their experiences A perfect text for courses in anthropology environmental studies and sociology **The Pleistocene Old World** Olga Soffer,2013-11-11 Regional approaches to past human adaptations have generated much new knowledge and understanding Researchers working on problems of adaptations in the Holocene from those of simple hunter gatherers to those of complex sociopolitical entities like the state have found this approach suitable for comprehension of both ecological and social aspects of human behavior This research focus has however until recently left virtually un touched a major spatial and temporal segment of prehistory the Old World during the Pleistocene Extant literature on this period by and large presents either detailed site specific accounts or offers continental or even global syntheses that tend to compile site specific information but do not integrate it into whole constructs of functioning sociocultural entities This volume presents our current state of knowledge about a variety of regional adaptations that characterized prehistoric groups in the Old World before 10 000 B P The authors of the chapters consider the behavior of humans rather than that of objects or features and present data and models for various aspects of past cultures and for culture change These presentations integrate findings and understandings derived from a number of related disciplines actively involved in researching the past Data and interpretations are offered on a range of Old world regions during the Paleolithic including Africa Asia Australia and Europe and chronological coverage spans from the Early to Late Pleistocene **The Ecosystem Concept In Anthropology** Emilio F Moran,Susan H Lees,2019-09-06 Critics of the ecosystem concept have noted the tendency of ecosystem based studies to overemphasize energy flow to rely on functionalist assumptions to neglect historical and evolutionary factors and to overlook the role of individuals as the locus of natural selection and decision making In this volume leading figures in the study of biological and human ecology evaluate these criticisms and propose ways to advance the state of knowledge in ecological research The Himalayas Andrew J. Hund,James A. Wren,2018-06-15 A thorough and detailed resource that describes the history culture and geography of the Himalayan region providing an indispensable reference work to both general readers and seasoned scholars in the field The Himalayas An Encyclopedia of Geography History and Culture serves as a convenient and authoritative reference for anyone exploring the region and seeking to better understand the history events peoples and geopolitical details of this unique area of the world It explores the geography and details of the demographics discusses relevant historical events and addresses socioeconomic movements political intrigues and controversies and cultural details as to give an overarching impression of the region as a coherent and cohesive whole Readers will come away with a vastly heightened understanding of the geographical region we recognize as the Himalayas and grasp the issues of geography history and culture that are central to contemporary understandings of the human culture in the region The alphabetically arranged and succinct entries provide easy access to detailed authoritative information Additionally sidebars throughout the book relate compelling facts that point readers to new and interesting avenues of exploration The volume also includes a chronological overview of the region ten

primary source documents and a comprehensive bibliography of supporting works

Ethnic Diversity and the Control of Natural Resources in Southeast Asia A. Terry Rambo, A. Rambo, Kathleen Gillogly, Karl Hutterer, 2020-08-06 The authors consider the ways in which the high degree of ethnic diversity within the region is related to the nature of tropical Asian environments on the one hand and the nature of Southeast Asian political systems and the ways in which they manipulate natural resources on the other Rather than focus on defining the phenomenon of ethnicity this book examines the different social evolutionary contexts in which the phenomenon is manifested Companion volume to Cultural Values and Human Ecology in Southeast Asia Michigan Papers no 27

Holocene Human Ecology in Northeastern North America George P. Nicholas, 2013-06-29 Students of human behavior have always been interested in the relationship between human populations and their environment Decades of research not only have illuminated the backdrop against which culture is viewed but have identified many of the conditions that influence or promote technological development social transformation and economic reorganization It has become increasingly evident however that if we are to explore more forcefully the linkages between culture and environment a processual orientation is required This is found in human ecology the study of the relationship between people and the ecosystem of which they are a part This book is a collection of papers about the recent and distant past by scientists and humanists involved in the study of human ecology in northeastern North America The authors critically examine the systemic interface between people and their environment first by identifying the indicators of that relationship e g historical documentation archaeological site patterning faunal remains then by defining the processes by which change in one part of the ecosystem affects other parts e g by considering how an ecotonal gradient affects biotic communities over time and finally by explicating the behavioral implications thereof

Deadly Dances in the Bornean Rainforest Rajindra K. Puri, 2022-07-18 For two years Rajindra Puri lived and hunted with the Penan Benalui people in the rainforest of eastern Borneo in Indonesia Here he reports on Penan hunting techniques the knowledge required to be a successful hunter and the significance of hunting for Penan communities A hunt offers the opportunity for younger Penan to learn crucial survival skills knowledge of the environment local geography genealogy history and beliefs and values Songs and stories recount hunting adventures and legends while ceremonial dances demonstrate the coordination and agility required of the expert hunter The author makes a case for using active participant observation in conjunction with standard ethnobiological research methods for documenting non verbal knowledge Included here are 21 months of hunting records and comprehensive appendices on game species and ethnobiological data This work will be useful to anthropologists conservation biologists and those interested in Indonesian ethnobiology

The Lifeways of Hunter-Gatherers Robert L. Kelly, 2013-04-15 In this book Robert L Kelly challenges the preconceptions that hunter gatherers were Paleolithic relics living in a raw state of nature instead crafting a position that emphasizes their diversity and downplays attempts to model the original foraging lifeway or to use foragers to depict human nature stripped to its core Kelly reviews the anthropological

literature for variation among living foragers in terms of diet mobility sharing land tenure technology exchange male female relations division of labor marriage descent and political organization Using the paradigm of human behavioral ecology he analyzes the diversity in these areas and seeks to explain rather than explain away variability and argues for an approach to prehistory that uses archaeological data to test theory rather than one that uses ethnographic analogy to reconstruct the past
