Strategies Of Arms Control:

Strategies of Arms Control Stuart Croft, 1996 In this groundbreaking analysis Stuart Croft brings the subject of arms control into the era of complex multi polar international relations He moves beyond the narrow definitions of the phenomenon associated with the Cold War to show how it not only has a long past but also a clear future The author begins by tracing the history of agreements between polities over weapons back to ancient times An understanding of this history allows him to put forward a typology of arms control It occurs at the end of major conflicts stabilises balances between states develops norms of behaviour manages weapons proliferation and acts as a tool of international organisations Stuart Croft examines the evolution of these five qualitatively different strategies and applies the typology to arms control agreements in the post Cold War world This definitive new study will be of interest to students in international relations and security studies as well as specialists in these disciplines Strategic Stalemate Michael Krepon, 1984-06-18 Strategy and Arms Control

House of Cards Colin S. Gray, 1992 If peace breaks out can arms control be far behind According to Colin S Gray this sardonic motto describes events of the 1990s just as well as it did those of the 1920s Gray offers a provocative history of twentieth century attempts at arms limitation as he challenges the fundamental assumptions of arms control theory Arms control has never worked he concludes because it never can Existing approaches to arms control appeal to common sense but they are logically unsound and inherently impractical Gray argues because they fail to take political realities into account He outlines their inadequacies in what he calls the Arms Control Paradox the more motivated nations are to fight one another the less interested they will be in supporting significant arms limitations Under these conditions arms control agreements must be to echo a phrase of George Will's either impossible or unimportant Documenting the naval treaties of the 1920s and 1930s and the initiatives to limit strategic nuclear arms from 1969 to the present Gray seeks to demonstrate that the fortunes of negotiated arms limitation have merely reflected the temperature of international relations rather than influencing those relations National security analysts students and scholars of international relations and others interested in arms control issues will want to read House of Cards and debate its conclusions **Technology, Strategy, And Arms Control** Wolfram
