Strategy and Diplomacy, 1870-1945 Paul M. Kennedy, 1984 *Strategy and Diplomacy* Paul Kennedy, 1984-02-01

Myths of Empire Jack Snyder, 2013-05-15 Overextension is the common pitfall of empires Why does it occur What are the forces that cause the great powers of the industrial era to pursue aggressive foreign policies Jack Snyder identifies recurrent myths of empire describes the varieties of overextension to which they lead and criticizes the traditional explanations offered by historians and political scientists He tests three competing theories realism misperception and domestic coalition politics against five detailed case studies early twentieth century Germany Japan in the interwar period Great Britain in the Victorian era the Soviet Union after World War II and the United States during the Cold War The resulting insights run counter to much that has been written about these apparently familiar instances of empire building **Tirpitz** Patrick J.

Kelly, 2011-05-03 A first rate biography of this grand admiral who is better known for his political skills than his naval ones US Naval Institute Proceedings Grand Admiral Alfred von Tirpitz 1849 1930 was the principal force behind the rise of the German Imperial Navy prior to World War I challenging Great Britain's command of the seas As State Secretary of the Imperial Naval Office from 1897 to 1916 Tirpitz wielded great power and influence over the national agenda during that crucial period By the time he had risen to high office Tirpitz was well equipped to use his position as a platform from which to dominate German defense policy Though he was cool to the potential of the U boat he enthusiastically supported a torpedo boat branch of the navy and began an ambitious building program for battleships and battle cruisers Based on exhaustive archival research including new material from family papers Tirpitz and the Imperial German Navy is the first extended study in English of this germinal figure in the growth of the modern navy Well written and based on new sources allows the reader deep insights into the life of a man who played a very important role at the turn of the last century and who like almost nobody else shaped German policy International Journal of Maritime History An invaluable reference work on Tirpitz the Imperial German Navy and on politics in Wilhelmine Germany The Northern Mariner **Strategy and War Planning in**

the British Navy, 1887-1918 Shawn T. Grimes, 2012 Overturns existing thinking to show that the Royal Navy engaged professionally in war planning in the years before the First World War It has been widely accepted that British naval war planning from the late nineteenth century to the First World War was amateur and driven by personal political agenda But Shawn T Grimes argues that this was far from the case His extensive original research shows that in fact the Royal Navy had a definitive war strategy which was well thought through and formulated in a professional manner Faced by a perceived Franco Russian naval threat the Admiralty adopted an offensive strategy from 1888 to 1905 based on observational blockade and combined operations This strategy was modified after 1905 for war with Wilhelmine Germany The book shows how specific war plans aimed at Germany's naval and economic assets in the Baltic were drawn up between 1906 and 1908 and that the strategy of primary distant blockade formulated between 1897 and 1907 became a reality in late 1912 and not July

1914 as previously thought The book argues that the Naval Intelligence Department which took a lead in devising these plans was the Navy's de facto staff Overall it is clear that there was a continuity underpinning British thinking about how to wage a naval war SHAWN GRIMES received his PhD in history from the University of London and has been a Lecturer in European History at the University of Saskatchewan The Great War Ian F. W. Beckett, 2014-01-14 The course of events of the Great War has been told many times spurred by an endless desire to understand the war to end all wars However this book moves beyond military narrative to offer a much fuller analysis of the conflict's strategic political economic social and cultural impact Starting with the context and origins of the war including assassination misunderstanding and differing national war aims it then covers the treacherous course of the conflict and its social consequences for both soldiers and civilians for science and technology for national politics and for pan European revolution The war left a long term legacy for victors and vanquished alike It created new frontiers changed the balance of power and influenced the arts national memory and political thought The reach of this account is global showing how a conflict among European powers came to involve their colonial empires and embraced Japan China the Ottoman Empire Latin America and the United States *British Naval Policy in the Gladstone-Disraeli Era, 1866-1880* John Francis Beeler, 1997 Against a background of rapid industrialization and economic transformation the author describes the structure of British naval administration in the Gladstone Disraeli era assesses the important reforms of that structure by the Liberal politician Hugh Childers and examines the strategic and operational contexts of the navy itself *German Naval Strategy, 1856-1888* David H. Olivier, 2004-08-26 This book is a comparative study of the evolution of the German navy in the second half of the nineteenth century It examines the development of strategy especially commerce raiding in comparison to what other navies were doing in this era of rapid technological change It is not an insular history merely listing ship rosters or specific events it is a history of the German navy in relation to its potential foes It is also a look at a new military institution involved in an inter service rivalry for funds technology and manpower with the prestigious and well established army **Sir Harold Nicolson and International Relations** Derek Drinkwater, 2005-02-17 Sir Harold Nicolson 1886-1968 is well known as a diarist man of letters diplomatic historian gardener and broadcaster Nicolson's bestselling diaries and letters his many biographies including the highly acclaimed official life of King George V and his numerous essays and broadcasts have made him in the words of his friend and fellow MP Robert Bernays an international figure of the second degree Yet there was more to this urbane man than his finely observed diary stylish writing and Sissinghurst Castle Garden in Kent the joint creation of Nicolson and his wife the writer V Sackville West He also produced a rich and ambitious corpus of writing on the theory and practice of international relations Nicolson's aristocratic background and upbringing in a diplomatic household followed by an Oxford classical education and twenty years in diplomacy combined to forge his distinctive philosophy of international affairs As a young attach in Constantinople before the Great War and in Whitehall during the conflict at the Paris Peace Conference of 1919 and

en poste in Persia and Germany throughout the 1920s Nicolson was ideally placed to observe the maelstrom of international politics As an anti appeasement and wartime MP 1935-1945 he became a highly regarded authority on international relations During and after World War II he turned his mind to the issues of European integration world government and the ultimate possibility of global peace Nicolson has been the subject of two fine biographies This is the first study of his contribution to international thought He emerges from it as an important international thinker alongside theorists as diverse as E H Carr and Leonard Woolf Nicolson's international thought contains elements of realism and idealism while retaining a distinctive character and a breadth and consistency that render it unique

British Politics and Foreign Policy in the Age of Appeasement, 1935-39 R. J. Q. Adams, 1993 In this book historian R J Q Adams examines the policy of appeasement so frequently praised as realistic and statesman like in its day and commonly condemned as wrong headed and even wicked in ours Exciting and thoroughly accessible this work explains the motivations and goals of the principal policy makers including Chamberlain Lord Halifax and Sir John Simon as well as those of the chief critics Winston Churchill Anthony Eden and others
