Strategy For Creation:

Solving the Strategy Delusion M. Stigter, C. Cooper, 2016-02-10 Solving the Strategy Delusion matters to anyone interested in realising strategy in the 21st century The book challenges conventional and delusional approaches to strategy It offers different ways of seeing thinking planning acting and mobilising when it comes to making strategy happen in a world of volatility and complexity

The Flexible Firm Julian Birkinshaw, Peter Hagström, 2000-03-16 The pace of change in the business world is becoming faster This book provides a detailed account of the network like organization forms that some firms are adopting to make themselves more flexible and responsive to changing technologies and customer demands As these organizations become more pervasive the winners will be those firms that develop the specific capabilities that are needed to thrive in a networked world Paradoxically such capabilities are developed not only at the firm level but also in the relationships the firm has with its external network and in the operating units within the firm This perspective has implications for the resource based view of the firm in the field of strategic management suggesting that the development of capabilities is a more complex and multi level process than was traditionally thought This book brings together eleven chapters each focusing on a particular aspect of capability development in the networked firm It is based on research in five big Swedish firms Ericsson Volvo Skandia Pharmacia Upjohn SE Banken as well as a number of other well known firms such as HP and ABB The book will be essential reading for advanced students in strategy and international business wanting to keep abreast of current thinking and company practices

Strategy Shelved Steven Wills, 2021-08-15 As U S strategy shifts once again to focus on great power competition Strategy Shelved provides a valuable analytic look back to the Cold War era by examining the rise and eventual fall of the U S Navy's naval strategy system from the post World War II era to 1994 Steven T Wills draws some important conclusions that have relevance to the ongoing strategic debates of today His analysis focuses on the 1970s and 1980s as a period when U S Navy strategic thought was rebuilt after a period of stagnation during the Vietnam conflict and its high water mark in the form of the 1980s maritime strategy and its attendant six hundred ship navy force structure He traces the collapse of this earlier system by identifying several contributing factors the provisions of the Goldwater Nichols Act of 1986 the aftermath of the First Gulf War of 1991 the early 1990s revolution in military affairs and the changes to the Chief of Naval Operations staff in 1992 following the end of the Cold War All of these conditions served to undermine the existing naval strategy system The Goldwater Nichols Act subordinated the Navy to joint control with disastrous effects on the long serving cohort of uniformed naval strategists The first Gulf War validated Army and Air Force warfare concepts developed in the Cold War but not those of the Navy's maritime strategy The Navy executed its own revolution in military affairs during the Cold War through systems like AEGIS but did not get credit for those efforts Finally the changes in the

Navy OPNAV staff in 1992 served to empower the budget arm of OPNAV at the expense of its strategists. These measures laid the groundwork for a thirty year strategy of means where service budgets a desire to preserve existing force structure and lack of strategic vision hobbled not only the Navy but also the Joint Force's ability to create meaningful strategy to counter a rising China and a revanchist Russian threat. Wills concludes his analysis with an assessment of the return of naval strategy documents in 2007 and 2015 and speculates on the potential for success of current Navy strategies including the latest tri service maritime strategy. His research makes extensive use of primary sources oral histories and navy documents to tell the story of how the U S Navy created both successful strategies and how a dedicated group of naval officers were intimately involved in their creation. It also explains how the Navy's ability to create strategy and even the process for training strategy writers was seriously damaged in the post Cold War era.
