Strategy Bob de Wit, Ron Meyer, 1998 Bob De Wit and Ron Meyer's innovative and extremely successful strategy text encourages critical and creative strategic thinking By introducing articles from key strategists to present differing perspectives on each strategic issue covered the authors stress and contrast the diversity of views in the subject without endorsing any one approach **Strategy--process, Content, Context** Bob de Wit, Ron Meyer, 1994 **Strategy** Bob de Wit, Ron Meyer, 2010 Conventional strategic management education is dominated by a standard formula that uses a misleadingly simplistic step by step approach presents few competing perspectives glosses over key debates and is typically biased towards a particular national or regional context De Wit and Meyer's best selling *Strategy* takes a strikingly different approach that has helped thousands of students and professionals around the world develop into critical and creative strategic thinkers By carefully guiding students through diverse perspectives De Wit and Meyer show how more than ever robust strategy requires an open understanding of different ways of looking at strategic issues *Strategy* Bob de Wit, 2014-06-03 In this book the fundamental differences of opinion within strategic management are not ignored or smoothed over The authors carefully guide the students through the many often conflicting perspectives in the field of strategy in order to help them become true strategic thinkers **Perspectives on Strategy** F.A.J. van den Bosch, A.P. De Man, 2013-12-01 The purpose of this book is to focus on the contribution of one of the most prominent scholars in the strategy field Michael Porter from both a practitioner that is Chief Executive Officer CEO perspective and from a research perspective Using such a dual perspective may improve the relevance of strategy research for the business community Four leading chief executives two from European multinationals Royal Dutch Shell Group and Unilever N V and two from important Dutch public organizations the Port of Rotterdam and the Ministry of Economic Affairs were invited to reflect on Porter's contributions to four levels of analysis 1 business level strategy 2 corporate level strategy 3 regional competitiveness and finally 4 national competitiveness Against this background the book is structured as follows Chapters 2 to 8 deal with the four mentioned levels of analysis from a dual perspective theoretical and managerial The two final chapters aim to find out how Porter's theories are related to each other and whether and how the different levels of analysis can be connected

Velde, 2009-10-08 As the world's economy develops into a more dynamic fast moving and unpredictable entity it is crucial that the workers who create wealth have the ability to assess and respond to new and unforeseen challenges In other words the future will require a more competent workforce What though does this mean in practice In this the fully revised second edition of Christine Velde's book a variety of researchers from around the world provide a truly international perspective on the issue They help to redefine the term competence Rather than responding to challenges using a pre existing set of skills they see competence as having the ability to assess new situations and then adapt one's response accordingly particularly in collaboration with others Providing the
