Debt-slavery in Israel and the Ancient Near East Gregory

Chirichigno, 1993-01-01 This original study concerns itself with the manumission laws of Exodus 20 Deuteronomy 15 and Leviticus 25 It begins with the social background to debt slavery and the socioeconomic factors encouraging the rise of debt slavery in Mesopotamia After a comparative analysis of the Mesopotamian and biblical material Chirichigno examines the social background to debt slavery in Israel the various slave laws in the Pentateuch in order to delimit the chattel slave laws from the debt slave laws and the biblical manumission laws themselves

Israel's Changing Society Calvin Goldscheider, 2019-03-13 This book provides the most up to date assessment of Israel's society today portraying the country's ethnic diversity its economy and demographic changes Revealing linkages between demographic transformation and socioeconomic change Goldscheider shows how ethnic group formation emerged in Israel to create the present mix of Jewish and Arab populations He also reviews the policies of Palestinian and Israeli governments concerning immigration describing the ways in which socioeconomic development within Israel urbanization and industrialization have evolved through the use of outside capital and increasing dependency The book reveals two unique sets of processes about Israel today The first concerns important changes in marriage family and intermarriage educational attainment and occupational achievement ethnic politics religion and the changing role of women A second but related concern pertains to the social and economic contexts of community life Here Goldscheider investigates rapid change among Israel's major urban centers towns and agricultural centers including the Kibbutz as well as Arab communities In concluding chapters the author discusses the role of government in shaping population policy including health fertility and contraceptive and abortion issues He also describes the influence of Jewish communities outside of Israel and the impact of the Middle East conflict with Arab states on Israel's domestic policy as well as the conflict with populations in territories administered by Israel since 1967 Likely to be a standard reference for years to come the book is essential reading for political scientists sociologists anthropologists and historians concerned with Israel's politics and society

Consumption and Market Society in Israel Kalman Applbaum, Yoram S. Carmeli, 2020-05-26 Over the past two decades Israel has been remaking itself in line with the

commercial models of Western market societies Nowhere is this trend more evident than in private consumption patterns Most Israelis crave parity with Western lifestyles private automobiles mobile phones spacious housing fashionably furnished accessibility to shopping malls and leisure travel abroad Alongside these new aspirations internationally branded commodities and franchises such as McDonald s Office Depot Benetton IKEA and Toys R Us increasingly feature in the Israeli landscape and advertising has emerged as a primary vehicle for persuasion competition and cultural expression This book is the first to explore fully the significance of these transformations The authors show how different groups kibbutzniks Israeli Arabs Ultra Orthodox Jews new immigrants and middle class Israelis alternately exhibit a suspicion towards and enthusiasm for the enhanced individual freedoms of a consumer market society Lifestyle consumerism is recognized as an alien import potentially disruptive of the ethos of communality common destiny and national purpose At the same time because consumption helps unite diverse groups to the greater whole of the nation the globe and modernity it conveys a sense of normalcy and affluence in a time of major social transition and political turmoil Consumption and Market Society in Israel is not only innovative in its research but it is a timely contribution to a hotly debated topic

Studies of Israeli Society: Stratification in Israel ,1980 **The Arab Minority In Israel's Economy** Noah Lewin-epstein,Moshe Semyonov,2019-07-11 The Arab Minority in Israel s Economy considers the Arab population as an integral albeit disadvantaged part of Israeli society Using data from a thirty year period the book looks at Arab participation in the economy especially in the labor market showing how significant socioeconomic inequality persists despite a fundamental tenet of Israel s declaration of independence asserting equality of political and social rights of all its citizens Taking an ethnic competition perspective the authors explore the extent of inequality uncovering the institutional and social processes that influence it They examine the role of local labor markets and individual human resources giving special attention to the growing labor force participation of Arab women They also consider the gains of the majority Jewish population that have resulted from competition and economic discrimination against Arabs Although the Arab community in Israel has been studied in the past this book is unique in its detailed analysis of employment activity within and outside of the Arab sector and in examining both Arabs and Jews within the stratification system The book fosters deeper understanding of Israeli society and of multi ethnic societies more generally **Socioeconomic Inequality in Israel** Nabil Khattab,Sami Miaari,Haya Stier,2016-04-29 This volume addresses different aspects and areas of inequality in Israel a country characterized by high levels of economic inequality poverty and social diversity The book expands on the mechanisms that produce and maintain inequality and the role of state policies in influencing those mechanisms **Aluta Continua Biblical Hermeneutics for Liberation** Obvious Vengeyi,Joachim Kügler,2013 This book was passed as a PhD thesis at Bayreuth University Germany The author challenges African Biblical scholars and Christian leaders to premise Biblical interpretation on the experiences of the often neglected underclasses The author argues that from a comparative historical cultural and

material methodological point of view the experiences of the Zimbabwean underclasses whose collective ordeal is represented by the experiences of domestic workers are strikingly similar to those suffered by slaves among other underclasses in the biblical world In the same way religion was appropriated by the elite to validate oppression of the underclasses in the biblical world the author shows that since the colonial era Christianity in Africa through biblical interpretation among many other tactics has been an influential force on the side of the dominant class to advance their racial class and gender interests To date in Zimbabwe for example the Bible and religion in general is manipulated by the dominant minority to justify and entrench the exploitation of the majority underclasses On the other hand the author observes that the history of ancient Israel Roman colonial Palestine and colonial Zimbabwe evidences that when religion is appropriated and or the Bible is read and interpreted from the historical cultural and material conditions of the underclasses it can be a valuable resource not only for their mobilization to overthrow oppressive systems but also for justifying their resistance tactics Aluta Continua The Struggle goes on
