droughts etc Several perennial streams have become seasonal owing to deforestation in the catchments With special reference to Karnataka s Western Ghat forests the book carries several investigative stories highlighting how notified and un notified forests have been plundered for a variety of reasons Diverse land tenures in Kodagu district of Karnataka and administration s failure to regulate the rights and privileges are exploited by the nexus between politicians and bureaucrats Without realizing the ecological services provided by forests natural forests in different land tenures have been allowed to be degraded for quid pro quo In addition forests have been diverted for many developmental projects such as widening of roads construction of reservoirs for power and irrigation transmission of power establishing rail connectivity etc leading to changing land uses disappearance of perennial streams and loss of carbon sinks It is high time that states acted in conserving natural forests irrespective of the ownership and the country as a whole must grow trees over 26 million hectares of degraded land by 2030 as pledged in the Paris climate accord of 2015
