Streeter Scientific Process And The Com

Lei Shi

Streeter Scientific Process And The Com:

The Erotic Life of Manuscripts Yii-Jan Lin, 2016 New Testament textual critics who used language to group texts into families and genealogies were not pioneering new approaches but rather borrowing the metaphors and methods of natural scientists. Texts began to be classified into families, tribes, and nations and later were racialized as African or Asian with distinguishable textual physiognomies and textual complexions. These genealogies would later be traced to show the inheritance of corruptions and contamination through generations, an understanding of textual diversity reflective of eighteenth and nineteenth century European anxieties over racial corruption and degeneration. While these biological metaphors have been powerful tools for textual critics, they also produce problematic understandings of textual purity and agency with the use of scientific discourse, artificially separating the work of textual criticism from literary interpretation.

Factory and Industrial Management John Robertson Dunlap, Arthur Van Vliissingen, John Michael Carmody, 1917 **Book catalog of the Library and Information Services Division** Environmental Science Information Center. Library and Information Services Division, 1977 **Industrial Management** John Robertson Dunlap, Arthur Van Vliissingen, John M. Carmody, 1917 **Performance Parameters for Digital and Analog Service Modes** M. Nesenbergs, 1981 **NTIA Report**, 1978 Book Catalog of the Library and Information Services Division: Shelf list catalog Environmental Science Information Center. Library and Information Services Division, 1977 **Who Owns Academic Work?** Corynne McSherry, 2003-10-15 Who owns academic work? This question is provoking political and legal battles fought on uncertain terrain for ever higher stakes. The posting of faculty lecture notes on commercial Web sites is being hotly debated in multiple forums even as faculty and university administrators square off in a battle for professorial copyright. In courtrooms throughout the country, universities find themselves embroiled in intricate and expensive patent litigation. Meanwhile, junior researchers are appearing in those same courtrooms using intellectual property rules to challenge traditional academic hierarchies. All but forgotten in these ownership disputes is a more fundamental question: should academic work be owned at all? Once characterized as a kind of gift, academic work and academic freedom are now being reframed as private intellectual property. Drawing on legal, historical, and qualitative research, Corynne McSherry explores the propertization of academic work and shows how that process is shaking the foundations of the university, the professoriate, and intellectual property law. The modern university's reason for being is inextricably tied to that of the intellectual property system. The rush of universities and scholars to defend their knowledge as property dangerously undercuts a working covenant that has sustained academic life and intellectual property law for a century and a half. As the value structure of the research university is replaced by the inequalities of the free market, academics risk losing a language for talking about knowledge as anything other than property. McSherry has written a book that ought to deeply trouble everyone who cares about the academy.

The Christian Leader, 1925 **Moving Beyond Prozac, DSM, and the New Psychiatry** Bradley Lewis, 2010-02-05

Interesting and fresh represents an important and vigorous challenge to a discipline that at the moment is stuck in its own devices and needs a radical critique to begin to move ahead Paul McHugh Johns Hopkins University School of Medicine Remarkable in its breadth an interesting and valuable contribution to the burgeoning literature of the philosophy of psychiatry Christian Perring Dowling College Moving Beyond Prozac DSM and the New Psychiatry looks at contemporary psychiatric practice from a variety of critical perspectives ranging from Michel Foucault to Donna Haraway This contribution to the burgeoning field of medical humanities contends that psychiatry's move away from a theory based model one favoring psychoanalysis and other talk therapies to a more scientific model based on new breakthroughs in neuroscience and pharmacology has been detrimental to both the profession and its clients This shift toward a science based model includes the codification of the Diagnostic and Statistical Manual of Mental Disorders to the status of standard scientific reference enabling mental health practitioners to assign a tidy classification for any mental disturbance or deviation Psychiatrist and cultural studies scholar Bradley Lewis argues for postpsychiatry a new psychiatric practice informed by the insights of poststructuralist theory
