and fought to finance his schooling and to receive his BA He has been a member of the Food Technology Institute recognized by Who's Who in America and in addition to being chemist he became Packaging Engineer by attending the packaging school of Michigan State University Living My Dream is truly a compelling story narrating the life story of a young man who struggles to survive and to receive his education under unfavorable social climate His life story is intertwined with his dream to accomplish things in life regardless of the obstacles that presented themselves along the way and is the incarnation of what he believes Everything is possible if you have the desire provided your expectations from yourself are real he says To say the least his narrative makes us appreciate all the freedoms and opportunities our democratic system offers to all of us things we are taking for granted
