Style and Performance for Bowed String Instruments in French Baroque Music Mary Cyr, 2016-04-01 Mary Cyr addresses the needs of researchers, performers and informed listeners who wish to apply knowledge about historically informed performance to specific pieces. Special emphasis is placed upon the period 1680 to 1760 when the viol, violin and violoncello grew to prominence as solo instruments in France. Part I deals with the historical background to the debate between the French and Italian styles and the features that defined French style. Part II summarizes the present state of research on bowed string instruments: violin, viola, cello, contrebasse, pardessus de viole and viol in France, including such topics as the size and distribution of parts in ensembles and the role of the contrebasse. Part III addresses issues and conventions of interpretation such as articulation, tempo and character, inequality, ornamentation, the basse continue, pitch temperament and special effects such as tremolo and harmonics. Part IV introduces four composer profiles that examine performance issues in the music of Lisabeth Jacquet de La Guerre, Marin Marais, Jean-Baptiste Barrière and the Forquerays, father and son. The diversity of compositional styles among this group of composers and the virtuosity they incorporated in their music generate a broad field for discussing issues of performance practice and offer opportunities to explore controversial themes within the context of specific pieces.

Performing Baroque Music Mary Cyr, 2017-07-05 Listeners, performers, students and teachers will find here the analytical tools they need to understand and interpret musical evidence from the baroque era. Scores for eleven works, many reproduced in facsimile to illustrate the conventions of 17th and 18th century notation, are included for close study. Readers will find new material on continuo playing as well as extensive treatment of singing and French music. The book is also a concise guide to reference materials in the field of baroque performance practice, with extensive annotated bibliographies of modern and baroque sources that guide the reader toward further study. First published by Ashgate at that time known as Scholar Press in 1992 and having been out of print for some years, this title is now available as a print-on-demand title.
