disease in which negative emotions divide the self into warring inner factions fueled and distorted by alcoholic intoxication The work is solidly anchored in a long term study of the socialization experiences that began in alcoholism treatment centers and continue in Alcoholics Anonymous recovery programs It covers the treatment process the restructuring of self the alcoholic s interaction with his recovery treatment program and the modalities of self transcendence that result from treatment

Inarticulate Society Tom Shachtman, 2007-09-11 Thomas Schachtman author of *Skyscraper Dreams* approaches the muddy intolerant world of political conversation through the belief that Americans have lost the ability to respond and argue differing points of view without coming swiftly to blows Considering the rising tide of political violence in America and the hateful and intolerant speech that appears to incite it Thomas Schachtman argues that political debates are in danger of moving from the Senate chamber to the streets taking the social stability needed for a working democracy with it Blaming this decline on the jargon used by specialists in the professions and academia in order to distinguish superiority over common citizens Schachtman proposes a concrete multifaceted program for rehabilitating eloquence through the constructive use of media in combination with political and educational reform

Intoxication and Society Jonathan Herring, Ciaran Regan, Darin Weinberg, Philip Withington, 2012-12-21 Intoxicants substances that alter a person s mental and physiological state are a continuing obsession In their effect on the mind and body intoxicants go to the heart of what it means to be human In the tensions between free and uninhibited consumption on the one hand and the pressures of social regulation and personal responsibility on the other they also illuminate the daily paradoxes and sheer complexity of living in modern Western societies Yet this complexity and the rich history that underpins it is often lost in the current debates over public policy *Intoxication and Society* sets out to supplement the contemporary discourse surrounding intoxication with a more nuanced appreciation of the history and nature of what is very much a multidimensional problem It does so by employing an interdisciplinary framework that includes contributions from leading academics in law sociology anthropology history literature neuroscience and social psychology The result is a subtle historical and contemporary rereading of the social construction of intoxication that will provide a secure basis for analysis as society continues to respond to the problematic pleasures of intoxication

The Human Society Valentin Matcas, 2016-04-20

Is the human society fair and fulfilling as you learn in school or is it harmful with corrupt politicians financial cartels and major conspiracies spanning the world as you always notice Both are the case yet the human society improves gradually despite of all corruption in the news only that the media tends to highlight politicians in order to capture the masses or you never watch the news Because it is always a show even in the news while everybody is happy But is society actually corrupt and harmful The human society has always been exploitive yet people tend to interact in any manner in the world more or less humane while it is meaningful to distinguish your own influence exactly as it is Would you like to learn the truth about the human society Then study yourself and those around very well since society is the direct interconnectivity of all human beings with you in it Therefore you are the one defining society directly at least in everything regarding you and this is the case with everyone else While everybody is relatively good intentioned in society since we are very similar through our human nature and through all natural living needs and meanings that we fulfill Because humanity is never divided into the good and the bad since everybody is good by having similar natural needs and meanings only that people can become more exploitive while fulfilling consensual needs as these make them be whatever their superiors jurisdictions and ideologies desire stepping in this manner outside the actual human nature And this is bad since this is exactly how humans become unhuman with all dreadful consequences manifesting in the world Because humans fulfill mostly consensual needs as orders and duties coming from above but not their own human needs as everyone should While this ends up defining the human society the most changing it altogether into a social machine meant for profit and exploitation and it should never be the case in a human world Because there are two human societies to consider the natural intelligent human society that everyone seeks to have and maintain through their own living natural needs and feelings and the consensual society actually instated in the world regardless if you want it or not Throughout this book we study how life and living human beings gather naturally to form classes of life and living societies meant to make life better safer meaningful and therefore fulfilling We also understand the current human society in its consensual structure and characteristics in all aspects and from all perspectives Furthermore we identify and understand the various modes of society that life and the environment may demand as we recognize what is meaningful among orders agendas and conspiracies already implemented or threatening to take place in the world who the main social actors are and how determined they remain in everything that they do in the human society This helps you understand your own meaning in life in society and in the world while understanding how your meaning is enhanced or altered by your own behavior and interconnectivity in life and in the world If you seek to uncover and understand the human society exactly as it is and as it should be this book is for you
