**Afghanistan and the Anglo-Russian Dispute and History of the War in Afghanistan (Complete)** Various Authors, 2020-09-28 By a coincidence of singular interest in Central Asian affairs the completion of the Orenburg Tashkent railway occurred simultaneously with the evacuation of Lhasa by the troops of the Tibetan Mission the two events measuring in a manner the character of the policies pursued by the respective Governments of Great Britain and Russia in Mid Asia Moreover if consideration be given to them and the relation of each to contemporary affairs appreciated it becomes no longer possible to question the causes which have determined the superior position now held in Asia by our great opponent If this situation were the result of some sudden cataclysm of nature by which Russia had been violently projected from her territories in Europe across the lone wastes of the Kirghiz steppe into and beyond the region of the Pamirs or over the desert sands of the Kara Kum to the southern valleys of the Murghab river our periodic lament at the mastery of Central Asia by Russia would be more comprehensible But unfortunately the forward advance of Russia to the borders of Persia along the frontiers of Afghanistan to the north eastern slopes of the Hindu Kush has been gradual so gradual indeed that as each successive step became accomplished we have had time to register recognition of the fact in bursts of indignant chatter accompanied as is not unusual with us by a frothy clamour of empty threats Unluckily noisy outcry has been mistaken for action but from the moment when Russia first moved into Trans Caspian territory there appears to have been nothing but vague realisation of the acute possibilities with which the situation in Central Asia from that hour became impressed As time passed and the several phases vanished our indifference and supineness have increased until no chapter in the history of our Imperial affairs offers more melancholy reading than that which deals with the period covering the peaceful penetration of Asia by Russia In order to secure sufficient momentum for her descent railways were needed and while the line so lately completed between Orenburg and Tashkent is a more material factor in the situation than hitherto has been recognised the laying of the permanent way between Samarkand and Termez Askhabad and Meshed approximately gauges the duration of the interval separating Russia from the day when she will have rounded off her position in Mid Asia Just now therefore and for ten years to come strategic requirements should alone be permitted to influence the arrangement of our policy in High Asia Commercial developments within the vexed sphere of the Russian and British territories in this region should be regulated by circumstances which actually inherent in our Asiatic position have been too long ignored No question of sentiment no considerations of trade influenced the creation of railway communication between Orenburg and Tashkent the construction of the Murghab Valley line or the extension of the Trans Caspian system from Samarkand to Osh Strategy steely and calculating required Mid Russia to be linked with Mid Asia the

irresistible expansion of empire following not so much the line of least resistance as the direction from which it would be placed in position for the next move Continents have been crossed kingdoms annihilated and provinces absorbed by Russia in her steady inimical progression towards the heart of Central Asia until there is nothing so important nor so intimately associated with our position in Afghanistan to day as the intricate perplexities which have emanated from this untoward approach From time to time attempts have been made to effect an adjustment of the points at issue The result has been unsatisfactory since the patchwork application of pen and paper has come as a rule in response to some accomplished coup upon the part of our astute opponent Indeed there is nothing in the result of any of these compromises which can be said to do credit to our knowledge of the existing situation Indifference coupled with a really lamentable ignorance distinguishes the conditions if not the atmosphere under which these rectifications of frontier and modifications of clauses in previously accepted treaties have been carried out But now that we have witnessed the joining of the rails between Orenburg and Tashkent let us put an end to our absurd philandering and appraising properly the true position of affairs let us be content to regard all further extension of the Russian railway system in Mid Asia as the climax of the situation To do this we must understand the points at issue and to day in Central Asia there are many causes which of themselves are sufficient to direct attention to them

*The Theory and Practice of Irregular Warfare* Andrew Mumford, Bruno C Reis, 2013-11-26 This book offers an analysis of key individuals who have contributed to both the theory and the practice of counterinsurgency COIN Insurgencies have become the dominant form of armed conflict around the world today The perceptible degeneration of the occupations of Iraq and Afghanistan into insurgent quagmires has sparked a renewal of academic and military interest in the theory and practice of counterinsurgency In light of this this book provides a rigorous analysis of those individuals who have contributed to both the theory and practice of counterinsurgency warrior scholars These are soldiers who have bridged the academic military divide by influencing doctrinal and intellectual debates about irregular warfare Irregular warfare is notoriously difficult for the military and scholarly understanding about this type of warfare is also problematic especially given the residual anti intellectualism within Western militaries Thus *The Theory and Practice of Irregular Warfare* is dedicated to analysing the best perceivable bridge between these two worlds The authors explore the theoretical and practical contributions made by a selection of warrior scholars of different nationalities from periods ranging from the French colonial wars of the mid twentieth century to the Israeli experiences in the Middle East from contributions to American counter insurgency made during the Iraq War to the thinkers who shaped the US war in Vietnam This book will be of much interest to students of counterinsurgency strategic studies defence studies war studies and security studies in general

**Afghanistan'S Experiences** Hamid Hadi M.D, 2016-03-31 Afghanistans Experiences is a sweeping analysis of the historic events and interplay between politics religion and terrorism in Afghanistan the southeastern region of the country and beyond The author has vividly explained the origin and the rise of Taliban to power one of the most important
