Decline of American Democracy Robert E. Denton, Jr., Benjamin Voth, 2016-12-08 This book explores the social and political implications of what the authors identify as the decline of the social contract in America and the rise of a citizenry that has become self centered entitled and independent For nearly two decades America has been in a cultural war over moral values and social issues becoming a divided nation geographically politically socially and morally We are witnessing the decline of American Democracy the authors argue resulting from the erosion of the idea of the social contract Especially since the baby boomers each successive generation has emphasized personal license to the exclusion of service social integration and the common good With the social contract the larger general will becomes the means of establishing reciprocal rights and duties privileges and responsibilities as a basis of the state The balkanization of America has changed the role of government from one of oversight to one of dependency where individual freedom and responsibility are sacrificed for group equality This book examines the conditions of this social fragmentation and offers ideas of an American Renaissance predicated on communicative idealism All Hail the Death of Truth! the Advent of the Postmodern Era Keene

F. Tiedemann,2005-07-02 In this academic guide to postmodern philosophy the author explains how and why progressive scholars engage in a cultural war against traditional American values His research analyses how the advance of a reciprocally pantheistic and atheistic paradigm promotes an amoral agenda advocated by America s generation of postmodern politicians

In the Name of Education Jonas E. Alexis,2007 Alexis convincingly examines the crisis in education from a Christian perspective Social Issues

Private and Public Corruption William C. Heffernan,John Kleinig,2004-10-27 The book roots corruption in the idea of a departure from conventional standards and thus offers an account not only of its corrosiveness but also of its malleability and controversiality In the course of a broadranging exploration it examines various links between private and public corruption connecting the latter with other social and political structures

Race and Morality Melvyn L. Fein,2012-12-06 After I had finished my presentation a colleague and I sat rocking on the hotel porch to discuss its merits It was a picture perfect fall day in Jekyll Island Georgia and he was a friend Yes he explained what I was saying seemed to be true And yes it probably needed to be said but why did I want to be the one to say it Wasn t I after all a tenured professor who didn t need to make a fuss in order to retain his job Didn t it make sense to just kick back and enjoy the easy life I had earned The topic of our tete a tete was my speculations about race relations and he was certain that too much honesty could only get me in trouble Given my lack of political correctness people were sure to assume that I was a racist and not give me a fair hearing This was a prospect I had previously contemplated Long before embarking on this volume I had often asked myself why I wanted to write it The ideological fervor that dominates our public dialogue on race guaranteed that some people would perceive me as a dangerous scoundrel who had to be put in his place

Heaven in the American Imagination Gary Scott Smith,2011-06-01 Drawing on an astounding array of sources including works of art music sociology psychology folklore liturgy sermons poetry fiction and devotional books Smith paints a sweeping provocative portrait of what Americans from Jonathan Edwards to Mitch Albom have thought about heaven Concepts of heaven he shows are ever changing constantly adapting to the spirit of the age In the colonial era heaven focused primarily on the glory of God Today many see it as a celestial entertainment center or a paradise where everyone can reach their full potential

Human Hierarchies Melvyn L. Fein,2012-08-14 Human beings are hierarchical animals Always and everywhere people have developed social ranking systems These differ dramatically in how they are organized but the underlying causal mechanisms that create and sustain them are the same Whether they are on the top or bottom of the heap people attempt to be superior to some other persons or group This is the root of Melvyn L Fein s thesis presented in *Human Hierarchies A General Theory* Fein traces the development of changes from hunter gatherer times to our own techno commercial society In moving from small to large communities humans went from face to face contests for superiority to more anonymous and symbolic ones Societies evolved from hunting bands where the parties knew each other through big men societies chieftainships agrarian empires patronage chains caste societies estate systems and market

oriented democracies Where once small groupings were organized primarily by strong forces such as personal relationships the now standard large groupings are more dependent on weaker forces such as those provided by social roles Bureaucracies and professional roles have become prominent Bureaucracies allow large scale organizations to maintain control of people by limiting the potential destructiveness of unregulated tests of strength and by clarifying chains of command Their rigidity and unresponsiveness requires that they be supplemented by professional roles At the same time a proliferation of self motivated experts delegate authority downward thereby introducing a more flexible decentralization This analysis is a unique and significant advance in both the sociology and anthropology of stratification among humans Post-Liberalism Melvyn L.

Fein,2017-09-08 Liberalism is dying despite its superficial appearance of vigor Most of its adherents still believe it is the wave of the future but they are clinging to a sinking dream So says Melvyn L Fein who argues that liberalism has made countless promises almost none of which have come true Under its auspices poverty was not eliminated crime did not diminish the family was not strengthened education was not improved nor was universal peace established These failures were not accidental they flow directly from liberal contradictions In Post Liberalism Fein demonstrates why this is the case Fein contends that an inverse force rule dictates that small communities are united by strong forces such as personal relationships and face to face hierarchies while large scale societies are integrated by weak forces such as technology and social roles As we become a more complex techno commercial society the weak forces become more dominant This necessitates greater decentralization in direct opposition to the centralization that liberals celebrate Paradoxically this suggests that liberalism as an ideology is regressive rather than progressive If so it must fail Liberals assume that some day under their tutelage these trends will be reversed but this contradicts human nature and history s lessons According to Fein we as a species are incapable of eliminating hierarchy or of loving all other humans with equal intensity Neither as per Emile Durkheim are we able to live in harmony without appropriate forms of social cohesion **Studies of Identity in the 2008**

Presidential Campaign Robert E. Denton Jr.,2010-06-14 To simply say the 2008 presidential election was historic seems like an understatement The election was unique in many ways beyond the selection of the nation s first African American as President The drama of the election was also heightened by the historic nomination battle between Hillary Clinton and Barack Obama The contest generated issues of race and gender throughout the campaign as did the candidacy of Sarah Palin as the Republican Vice Presidential nominee And John McCain brought his own unique qualities to the campaign Vietnam War hero long term Congressional service record feisty temperament and the oldest first time presidential candidate to run for the Presidency Thus issues of race gender and age dominated the campaign both implicitly and explicitly The candidacies of Clinton Obama McCain and Palin provided the context and dynamics for charges of racism sexism and ageism **Studies of Identity in the 2008 Presidential Campaign** explores issues of identity politics and the presidential election Investigating all aspects of race gender or ageism the contributors to this volume address the role and function of identity politics in political

campaigns and highlight challenges of identity politics in contemporary political campaigns What If America Were a Christian Nation Again? D. James Kennedy, Jerry Newcombe, 2005-04-10 Some people would gnash their teeth at the idea that America was and can be again a Christian nation They will not be satisfied until they have removed every vestige of our Christian heritage from our minds and from our surroundings Yet in this book D James Kennedy and Jerry Newcombe document the incontrovertible fact that America began as a Christian nation And we can get back on track before it s too late they say What made us great in the first place is our rich Christian heritage It s time to reclaim America **Christians in the Movies** Peter E. Dans, 2009 Contains summaries of nearly two hundred Christian themed movies made between 1905 and 2008 each with commentary arranged chronologically by decade to highlight the decline in positive portrayals The Integration of Faith and Learning Robert A. Harris, 2004-04-22 The Integration of Faith and Learning A Worldview Approach provides students with the philosophical context and practical tools necessary for making the connections between Christian knowledge and the knowledge they will acquire during their undergraduate and graduate years in higher education This book focuses on helping students understand how worldviews influence the interpretation of data and even what is judged to be knowledge itself The worldviews of philosophical naturalism postmodernism and Christianity are compared and analyzed Throughout the book emphasis is placed on helping students develop the practical skills needed to evaluate knowledge claims and to integrate all knowledge into a unified whole through the touchstone of Christian truth **The Gospel According to the Simpsons** Mark I. Pinsky, 2001-01-01 Examines the treatment of religion and spirituality in the animated television series including its depiction of God Jesus heaven hell and prayer in chapters devoted to Homer Lisa Ned Reverend Lovejoy Krusty and Apu A Treasure Chest of Hidden History Rusty Glover, 2013-09-16 As a high school history teacher for the past 25 years I have collected and read hundreds of books pertaining to my subjects taught On the completion of each book I would carefully take notes on the most interesting events quotes or interpretations that I felt would enhance instruction for my students After filling numerous notepads of information on over 800 books I contemplated a project of sharing my most interesting findings The result of this twenty plus year project is this book This book is divided into 16 chapters based on the various topics presented Some chapters contain a small amount of entries such as Nicknames Espionage or Labor while chapters on the Presidents or quotes will fill over thirty pages The first chapter puts emphasis on the role my home state of Alabama has played on the national scene One chapter is entitled Miscellaneous Odds and Ends due to the subject matter not fitting into any other classification **Masquerade** Edward W. Chynoweth, 2005-11-09 Chynoweth asserts that the feminist message is false His topics include the roots of the falsehood which stem in part from the 1964 Civil Rights Act s Title VII the right order of the human sexes the role of art and culture marriage biblical paradigms and his interpretation of Catholic thought His chapter entitled History as a Society Column for Lovely Ladies Herstory is interesting as is his summary of thought on egalitarianism from Aristotle to Bryce and Stephen The bibliography
