The Age Of Power :

The Age of power Carl J. Friedrich, 1957 **Ecology and Power in the Age of Empire** Corey Ross, 2017-03-31

Ecology and Power in the Age of Empire provides the first wide ranging environmental history of the heyday of European imperialism from the late nineteenth century to the end of the colonial era. It focuses on the ecological dimensions of the explosive growth of tropical commodity production, global trade and modern resource management transformations that still visibly shape our world today and how they were related to broader social, cultural and political developments in Europe's colonies. Covering the overseas empires of all the major European powers, Corey Ross argues that tropical environments were not merely a stage on which conquest and subjugation took place but were an essential part of the colonial project, profoundly shaping the imperial enterprise even as they were shaped by it. The story he tells is not only about the complexities of human experience but also about people's relationship with the ecosystems in which they were themselves embedded: the soil, water, plants and animals that were likewise a part of Europe's empire. Although it shows that imperial conquest rarely represented a sudden bout of ecological devastation, it nonetheless demonstrates that modern imperialism marked a decisive and largely negative milestone for the natural environment. By relating the expansion of modern empire, global trade and mass consumption to the momentous ecological shifts that they entailed, this book provides a historical perspective on the vital nexus of social, political and environmental issues that we face in the twenty-first century world.

The Age of Power Carl Joachim Friedrich, 1957 *The Age of Lincoln and the Art of American Power, 1848-1876*

William Nester, 2014-02-01. Although Abraham Lincoln was among seven presidents who served during the tumultuous years between the end of the Mexican War and the end of the Reconstruction era, history has not been kind to the others: Zachary Taylor, Millard Fillmore, Franklin Pierce, James Buchanan, Andrew Johnson and Ulysses S. Grant. In contrast, history sees Abraham Lincoln as a giant in character and deeds. During his presidency, he governed brilliantly, developed the economy, liberated four million people from slavery, reunified the nation and helped enact the Homestead Act among other accomplishments. He proved to be not only an outstanding commander in chief but also a skilled diplomat, economist, humanist, educator and moralist. Lincoln achieved that and more because he was a master of the art of American power. He understood that the struggle for hearts and minds was the essence of politics in a democracy. He asserted power mostly by appealing to people's hopes rather than their fears. All along, he tried to shape rather than reflect prevailing public opinions that differed from his own. To that end, he was brilliant at bridging the gap between progressives and conservatives by reining in the former and urging on the latter. His art of power ultimately reflected his unswerving devotion to the Declaration of Independence's principles and the Constitution's institutions or, as he so elegantly expressed it, to a government of the people, by the people and for the people.

Masculinity, Identity, and Power Politics in the Age of Justinian Michael Stewart, 2025-10-01. A generation of historians has been captivated by the notorious views on gender found in the mid-sixth

century Secret History by the Byzantine historian Procopius of Caesarea Yet the notable but subtler ways in which gender coloured Procopius most significant work the Wars have received far less attention This monograph examines how gender shaped the presentation of not only key personalities such as the seminal power couples Theodora Justinian and Antonina Belisarius but also the Persians Vandals Goths Eastern Romans and Italo Romans in both the Wars and the Secret History By analysing the purpose and rationale behind Procopius gendered depictions and ethnicizing worldview this investigation unpicks his knotty agenda Despite Procopius s reliance on classical antecedents the gendered discourse that undergirds both texts under investigation must be understood within the broader context of contemporary political debates at a time when control of Italy and North Africa from Constantinople was contested

The Power of the Pope During the Middle Ages Jean Edme Auguste Gosselin,1853

The Age of Jackson and the Art of American Power, 1815-1848 William Nester,2013-08-31

As William Nester asserts in *The Age of Jackson* it takes quite a leader to personify an age A political titan for thirty three years 1815 1848 Andrew Jackson possessed character beliefs and acts that dominated American politics Although Jackson returned to his Tennessee plantation in March 1837 after serving eight years as president he continued to overshadow American politics Two of his proteges Martin the Magician van Buren and James Young Hickory Polk followed him to the White House and pursued his agenda Jackson provoked firestorms of political passions throughout his era Far more people loved than hated him but the fervor was just as pitched either way Although the passions have subsided the debate lingers Historians are split over Jackson s legacy Some extol him as among America s greatest presidents citing his championing of the common man holding the country together during the nullification crisis and eliminating the national debt Others excoriate him as a mean spirited despot who shredded the Constitution and damaged the nation s development by destroying the Second Bank of the United States defying the Supreme Court and grossly worsening political corruption through his spoils system Still others condemn his forcibly expelling more than forty thousand Native Americans from their homes and along the Trail of Tears which led far west of the Mississippi River with thousands perishing along the way In his clear eyed assessment of one of the most divisive leaders in American history Nester provides new insight into the age old debate about the very nature of power itself
