The Age of Suspicion James Artur Wechsler,1971 **When the Old Left Was Young** Robert Cohen,1993 This text explores the first mass student movement in American history a crusade led largely by young Communists in the Depression era Caused by the economic crisis of the 1930 s it was both an anti war campaign and a movement championing an egalitarian vision of the welfare state

Tropisms and the Age of Suspicion Nathalie Sarraute,1963 *Early Modern French Thought* Michael Moriarty,2003 This book is an examination of three major French thinkers of the seventeenth century Descartes Pascal and Malebranche of whom the latter two are comparatively little studied in the English speaking world It deals with a common attitude of suspicion towards everyday experience which they see as dominated and obscured by sensation imagination and the presence of the body This attitude however obliges them to develop detailed and sophisticated accounts of the shaping of experience not only by the body but by interpersonal and social relationships and of the tension between humannature as it is and as we experience it The treatment of Descartes thus challenges the interpretation that sees him as eliminating the body from subjectivity while that of Pascal and Malebranche shows how their critical attitude towards experience a fertile source for twentieth century French thinkers is linked with their religious doctrines especially their Augustinian emphasis on Original Sin

Nathalie Sarraute Ann Jefferson,2023-05-02 A leading exponent of the Nouveau Roman Nathalie Sarraute 1900 1999 was also one of France s most cosmopolitan literary figures and her life was bound up with the intellectual and political ferment of 20th century Europe Ann Jefferson s work is an authoritative biography of this major writer

Fighting Authoritarianism Britt Haas,2021-05-20 This engaging study of progressive youth organizations charts their origins their quest to fashion an America true to its ideals and their demise Phillip Deery Victoria University Melbourne During the Great Depression young radicals in New York developed a vision of and for America molded by their understanding of the Great War and global economic collapse as well as other events unfolding both at home and abroad They worked to make their vision of a free equal democratic society based on peaceful coexistence a reality Their attempts were ultimately unsuccessful but their voices were heard on a number of issues including free speech racial justice and peace A major contribution to the historiography of the era Fighting Authoritarianism provides an important new examination of US youth activism of the 1930s including the limits of the New Deal and how youth activists pushed FDR Eleanor Roosevelt and other New Dealers to do more to address economic distress and social inequality and promote more inclusionary politics Britt Haas questions the interventionist versus isolationist paradigm and also explores the era not as a precursor to WWII but as a moment of hope about institutionalizing progress in freedom equality and democracy Fighting Authoritarianism corrects misconceptions about these activists vision heavily influenced by the American Dream they d been brought up to revere For them that meant embracing radical ideologies especially the socialism and communism widely discussed debated and promoted on the city s college campuses They didn t believe they were turning their backs on American values instead they thought such ideologies were the only way to make America live up to its promises This study also outlines the careers of Molly Yard Joseph Lash and James Wechsler how they retracted and for Yard and Lash reclaimed their radical past and how New York continued to hold a prominent platform in their careers Lash and Wechsler worked for the New York Post the latter as editor until 1980 Examining the decade from this perspective highlights the promise of America as young people understood it a historic moment when anything seemed possible Lyric and Liberalism in the Age of American Empire Hugh Foley,2022-08-15 What is the difference between the I of a poem the lyric subject and the liberal subject of rights Lyric and Liberalism in the Age of American Empire uses this question to re examine the work of five major American poets

changing our understanding of their writing and the field of post war American poetry Through extended readings of the work of Elizabeth Bishop Robert Lowell Amiri Baraka John Ashbery and Jorie Graham Hugh Foley shows how poets have imagined liberalism as a problem for poetry Foley s book offers a new approach to ongoing debates about the nature of lyric by demonstrating the entanglement of ideas about the lyric poem with the development of twentieth century liberal discussions of individuality Arguing that the nature of American empire in this period underpinned by the discourse of individual rights forced poets to reckon with this entanglement it demonstrates how this reckoning helped to shape poetry in the post war period By tracing the ways a lyric poem performs personhood and the ways that this person can be distinguished from the individual envisioned by post war liberalism Foley shows how each poet stages a critique of liberalism from inside the standpoint of lyric This book demonstrates the capacities of poetry for rethinking its own relation to history and politics providing a new perspective on a vital era of American poetry The Age of Ideology John Schwarzmantel,1998-03 Assesses the major ideologies of modern times including liberalism socialism and conservatism and traces their relationships with one another with the ambiguous ideology of nationalism and to the emergence of modern societies democratic politics and Enlightenment ideas Overviews key themes **Study Guide to Darkness at Noon and The Age of Longing by Arthur Koestler** Intelligent Education,2020-03-27 A comprehensive study guide offering in depth explanation essay and test prep for selected works by Arthur Koestler one of the twentieth century s greatest political writers Titles in this study guide include Darkness at Noon and The Age of Longing As an influential voice of anti Soviet literature Koestler demonstrates that ethical imperatives cannot be over analyzed or rationalized by science Moreover Koestler s work exhibits perversions of the mind and a classic view into the Communist ideology This Bright Notes Study Guide explores the context and history of Koestler s classic work helping students to thoroughly explore the reasons they have stood the literary test of time Each Bright Notes Study Guide contains Introductions to the Author and the Work Character Summaries Plot Guides Section and Chapter Overviews Test Essay and Study Q As The Bright Notes Study Guide series offers an in depth tour of more than 275 classic works of literature exploring characters critical commentary historical background plots and themes This set of study guides encourages readers to dig deeper in their understanding by including essay questions and answers as well as topics for further research **The Art of Editing in the Age of Convergence** Brian S. Brooks,James L. Pinson,2017-07-28 The Art of Editing in the Age of Convergence remains the most comprehensive and widely used text on editing in journalism This latest edition continues to shift the focus toward online multimedia as more and more people get their news that way Amid these changes the authors continue to stress the importance of taking the best techniques learned in print and broadcast editing and applying them to online journalism The reality is that most people now often first learn of breaking news on Facebook or Twitter and therefore the challenge for journalists in this new media world is distinguishing the quality and dependability of their work from all the fake news and propaganda memes now so common online This book

is designed to help serious news providers produce a product that is well edited and grounded in the best practices of journalism
