The Labyrinth of Universality Hena Maes-Jelinek, 2006-01-01 Wilson Harris many times nominated for the Nobel Prize in Literature is a British writer of Guyanese origin one of the most original novelists and critics of the twentieth century and probably the first to use and interpret the aesthetically fruitful notion of cross culturalism Harris s insights into the profound symbiosis between history culture and artistic expression were initially inspired by his encounters with Amerindians in the Guyanese rainforest interior where he led many surveying expeditions These encounters aroused his interest in pre Columbian peoples who figure prominently in many of his novels and stories His perception of the Guyanese landscape is the source of his unique narrative rhetoric richly metaphoric language and philosophy of existence i e the epistemological and phenomenological interrelatedness between man animal life and nature The present study offers magisterial in depth interpretations of Harris s exhilaratingly complex and shape shifting fictional worlds

The Stepmother Tongue John Skinner, 1998-09-18 There are numerous twentieth century writers in English who are not technically native speakers of the language and whose relation to it is ambivalent problematic or even hostile by a simple kinship analogy one may often speak of the stepmother tongue Whilst fully aware of the current debates in postcolonial theory John Skinner is also conscious of its sometimes unhelpful complexities and contradictions The focus of this study is thus firmly on the fictional practice of the writers discussed He offers the reader an insight into the diversity and rewards of contemporary anglophone fiction whilst analysing some eighty individual texts A uniquely comprehensive guide the book will be welcomed by students and teachers of postcolonial literature

Encyclopedia of Postcolonial Studies John Charles Hawley, 2001-09-30 The collapse of empires has resulted in a remarkable flourishing of indigenous cultures in former colonies The end of the colonial era has also witnessed a renaissance of creativity in the postcolonial world as modern writers embrace their heritage The experience of postcoloniality has also drawn the attention of academics from various disciplines and has given rise to a growing body of scholarship This reference work overviews the present state of postcolonial studies and offers a refreshingly polyphonic treatment of the effects of globalization on literary studies in the 21st century The volume includes more than 150

alphabetically arranged entries on postcolonial studies around the world Entries on individual authors provide brief biographical details but primarily examine the author's handling of postcolonial themes So too entries on theoreticians offer background information and summarize the person's contributions to critical thought Entries on national literatures explore the history of postcoloniality and the ways in which writers have broadly engaged their legacy while those on important topics discuss the theoretical origin and current ramifications of key concepts in postcolonial studies Cross references and cited works for further reading are included while a comprehensive bibliography concludes the volume

Commonwealth Literature NA NA, 2016-01-03 [The A to Z of Fantasy Literature](#) Brian Stableford, 2009-08-13 Once upon a time all literature was fantasy set in a mythical past when magic existed animals talked and the gods took an active hand in earthly affairs As the mythical past was displaced in Western estimation by the historical past and novelists became increasingly preoccupied with the present fantasy was temporarily marginalized until the late 20th century when it enjoyed a spectacular resurgence in every stratum of the literary marketplace Stableford provides an

invaluable guide to this sequence of events and to the current state of the field The chronology tracks the evolution of fantasy from the origins of literature to the 21st century The introduction explains the nature of the impulses creating and shaping fantasy literature the problems of its definition and the reasons for its changing historical fortunes The dictionary includes cross referenced entries on more than 700 authors ranging across the entire historical spectrum while more than 200 other entries describe the fantasy subgenres key images in fantasy literature technical terms used in fantasy criticism and the intimately convoluted relationship between literary fantasies scholarly fantasies and lifestyle fantasies The book concludes with an extensive bibliography that ranges from general textbooks and specialized accounts of the history and scholarship of fantasy literature through bibliographies and accounts of the fantasy literature of different nations to individual author studies and useful websites

Delfino, 2016-05-31 Gianluca Delfino's study of one of the Caribbean's most controversial authors paves the way for looking at Wilson Harris's body of work in a new light Harris's imaginative approach to reality is discussed in relation to the categories of history and time with reference to several novels with a special focus on *The Infinite Rehearsal* *Jonestown* and *The Dark Jester* spanning more than forty years of his vast literary production Delfino's analysis encompassing critical perspectives ranging from African philosophy to Jungian readings through historiography and anthropology demonstrates that Harris's works as a whole show a remarkable unity of thought rooted in their author's complex imagination As a result the cross cultural quality of Harris's thought emerges as a healing outcome of the traumatic colonial encounter bringing together elements of Amerindian African and European origin in an ongoing dialogue with time nature and the psyche
