**The Alphabet: a Key to the History of Mankind** David Diringer, Reinhold Regensburger, 1968      **The Alphabet: A Key to the History of Mankind** David Diringer, 2008-06 This scarce antiquarian book is a facsimile reprint of the original. Due to its age it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving and promoting the world's literature in affordable, high-quality modern editions that are true to the original work.      **The Alphabet** David Diringer, 1948      **The Alphabet, a Key to the History of Mankind, by David Diringer, ... Foreword By... Ellis Minns, ...** David Diringer, Ellis Minns,      **The Healing Hand** Guido Majno, 1975 This journey to the beginnings of the physician's art brings to life the civilizations of the ancient world: Egypt of the Pharaohs, Greece at the time of Hippocrates, Rome under the Caesars, the India of Ashoka and China as Mencius knew it. Probing the documents and artifacts of the ancient world with a scientist's mind and a detective's eye, Guido Majno pieces together the difficulties people faced in the effort to survive their injuries as well as the odd, chilling or inspiring ways in which they rose to the challenge. In asking whether the early healers might have benefited their patients or only hastened their trip to the grave, Dr. Majno uncovered surprising answers by testing ancient prescriptions in a modern laboratory. Illustrated with hundreds of photographs, many in full color and climaxed ten years of work, *The Healing Hand* is a spectacular recreation of man's attempts to conquer pain and disease.

*The Alphabet; a Key to the History of Mankind. Foreword* David Diringer, 1948      **The Alphabet. A Key to the History of Mankind, Etc. [With Illustrations.]** David Diringer, 1948      **The Alphabet** David Diringer, 2025      **The Alphabet; A Key to the History of Mankind. Foreword by Sir Ellis Minns** David Diringer, 1948      *Inventing the Alphabet* Johanna Drucker, 2022-08-08 The first comprehensive intellectual history of alphabet studies, *Inventing the Alphabet* provides the first account of two and a half millennia of scholarship on the alphabet. Drawing on decades of research, Johanna Drucker dives into sometimes obscure and esoteric references, dispelling myths and identifying a pantheon of little-known scholars who contributed to our modern understandings of the alphabet, one of the most important inventions in human history. Beginning with Biblical tales and accounts from antiquity, Drucker traces the transmission of ancient Greek thinking about the alphabet's origin and debates about how Moses learned to read. The book moves through the centuries, finishing with contemporary concepts of the letters in alpha-numeric code used for global communication systems. Along the way, we learn about magical and angelic alphabets, antique inscriptions on coins and artifacts, and the comparative tables of scripts that continue through the development of modern fields of archaeology and paleography. This is the first book to chronicle the story of the intellectual history through which the alphabet has been invented as an object of scholarship.      **Dahl's History of the Book** William A. Katz, 1995 From cave paintings to computers, this overview of the history of books and communication is written for the layperson and student.
