Re-thinking Abortion Mary Boyle, 2014-02-25 Women have been able to have abortions legally for over 30 years Yet few books have considered it as anything other than a health issue Mary Boyle breaks this mould by considering the constructions of abortion in Western society Drawing on ideas from sociology politics anthropology and law as well as psychology she shows how abortion is linked to sexual behaviour and motherhood in the complex web of gender and power relations This book will be of interest to all those engaged with feminist thinking whether as student academic or professional in practice

The Psychological Processes of Childbearing Joan Raphael-Leff, 2018-05-03 Childbearing seems eternal primordial and universal Yet human reproduction in the 21st century is in a state of flux This accessible book highlights dramatic changes that have occurred over the last decades focusing on both individual and cross cultural diversity across the now elongated childbearing cycle and the uniqueness of desire and emotional experience It does so by locating the transition to parenthood in its psycho sexual and socio economic context emphasising interweaving internal external realities and our inherent interconnectedness with others Included are conscious and unconscious factors determining beliefs expectations and parenting practices and ways in which these are affected by rapid urbanisation shrinking families societal instability HIV governmental maternity and child care policies and attitudes of professionals Drawing widely on empirical and clinical research from disparate disciplines psychoanalytic neuro scientific neonatal sociological obstetric anthropological and midwifery this resource book synthesises these to illustrate a spectrum of processes affecting each person's mental health

The Abortion Question Hyman Rodman, Betty Sarvis, Joy Walker Bonar, 1987 Available for the first time in English this is the definitive account of the practice of sexual slavery the Japanese military perpetrated during World War II by the researcher principally responsible for exposing the Japanese government's responsibility for these atrocities The large scale imprisonment and rape of thousands of women who were euphemistically called comfort women by the Japanese military first seized public attention in 1991 when three Korean women filed suit in a Tokyo District Court stating that they had been forced into sexual servitude and demanding compensation Since then the comfort stations and their significance have been the subject of ongoing debate and intense activism in Japan much if it inspired by Yoshimi's investigations How large a role did the military and by extension the government play in setting up and administering these camps What type of compensation if any are the victimized women due These issues figure prominently in the current Japanese focus on public memory and arguments about the teaching and writing of history and are central to efforts to transform Japanese ways of remembering the war Yoshimi Yoshiaki provides a wealth of documentation and testimony to prove the existence of some 2 000 centers where as many as 200 000 Korean Filipina Taiwanese Indonesian Burmese Dutch Australian and some Japanese women were restrained for months and forced to engage in sexual activity

with Japanese military personnel Many of the women were teenagers some as young as fourteen To date the Japanese government has neither admitted responsibility for creating the comfort station system nor given compensation directly to former comfort women This English edition updates the Japanese edition originally published in 1995 and includes introductions by both the author and the translator placing the story in context for American readers **Psychological Sequelae** Katherine T.
