

American Dream?

Everybody heard about American dream. Does it exist now? What is it? This is a private question for different people. There is no one perfect definition of the American Dream. It is different according to each individual. The goals of people are countless and very specific to each individual.

The standard "American Dream" usually consists of ideas such as equality, freedom, individuality, independence, and prosperity; the list goes on. In general, the American dream can be defined as an equal opportunity for everyone to succeed and freedom for all citizens to achieve their goals and become rich and famous if only they work hard enough. Universally it represents the opportunity for people to seek out their individual desires under the political rule of democracy.

The American Dream is often associated with living the good life and prosperity. In contemporary society, the good life and prosperity are often associated with material wealth and acquisition. In today's culture, people are much more likely to be judged by what we own rather than by what we do or who we are.

Most popular image of the American dream is a house with white fence, car, children and wealth. In reality, some people can say that the American dream is nothing more than a facade and illusion which keeps people working merely to keep a subsistence level of living alive.

The "American Dream" has been changed from time to time and will continue changing as the people living it change. Some think that the American dream is still a viable element today, for others it is only an illusion. Some people think that the American dream focusses only on the success of the individual, but not the well-being of the whole population and the society, in general.

Now many people want to believe that Americans "wrestle and win over the problems of how to live according to our individual values" while being respectful to others freedoms. Now many people believe in a leading economic position of America and its internal financial and political stability. It can inspire current and the next generations to achieve the American dream.

Actually, the "American Dream" can change everyone for the better or the worse. At this point, my dream is to have success in my profession I choose, a loving spouse, a good house, a few great kids and a wonderful circle of sincere and devoted friends around me. Why not? It's lovely!

Questions: 1) Do you believe that the American dream is still working?

2) Is the idea of "American dream" possible in your home country?
