## **The Achievement Of John Henry Newman:**

Achievement of John Henry Newman Ian Ker, 2001-01-08 An excellent very readable summary of Cardinal Newman's intellectual achievement. Ker's most original contribution lies in his attempt to credit Newman with an original theory of knowledge and enduring significance as a philosopher. Library Journal

**The Cambridge Companion to John Henry Newman** Ian Ker, Terrence Merrigan, 2009-04-02 John Henry Newman 1801-90 was a major figure in nineteenth century religious history. He was one of the major protagonists of the Oxford or Tractarian Movement within the Church of England whose influence continues to be felt within Anglicanism. A high profile convert to Catholicism, he was an important commentator on Vatican I and is often called the Father of the Second Vatican Council. Newman's thinking highlights and anticipates the central themes of modern theology including hermeneutics, the importance of historical critical research, the relationship between theology and literature, and the reinterpretation of the nature of faith. His work is characterised by two elements that have come especially to the fore in post-modern theology: namely the importance of the religious imagination and the fiduciary character of all knowledge. This Companion fills a need for an accessible, comprehensive and systematic presentation of the major themes in Newman's work.

**The Genius of John Henry Newman** John Henry Newman, 1989 This is the first major anthology of John Henry Newman's writings to appear in many years. Unlike most Newman anthologies, it covers the full range of Newman's achievement both as a major Victorian writer and as a Christian thinker of universal significance. Divided into five sections, the book focuses on Newman as educator, philosopher, preacher, theologian, and writer, presenting some of Newman's finest writing, much of which is virtually unknown or inaccessible.

The Educated Person D. G. Mulcahy, 2008-03-27 Liberal education has long been a fascination for scholars in a variety of disciplines and is closely associated with the idea of the educated person. Seen at one time as a matter for colleges and universities, over the years it has become central to the debate surrounding general education in high school and even the earlier grades. Yet so many and varied are the uses of the term liberal education that the question arises of whether and how the idea is any longer a useful or helpful construct. In what way might it speak helpfully to educational challenges we face today? In what ways does it still speak helpfully to educational challenges we face today? In what ways might it be a guide as we search for a better way forward? These are the central questions that are addressed in this book. In doing so, the positions of three theorists, John Henry Newman, Mortimer J. Adler, and Jane Roland Martin, who have written about liberal education in a compelling way and from different perspectives, are selected for close analysis. The analysis is built upon to fashion a new ideal of the educated person and a new theory of liberal education.

**Jesuit Education and Social Change in El Salvador** Charles J. Beirne, S.J., 2013-09-13 This book examines a unique university model for social change the University of Central America Jos Sime n Ca as UCA in El Salvador where the military murdered six Jesuit priests and two women on November 16 1989 The book addresses such important questions as Is the role of a university to train managers for maintaining the status quo or to prepare graduates who will help create a new society Is the university an ivory tower or a center for research on social problems Beginning with the historical social economic and political context of El Salvador this book examines the university and the factors that contributed to its changed focus such as liberation theology The bishops of El Salvador wanted a traditional Catholic university but the Jesuits and their lay colleagues established an institution of Christian inspiration free from ecclesiastical entanglements The rectorate of Luis Achaerandio S J 1969 75 saw new academic programs research and social outreach The UCA took over the journal Estudios Centroamericanos which undertook the analysis of such social issues as the 1969 war with Honduras agrarian reform and the fraudulent elections of 1972 Rom n Mayorga's term of office included intensified academic and financial planning and a sharper focus on crucial national issues with the result that rightist bombs began to explode on the campus and employees were threatened In 1977 death squads gave the Jesuits a month to leave the country or be killed but the Jesuits refused to go The final chapters cover the Ellacur a decade 1979 89 Despite continued bombings and attacks in the press the UCA expanded academic programs centers for social outreach and publications and played a major role in calling for negotiations to end the civil war which had erupted in the early 1980s

**Christology From Within and Ahead** Mark Chan, 2021-10-01 Troeltsch's struggle with historicism sets the stage for a proposal that Christology be done from within and from ahead Gadamer's philosophical hermeneutics and Schleiermacher's experiential theology inform a Christology from within that is rooted in tradition and experience while Pannenberg's notion of proleptic eschatological fulfilment serves as resource for a Christology from ahead This volume develops a hermeneutical Christology that takes into account the historical contingency of knowledge and seeks a Christology beyond the objectivism of timeless truth and the relativism of absolutised contextuality The book is concluded with an examination of the convergence of critical traditionality experiential appropriation and eschatological prolepsis in the Christology of the apostle Paul The author explores how Christology might respond to the scandal of universality in postmodernity without defaulting on its claim to transcontextual

referentiality      **Controversies** Karl Keating, 2001      Newman and His Contemporaries Edward Short, 2011-04-21 This is a book on John Henry Newman's influence on some of the most fascinating characters of the 19th century and their influence on him. No one in nineteenth century England had a more varied circle of friends and contacts than John Henry Newman. 1801-1890 the priest, theologian, educator, philosopher, poet, and writer who began his career as an Anglican, converted to Catholicism and ended his days a Cardinal. That he was also a leading member of the Oxford Movement, brought the Oratory to England, founded the Catholic University in Dublin, and corresponded with men and women from all backgrounds from around the world made him a figure of enormous interest to his contemporaries. In this study of Newman's personal influence, Edward Short looks closely at some of Newman's relations with his contemporaries to show how this prophetic thinker drew on his personal relationships to develop his many insights into faith and life. Some of the contemporaries covered include Keble, Pusey, Gladstone, Matthew Arnold, Richard Holt Hutton, Lady Georgiana Fullerton, and Thackeray. Based on a careful reading of Newman's correspondence, the book offers a fresh look at an extraordinary figure whose work continues to influence our own contemporaries.

Ancient Faith and American-born Churches Ted Campbell, Ann Riggs, Gilbert Wayne Stafford, 2006 Brings together in dialogue representatives of various Christian churches which function as though they were in completely different worlds. These dialogues were undertaken by the ecclesiology study group of the Faith and Order Commission, National Council of the Churches of Christ, Publisher.

**Saving Wisdom** Brian W. Hughes, 2011-02-07 Is theology possible within a Christian university? Beneath the emphasis of contextual, philosophical, and ecclesial pluralism, what is its academic nature? Further, who can participate in it? Recent debates and discussions by theologians that touch upon these questions seem to run in circles: theology is an academic specialty enjoying academic freedom; theology must bolster ecclesial identity; become more catechetical and serve the church; theology must contribute to and shape public policy. Though such positions recur, they overlook latent but interrelated characteristics embedded within the nature and place of theology within the Christian university that affect them all. Upon analysis of four major theologians: Friedrich Schleiermacher, John Henry Newman, Avery Cardinal Dulles S.J., and Edward Farley, I argue that there are two major patterns at work. First, theology is more a sapientia or wisdom than a traditional academic discipline. Second, all descriptions of theology in the university possess an inclusive or exclusive soteriological character. These patterns pervade diverse topics: the relationship of theology to the church; authority; a theologian's ecclesial and academic commitments; the preconditions of faith for theological understanding; participation in a religious symbol system; theology as wisdom; and the difference between religion and theology. How one implicitly defines Christian salvation regarding the place of theology in the Christian university opens or closes the practice of theology to those who teach and learn it.

**Communities of Informed Judgment** Frederick D. Aquino, 2004-03 An original contribution to Newman studies, the book has an interdisciplinary focus drawing from recent work in social epistemology, virtue epistemology, and cognitive science. It also takes up issues relevant to the philosophy of

religion epistemology of religious belief systematic theology ecumenical dialogue and studies in John Henry Newman *The Philosophy of Religion in Nineteenth-century England and Beyond* S. Adshead, 1999-09-22 A synoptic investigation of the underlying philosophies of twelve religious thinkers from Newman to Ratzinger It argues that between the Oxford Movement and Vatican II there was a profound shift not so much in the content of religious belief as in the way it was held This shift more intellectual than theological is in the book termed the Critical Impulsion It may be described as a change from categorically affirmed authority to critically observed method

**The Idea of a University** David Cecil Smith, Anne Karin Langslow, 1999-01-01 The contributors look at the motivation behind the various interested parties in higher education reform administrators politicians and the students themselves in an attempt to determine how universities will be shaped in the future The book will appeal to all those with an interest in the university as an institution and its historical and future role in society

**Before Truth** Jeremy Wilkins, 2018 It is frequently said that we live in a post truth age That obviously can't be true but it does name a real problem on our hands Getting things right is hard especially if they're complicated It takes preparation diligence and honesty Wisdom according to Thomas Aquinas is the quality of right judgment This book is about the problem of becoming wise the problem before truth It is about that problem particularly as it comes up for religious philosophical and theological truth claims Before Truth Lonergan Aquinas and the Problem of Wisdom proposes that Bernard Lonergan's approach to these problems can help us become wise One of the special problems facing Christian believers today is our awareness of how much our tradition has developed This development has occurred along a path shot through with contingencies Theologians have to be able to articulate how and why doctrines institutions and practices that have developed and are still developing should nevertheless be worthy of our assent and devotion

**Truth and Responsibility: A Personalist Reading of Newman** Jan Kłos, 2023-11-13 This book goes beyond a simple study of Newman's thought and work and seeks to apply his deductions to modern value conflicts Although it will be of particular relevance to academic readers with some prior knowledge of Newman's works it may also be of wider interest to students of history philosophy theology and spirituality More generally its unusual focus on Newman's epistemology and philosophical deductions and how these relate to present day dilemmas should also attract interest from his many non academic followers and devotees The main value of this work lies in its original approach to Newman from a Polish Personalist perspective and this rather than as another amorphous study of Newman could give it novelty value and attract real interest from Newman scholars and experts Jonathan Luxmoore Oxford based writer and Church historian How do we evaluate a human life our own life Beginning with John Henry Newman's defence of his life Jan Kłos in this volume sensitively explores from a personalist perspective how all our lives involve struggle with commitment responsibility and truth In its emphasis on the narrative structure of human lives the book makes a valuable contribution not just to the philosophy of personalism but to social theory overall Douglas Porpora Professor of Sociology Drexel University
