Peter J. Taylor, Ron Johnston

The Adversaries Politics And The Press:

The Adversaries William L. Rivers,1970 American Journalism W. David Sloan,Lisa Mullikin Parcell,2014-01-10 News consumers made cynical by sensationalist banners AMERICA STRIKES BACK THE TERROR OF ANTHRAX and lurid leads might be surprised to learn that in 1690 the newspaper Publick Occurrences gossiped about the sexual indiscretions of French royalty or seasoned the story of missing children by adding that barbarous Indians were lurking about before the disappearance Surprising too might be the media s steady adherence to if continual tugging at its philosophical and ethical moorings These 39 essays written and edited by the nation s leading professors of journalism cover the theory and practice of print radio and TV news reporting Politics and partisanship press and the government gender and the press corps presidential coverage war reportage technology and news gathering sensationalism each subject is treated individually Appropriate for interested lay persons students professors and reporters Instructors considering this book for use in a course may request an examination copy here The Adversaries William L. Rivers,1971 FDR and the News Media Betty Houchin Winfield,1994 Power was at the heart of FDR s relationship with the media the power of the nation s chief executive to control his public messages versus the power of the free press to act as an independent watchdog over the president and the government This compelling study points to Roosevelt s consummate news management as a key to his political artistry and leadership legacy **The American Political Scandal** David R. Dewberry,2015-08-13 In this holistic examination of political scandal in the United States David Dewberry argues convincingly that such scandals follow a consistent narrative centered largely on media coverage and politician performance rather than the actual corruption or ethics violation committed In making this argument he also provides an analytical framework for understanding the patterns underlying scandals regardless of their unique political contexts Dewberry dissects four major examples Teapot Dome Watergate Iran Contra and Clinton Lewinsky and explores the roles of various constituencies involved in creating reacting to and mediating the scandal What is the true role of journalism within the context of scandal What persuasive techniques do politicians employ to develop and perpetuate scandals What motives and values bring scandals to a close In addition to the core cases Dewberry incorporates briefer examples from contemporary and ongoing controversies including Anthony Weiner s sexting scandal money and sex in Congress how cover ups have gone digital and Chris Christie s Bridgegate The result is a fascinating and thoughtful look at the relationships among political discourse free speech and democracy *The Political Communication Reader* Ralph Negrine,James Staney,2023-04-28 The Political Communication Reader gathers together key writings in a unique one volume resource The selected texts are grouped into thematic sections each introduced by the editors covering such areas as the exercise of power media and democracy the media and elections media effects political participation and the media the personalization of politics new technologies and the reshaping of political communication Available as a companion Reader to Brian McNair s Introduction to Political Communication textbook students will find The

Political Communication Reader a valuable resource in this popular subject area

The Presidents vs. the Press Harold Holzer, 2020-08-25 An award winning presidential historian offers an authoritative account of American presidents attacks on our freedom of the press The FAKE NEWS media Donald Trump has tweeted is not my enemy it is the enemy of the American People Has our free press ever faced as great a threat Perhaps not but the tension between presidents and journalists is as old as the republic itself Every president has been convinced of his own honesty and transparency every reporter who has covered the White House beat has believed with equal fervency that his or her journalistic rigor protects the country from danger Our first president George Washington was also the first to grouse about his treatment in the newspapers although he kept his complaints private Subsequent chiefs like John Adams Abraham Lincoln Woodrow Wilson and Barack Obama were not so reticent going so far as to wield executive power to overturn press freedoms and even to prosecute journalists Theodore Roosevelt was the first president to actively manage the stable of reporters who followed him doling out information steering coverage and squashing stories that interfered with his agenda It was a strategy that galvanized TR s public support but the lesson was lost on Woodrow Wilson who never accepted reporters into his inner circle Franklin Roosevelt transformed media relations forever holding more than a thousand presidential press conferences and harnessing the new power of radio at times bypassing the press altogether John F Kennedy excelled on television and charmed reporters to hide his personal life while Richard Nixon was the first to cast the press as a public enemy From the days of newsprint and pamphlets to the rise of Facebook and Twitter each president has harnessed the media whether intentional or not to imprint his own character on the office In this remarkable new history acclaimed scholar Harold Holzer examines the dual rise of the American presidency and the media that shaped it From Washington to Trump he chronicles the disputes and distrust between these core institutions that define the United States of America revealing that the essence of their confrontation is built into the fabric of the nation

American Journalists Donald A. Ritchie, 1998-01-08 In 60 essays this volume profiles American journalists from colonial times to the present reporters editors publishers photographers and broadcasters whose careers reflected major developments in their profession and in the history of the United States In a speech to Newsweek correspondents in 1963 publisher Philip Graham described journalism as the first rough draft of history These journalists confronted and helped to shape the discussion of major issues and events in American history from the American revolution through abolition westward expansion the Civil War the civil rights movement immigration and the women s movement as well as major constitutional issues involving the First Amendment protection of freedom of the press Biographies of well known journalists from Benjamin Franklin and Thomas Paine to Walter Cronkite and Rupert Murdoch appear alongside some who may be less familiar such as Elias Boudinot founder of the first Cherokee language newspaper Abraham Cahan editor of the Jewish Daily Forward and Daniel Craig who in the 1830s used carrier pigeons to ferry the news Other subjects include Margaret Green Draper the revolutionary printer Claude Barnett founder of the Associated Negro Press photojournalist

Margaret Bourke White war correspondent Ernie Pyle and Allen Neuharth founder of USA Today Illustrations fact boxes and quotations from the subjects themselves make this volume an indispensable reference for students of American history as well as a fascinating read Journalists profiled include Horace Greeley Frederick Douglass Mark Twain Thomas Nast Joseph Pulitzer Nellie Bly William Randolph Hearst Ida Wells Barnett H L Mencken Dorothy Thompson Walter Winchell Red Smith Edward R Murrow Walter Cronkite Bernard Shaw Cokie Roberts Manuel de Dios Unanue and many more *A History of Government Public Relations in the United States* Mordecai Lee, 2025-07-09 This book presents a history of public relations in the modern American administrative state Because government agencies have a democratic obligation to be open and transparent the practice of public relations by government is qualitatively different from that in business administration and nonprofit management The duty of government agencies to engage in public relations largely emerged during the Progressive era 1890 1920 It evolved significantly under President Franklin Roosevelt He wanted citizens to know about New Deal programs they qualified for During World War II federal PR encouraged civic participation in the war effort By the 1990s the media's traditional coverage of government faded requiring agencies to communicate in new ways Government PR continued evolving in the 21st century to take advantage of advances in technology This book relates to political science American history public administration and communication PR It is intended as a textbook by researchers and for academic libraries

The Crisis of Public Communication Jay Blumler, Michael Gurevitch, 2002-09-11 The role of the mass media in the world of politics has become increasingly influential and controversial This book traces the origins and development of this phenomena basing discussion on critiques of BBC election coverage since 1966

Negotiating in the Press Joseph R. Hayden, 2010 Negotiating in the Press presents an engaging analysis of diplomacy and the press in the aftermath of WWI Rather than revisiting the story of lost journalistic freedom it describes the press's newfound power in the war's aftermath a seminal moment when journalists discovered their ability to help broker peace deals By challenging the assumption that the press was peripheral to the quest for peace Hayden demonstrates that journalists instead played an integral part in the talks Negotiating in the Press offers a fresh look at the dawn of public diplomacy when leading nations and the press democratized foreign policy

Communication Yearbook 22 Michael Roloff, 2012-07-23 Communication Yearbook 22 contains in depth literature reviews focused on an important topic in specialized areas as well as syntheses that describe scholarship in other domains Each chapter addresses an aspect of one of the most pressing issues currently facing individuals how to communicate with people from different backgrounds or cultures The first two chapters examine the ways sex differences and cross cultural differences affect communication behavior The following three chapters focus on harmful speech the effects of pornography on criminal sexual offenders and personalization of conflict Further chapters focus on argumentation organizational settings and government media relations as well as styles of customer service communication within families with aging parents and intercultural friendship

A Companion to Richard M. Nixon Melvin Small, 2013-05-03 This

companion offers an overview of Richard M Nixon s life presidency and legacy as well as a detailed look at the evolution and current state of Nixon scholarship Examines the central arguments and scholarly debates that surround his term in office Explores Nixon s legacy and the historical significance of his years as president Covers the full range of topics from his campaigns for Congress to his career as Vice President to his presidency and Watergate Makes extensive use of the recent paper and electronic releases from the Nixon Presidential Materials Project

Government Public Relations Mordecai Lee, 2007-12-17 Much maligned in the past as wasteful and self serving government public relations provides several distinct services that can be used to advance the substantive mission of an agency in ways that save money time and effort In the same manner as budgeting HR strategic planning and performance assessment public relations must be included in t

The Press and American Politics Richard Dana Davis, 1992 This book analyzes the power of the American print and electronic press in the political process Davis argues that the press has greater autonomy than at any time in the more than 200 years of U S history but as an intermediary between the government and the governed its greatest power is to set agendas not to dictate political opinions on the agenda items Despite recent gains in autonomy the electronic media still are less free of government influence than are print media Part 1 characterizes the news gatherers and the newsmakers Part 2 describes the evolution of the political role of the media through U S history Part 3 describes how the press treats each of the three branches of the Federal government Part 4 deals with coverage of foreign affairs and public policy and Part 5 with coverage of campaigns and elections ISBN 0 8013 0153 X 20 00

The Good Ruler Bruce Kuklick, 1988 Which American presidents have been good Which have been bad Experts on the presidency have never been able to agree on their assessments Bruce Kuklick suggests that historians and political scientists have approached the problem of defining successful leadership without adequately considering the essential factor Instead of trying to evaluate which presidents set consistent and worthy policies and brought them to fruition Kuklick asks us to pay more attention to how the American people feel about their presidents The citizenry and its emotional responses are used as the measure of a successful president rather than the ostensibly rational appraisals of scholars Applying this measure to the presidents from the Depression to Watergate Kuklick begins by tracing the way in which Franklin Roosevelt established the parameters of the inspirational presidency and how his success shaped the study of political history He then explores the triumphs of Eisenhower and Kennedy and contrasts these triumphs too the failures of Hoover Truman Johnson and Nixon The ability of leaders to win the respect and admiration of the citizenry is for Kuklick the crucial touchstone by which the success of a president is judged To highlight this position that is not useful for historians to justify the merits or failures of a president by pointing out what he would have done had he lived longer or in a different era Kuklick includes an entertaining and enlightening fable an imaginary view of historical events Nixon is elected in 1960 giving a youthful tone to the White House until his assassination in 1967 Kennedy is elected in 1968 but resigns after he is accused of misconduct The fable

demonstrates that the specific events are less important than a president's ability to evoke a positive emotional response from the citizenry. The Good Ruler analyzes our recent political history without partisan bias and examines the basic premises of American democratic politics. *Assault on the Media* William Earl Porter, Thomas A. Mascaro, 2024-06-18. *Assault on the Media: The Nixon Years* New and Expanded Edition uses a 21st century perspective to reevaluate the media warfare of the late 1960s and 1970s and its lasting effects. Although it is well known Nixon reveled in his abrasive relationship with the press, documents published since that era reveal the motivations that drove members of the administration to divert attention from illegal, undemocratic, discriminatory or mean spirited approaches to governance. Informed by a half century of historical analyses and released documents, this expanded edition of William E. Porter's award winning *Assault on the Media* analyzes new documents of significance, synthesizes recent historical analyses, incorporates legal evaluations by journalism scholars, and traces how Nixon era plans cultivated the divisive state of 21st century society and amplified assaults on journalism. It also evaluates lasting concerns about the Supreme Court's Pentagon Papers decision and journalists cited for contempt as a form of prior restraint, the currencies of power and race in protecting confidential sources and regulatory decisions that hamper effective journalism. *Assault on the Media* not only documents the incidents and circumstances of governmental intimidation, harassment and regulation of the news media during the Nixon presidency, but it offers insights into the long term effects and their relevance today. *Geography of Elections* Peter J. Taylor, Ron Johnston, 2014-10-03. Within an international framework, this work provides a fully comprehensive approach to the geographical coverage of elections. Numerous applications of ideas and concepts from human geography are incorporated into a new political context, illustrating the manner in which electoral patterns reflect and help produce the overall geography of a region or state. Discussions of various topics are well supported by numerous maps and diagrams which help clarify arguments and serve to define elections within their basic geographical context. *Handbook on the Politics of Regulation* David Levi-Faur, 2011-01-01. Political science has leapfrogged law, economics and sociology to become the dominant discipline contributing to regulatory studies. David Levi-Faur's volume taps the rich veins of regulatory scholarship that have made this the case. It brings together the talented new network of politics scholars intrigued by the importance of the changing nature of state and non-state regulation. Their fresh insights complement important new work by established stars of the field. Definitely a book to have on your shelf when in search of exciting theoretical approaches to politics. John Braithwaite, Australian National University. Regulation in its manifold forms is the central process of contemporary governance as it seeks to blend the dynamism of market economies with responsiveness to political and normative demands for health, safety, environmental protection and fairness. Understanding regulation's varieties, vulnerabilities and virtues has become a significant focus of academic research and theory. This volume provides an extraordinary survey of research in that field, a survey remarkable in its comprehensiveness, outstanding in the quality of the contributions by leading regulatory scholars from different nations and

academic disciplines Robert A Kagan University of California Berkeley US An authoritative collection by a range of contributors with outstanding reputations in the field Michael Moran WJM Mackenzie Professor of Government This is an extraordinarily useful one stop shop for a wide range of traditions and approaches to the political aspects of regulation David Levi Faur has assembled a fine collection that by reporting on the state of the art also shows the way ahead for a discipline that has to capture and explain dramatic changes in real world regulatory philosophies and policies Claudio Radaelli University of Exeter UK This is an unusually impressive edited volume Its contributors include the leading academic experts on government regulation from around the world Its several clearly written and informative essays address the most important topics issues and debates that have engaged students of regulatory politics I strongly recommend this volume to anyone interested in understanding the breadth and depth of contemporary scholarship on the political dimensions of regulation David Vogel University of California Berkeley US This unique Handbook offers the most up to date and comprehensive state of the art reviews of the politics of regulation It presents and discusses the core theories and concepts of regulation in response to the rise of the regulatory state and regulatory capitalism and in the context of the golden age of regulation Its ten sections include forty nine chapters covering issues as diverse and varied as theories of regulation historical perspectives on regulation regulation of old and new media risk regulation enforcement and compliance better regulation civil regulation European regulatory governance and global regulation As a whole it provides an essential point of reference for all those working on the political social and economic aspects of regulation This comprehensive resource will be of immense value to scholars and policymakers in numerous fields and disciplines including political science public policy and administration international relations regulation international law business and politics European studies regional studies and development studies

The Universal Adversary Mark Neocleous, 2016-02-12 The history of bourgeois modernity is a

history of the Enemy This book is a radical exploration of an Enemy that has recently emerged from within security documents released by the US security state the Universal Adversary The Universal Adversary is now central to emergency planning in general and more specifically to security preparations for future attacks But an attack from who or what This book the first to appear on the topic shows how the concept of the Universal Adversary draws on several key figures in the history of ideas said to pose a threat to state power and capital accumulation Within the Universal Adversary there lies the problem not just of the terrorist but more generally of the subversive and what the emergency planning documents refer to as the disgruntled worker This reference reveals the conjoined power of the contemporary mobilisation of security and the defence of capital But it also reveals much more Taking the figure of the disgruntled worker as its starting point the book introduces some of this worker's close cousins figures often regarded not simply as a threat to security and capital but as nothing less than the Enemy of all Mankind the Zombie the Devil and the Pirate In situating these figures of enmity within debates about security and capital the book engages an extraordinary variety of issues that now comprise a contemporary

politics of security From crowd control to contagion from the witch hunt to the apocalypse from pigs to intellectual property
this book provides a compelling analysis of the ways in which security and capital are organized against nothing less than the
Enemies of all Mankind

The Enigmatic Realm of **The Adversaries Politics And The Press**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing in short supply of extraordinary. Within the captivating pages of **The Adversaries Politics And The Press** a literary masterpiece penned by way of a renowned author, readers embark on a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting impact on the hearts and minds of people who partake in its reading experience.
