

An aerial photograph of a large, deep blue lake in Scotland, surrounded by green hills and mountains under a blue sky with white clouds. The lake's surface is calm, reflecting the sky. In the foreground, a sandy or rocky shoreline is visible. The background shows more mountains, some with patches of snow or light-colored rock.

**The Aerofilms Book of Scotland from the Air** James Campbell, 1984      **The Aerofilms Book of Scotland from the Air** James Campbell, 1991-07      Conflict Landscapes and Archaeology from Above Birger Stichelbaut, David Cowley, 2016-12-05

The study of conflict archaeology has developed rapidly over the last decade fuelled in equal measure by technological advances and creative analytical frameworks. Nowhere is this truer than in the interdisciplinary fields of archaeological practice that combine traditional sources such as historical photographs and maps with 3D digital topographic data from Airborne Laser Scanning ALS and large scale geophysical prospection. For twentieth century conflict landscapes and their surviving archaeological remains these developments have encouraged a shift from a site oriented approach towards landscape scaled research. This volume brings together a wide range of perspectives setting traditional approaches that draw on historical and contemporary aerial photographs alongside cutting edge prospection techniques cross disciplinary analyses and innovative methods of presenting this material to audiences. Essays from a range of disciplines archaeology history geography heritage and museum studies studying conflict landscapes across the globe throughout the twentieth century all draw on aerial and landscape perspectives to past conflicts and their legacy and the complex issues for heritage management. Organized in four parts the first three sections take a broadly chronological approach exploring the use of aerial evidence to expand our understanding of the two World Wars and the Cold War. The final section explores ways that the aerial perspective can be utilized to represent historical landscapes to a wide audience. With case studies ranging from the Western Front to the Cold War Ireland to Russia this volume demonstrates how an aerial perspective can both support and challenge traditional archaeological and historical analysis providing an innovative new means of engaging with the material culture of conflict and commemoration.

**The Really Practical Guide to Primary Geography** Marcia Foley, Jan Janikoun, 1996. Substantially revised to incorporate the contents of the 1995 Revised Order and its major implications for geography teaching. Includes two brand new chapters on the growing early years sector and OFSTED inspections. A whole range of different ways to organise the geography curriculum is discussed with examples. The resources sections have been updated and expanded.

**Archaeology from Historical Aerial and Satellite Archives** William S. Hanson, Ioana A. Oltean, 2012-11-12. Historical archives of vertical photographs and satellite images acquired for other purposes mainly declassified military reconnaissance offer considerable potential for archaeological and historical landscape research. They provide a unique insight into the character of the landscape as it was over half a century ago before the destructive impact of later 20th century development and intensive land use. They provide a high quality photographic record not merely of the landscape at that time but offer the prospect of the better survival of remains reflecting its earlier history whether manifest as earthworks cropmarks or soilmarks. These various sources of imagery also provide an opportunity to examine from the air areas of Europe and beyond whose skies are still not open to traditional archaeological aerial

reconnaissance Tens of millions of such images are held in archives around the world but their research potential goes very largely untapped A primary aim of this volume is to draw to wider attention the existence scope and potential access to historical archival aerial and satellite photographs in order to encourage their use in a range of archaeological and landscape research By drawing attention to this massive archival resource providing examples of its successful application to archaeological landscape questions and offering advice how to access and utilise the resource the volume seeks to bring this material to wider attention demonstrate its huge potential for archaeology encourage its further use and stimulate a new approach to archaeological survey and the study of landscape evolution internationally

England's Military Heritage from the Air Mark Bowden, Allan Brodie, 2024-05-28 England's Military Heritage from the Air presents the story of the country's rich military heritage using photographs from the Aerofilms Collection Covering over 6 000 years it reflects the changing threats faced by England from enemies without and conflicts within The book covers everything from hillforts to aircraft carriers and includes the castles battle sites ships and aircraft that have witnessed the changing character of warfare Ending with how victory and sacrifice are commemorated and remembered England's Military Heritage from the Air is a tribute to the courage skill and endurance of the people who have suffered yet prevailed

*England's Lost Transport Heritage from the Air* Allan Brodie, 2025-03-21 Britain was the first country in the world to industrialise and alongside new means of production came novel forms of transport including steam trains and steamships in the 19th century and jet aircraft and hovercrafts in the middle of the 20th century Aerofilms flying across the country from 1919 onwards recorded the country's complex infrastructure of road rail and maritime transport that was in place between the wars and the company was evolving alongside and was part of the new aviation industry that was being created While flying across the country Aerofilms remarkable photographers also recorded how Britain communicated with its imperial territories The collection includes images of the country's vast merchant fleet of liners and cargo vessels as well as the flying boats that formed an international network before jets came to dominate the sky Aerofilms were there to record the first flight of the ill fated airship R101 Much of this interesting transport history that the company's photographers witnessed has now disappeared or has been relegated to being museum exhibits This book uses Aerofilms photographs to tell the story of England's lost transport heritage from Roman roads to supersonic Concorde

**The Edge of the Plain** James Crawford, 2023-01-10 A wide ranging journey through the history of borders and an exploration of their role in shaping our world today Since the earliest known marker denoting the edge of one land and the beginning of the next a stone column inscribed with Sumerian cuneiform borders have been imagined mapped moved and fought over In The Edge of the Plain James Crawford skillfully blends history travel writing and reportage to trace these borderlines throughout history and across the globe What happens on the ground when we impose lines on a map that contradict how humans have always lived and moved Crawford confronts that question from bloody territorial disputes in Mesopotamia to the S pmi lands of

Scandinavia the shifting boundaries of the Israel Palestine conflict efforts to build a wall on the United States Mexico border and the dangerous border crossings pursued by migrants into Europe And yet the role of borders extends beyond specific sites of conflict On the largest scale borders define the limits of empire the two walls in Britain that once represented the northwestern edge of the Roman Empire the mythological eastern gate supposedly closed off by Alexander the Great China s virtual Great Firewall On the smallest human scale cell walls are the last physical barrier against disease after lines of quarantine have failed Finally as *The Edge of the Plain* reveals humans have not only made their mark on the landscape the landscape itself is now changing more and more rapidly due to climate change Crawford introduces us to both the Alpine watershed one such shifting natural borderline and the Great Green Wall in Africa envisioned as an international community built bulwark against desertification Borders are as old as human civilization and focal points for today s colliding forces of nationalism climate change globalization and mass migration *The Edge of the Plain* illuminates these lines of separation past and present how we define them and how they define us [The Remote Sensing Sourcebook](#) David J. *Scottish Life and Society: Scotland's buildings* ,2000 *Sources for English Local History* W. B. Stephens,1981-09-10 English local and regional history has attracted widespread attention in the last twenty five to thirty years Its study has expanded at undergraduate and postgraduate levels in universities polytechnics and at other institutions of higher education and it has long retained its popularity as a subject for adult education classes In schools the teaching of local history in its own right and as an ingredient of general history environmental studies and local and social studies is well established and commonly involves the use of original sources The expansion of genealogical studies into the wider area of family history has involved many individuals and groups in the investigation of the local conditions which existed where former generations lived and in this pursuit increasing use of local records has been made Many who seek to involve themselves in this work however find that they are ill equipped in the knowledge of what sources exist where they are to be found or what techniques are suitable in making the best use of them **Flight** ,1921 [The Origins of Britain](#) Lloyd and Jennifer Laing,2023-08-10 *The Origins of Britain* 1980 follows the path of man s occupation of Britain from the scattered pockets of habitation in the earliest Palaeolithic period through to his growing domination of the landscape and his capacity to mould his environment evident in the late Bronze Age Among the many subjects which the book discusses in detail are the extent of knowledge of astronomy and mathematics in Neolithic and Bronze Age Britain and the extent to which the pattern of life in the Iron Age was already set by the end of the preceding Bronze Age **The Cumulative Book Index** ,1992 A world list of books in the English language **Whitaker's Book List** ,1991 [The Journal and Annual Report](#) ,1984 [The Aeroplane](#) ,1954

**Routledge Revivals: The Making of Urban Scotland (1978)** Ian Adams,2018-02-01 Originally published in 1978 *The Making of Urban Scotland* traces the evolution of towns from their prehistoric origins to the present day Most of the material is based on research in Scotland s archives housed in the Scottish Record Office Special emphasis is placed on the causes of

economic change and its repercussions upon Scottish town life The urban stresses of the nineteenth century are analysed in detail as well as the subsequent emergence of Scotland as Western Europe s pre eminent council house society The unique character of Scotland s housing occupies two chapters and for the first time the whole panoply of the statutory origins of the council house landscape is exposed     *Teaching Local History* W.
