### **The African Synod Hope For The Continents Liberation:**

**African Theology on the Way** Diane B. Stinton, 2015-07-01 In this exciting volume Diane B Stinton has assembled the work of nearly twenty prominent African theologians making their writings accessible to the introductory level student. Paying specific attention to methodological and contemporary issues the volume is well organized for use in a wide range of theology courses. Some African scholars have written new pieces for the book while others have given permission for notable articles to be condensed and simplified. Kwame Bediako, Ben Zet Bujo, Philomena Mwaura and Isabel Phiri are just four of the theologians featured.

**The Face of Africa** Stan Chu Ilo, 2012-12-01 A technical insight to Africa's development. United Nations Conference for Trade and Development UNCTAD Geneva. This book is good news and a compelling work of our times. It creates hope, challenges despair, re-establishes authentic human development and original African values. Prof Obiora Ike, Catholic Institute for Development Justice and Peace, Nigeria. A very precious contribution to Christian conversation on the future of Africa by a young African researcher. Prof Benezet Bujo, Chair Centre for Moral Theology and Social Ethics, University of Freiburg, Switzerland. This book is a stirring manifesto for social reconstruction and interior transformation in Africa. Prof James H Olthuis, Institute for Christian Studies, Toronto. This is a bold attempt at contextual theology. Dr Joseph Faniran, Catholic Institute for West Africa. Stan Chu Ilo is one of Africa's bright stars and provides a Christian socio-ethical compass for navigating life in Africa for generations to come. Prof Uche Uguwueze, Professor of African Studies, California State University Long Beach. A fascinating discourse on the trials and hope of the African continent. Milwaukee Community Journal, USA.

**The Laity as Participants in the Mission of the Church** Humphrey C. Anameje, 2017-06-05 The church is made up of both the clergy and the laity. And for it to properly fulfill the mission for which it was instituted by Christ, all its members, each according to his or her God-given gift, must contribute both to the upbuilding of the church and to its mission. On the part of the laity, their active participation in the general mission of the church, *ad intra* and *ad extra*, has been a great challenge in the life and practice of the church throughout its history. The Second Vatican Council, in its spirit of *aggiornamento*, makes some positive difference. This work critically examines the conciliar documents, some relevant postconciliar documents, and theological reflection of some theologians. And finally, it proffers solutions that will enhance the active participation of the laity in the mission of the church in general and the church in Southeast Nigeria in particular.

**Africana Critical Theory** Reiland Rabaka, 2009-01-01 Africana Critical Theory innovatively identifies and analyzes continental and diasporan African contributions to classical and contemporary critical theory through the works of W. E. B. Du Bois, C. L. R. James, Aimé Césaire, Leopold Senghor, Frantz Fanon, and Amílcar Cabral.

**The Future of Christian Marriage among the Igbo vis-a-vis Childlessness** Augustus Chukwuma Izekwe, 2015-08-06 Marriage was ordained by God for the good of spouses and for procreation. But how often does marriage turn out to bring unhappiness to partners? And how often do even happy marriages end up childless? Among the Igbo of South-eastern Nigeria, to whom offspring is the chief goal of

marriage childlessness leads often to unhappiness in marriage and not less often to the break up of marriages or to polygamy In this work the author expounds the importance of marriage and its practice among the Igbo He explains the importance of children in Igbo understanding of marriage and identifies childlessness as the key factor which could endanger and sometimes do endanger the Igbo acceptance of the Catholic doctrine of the indissolubility of marriage Using the relevant clauses of the Code of Canon Law the author explains in detail the Catholic understanding of marriage and the goals of the catholic doctrine on marriage He writes of the possibility of marriage impediments due to impotence and sterility that lead to childlessness and recommends not only a thorough pre marriage preparation but also a continual formation of marriage couples as efforts that could check the increasing rate of divorce and polygamy due to childlessness But the author knows that childlessness can still occur despite all precautions He therefore recommends adoption instead of polygamy as the ultimate panacea to childlessness in marriage The author condemns in unmistakable terms the mentality among the Igbo which blames and traumatizes the woman in cases of childlessness

**The Eucharist and World Hunger** Izunna Okonkwo,2011-12-21 Hunger is a menace in different parts of the globe It has more unnatural than natural causes Though efforts have been made towards alleviating its causes and consequences more actions still need to be taken for its genuine alleviation and eventual eradication in the world For Joseph Grassi painful hunger is a daily occurrence that must be countered by ongoing effective programs that enter into the lives of every Christian Such position not only recognises the frequency and excruciating nature of hunger but also suggests that Christians and other religious groups have a very important role to play in order to eradicate hunger and its devastating effects This book explores the nuances of hunger its causes dimensions and approaches as well as its connection to the Eucharist It argues that hunger can be eradicated and that the Eucharist stands out as a veritable model

**African Liberation Theology** Chukwudum Barnabas Okolo,1997

**Anatomy of Inculturation** Magesa, Laurenti ,2014-12-03 In his quest to identify practices that strengthen the faith of African Christians Magesa examines the nature of being church today in Kenya Tanzania and Uganda

**Achievement as Value in the Igbo/African Identity** Vernantius Emeka Ndukaihe,2006 Achievement seems to be a first class value in our world today With the ongoing global debate on what constitutes identity can we include achievement as one of the constituents In the Igbo African identity the achievement instinct is basically innate The ethics of this phenomenon needs an evaluation aimed at improving the status quo What is the plight of the Igbo African achieving in the face of modern capitalistic tendencies What has become of the many other values in her identity which has been her pride as a race How is her religiosity which is inseparable from daily living affected by modernity and its new trends of the achievement ethos These are some of the issues that are addressed in this book with the conviction that theology achievement and identity are continuity

**Bioethics Around the Globe** Catherine Myser,2011-06-10 Contemporary bioethics now roughly 40 years old as a discipline originated in the United States with a primarily Anglo American cultural ethos It continues to be professionalized

and institutionalized as a maturing discipline at the intersections of philosophy medicine law social sciences and humanities Increasingly bioethics along with its foundational values concepts and principals has been exported to other countries not only in the developed West but also in developing and or Eastern countries Bioethics thus continues to undergo intriguing transformations as it is globalized and adapted to local cultures These processes have occurred rapidly in the last two decades with relatively little reflection and examination This volume brings together contributors from a wide variety of disciplines to take a critical empirical look at bioethics around the globe examining how it is being transformed at both local and global levels in this process of cross cultural exporting and importing One concern is to identify sociocultural forces and consequences which may positively or negatively affect ethics and social justice goals This book thereby offers the first comparative anthropology and sociology of globalizing bioethics in the field exploring the global dissemination local adaptations cultural meanings and social functions of bioethics theories practices and institutions and comparing developed and developing countries The volume considers a full range of countries on every inhabited continent including Africa Asia Australia Central and South America Europe the Middle East and North America Topics include government agendas such as nationalism and nation building agendas of powerful associated professions e g medicine law theological and political agendas such as culture wars agendas of entrepreneurial economies of profit and other cultural and ideological agendas consciously or unconsciously advanced or contested by bioethics work in particular countries based on their unique history politics and culture This cross cultural exploration of globalizing bioethics will be of great interest to a field that is increasingly introspective about its underlying sociocultural assumptions and biases At last an unabashedly sociological and anthropological look at the globalization of bioethics a really fresh approach to a maturing discipline The chapters speak from the perspective of sophisticated Western developed exporters of the bioethical paradigm and equally sophisticated Eastern developing and third world and interdisciplinary critics suspicious of the canonical view Trained in the dominant school of American mainstream philosophy Myser draws on her long standing commitment to a social and cultural approach to bioethics to take a fresh look at bioethics globally She grasps the globalization of bioethics and the skepticism about analytical philosophy s Americanized consensus The book sets the stage for a new era in bioethics theory and practice debating whether a universal common morality underlies the rich variation in national and cultural bioethics traditions Robert Veatch Georgetown University This path breaking volume is the first to explore the global export of Western bioethics to a variety of non Western settings Explicitly critical the book also points to the liberating potential of bioethics to achieve social justice and improve the lives of patients around the world The book is a must read for all medical anthropologists interested in bioethics Marcia Inhorn Yale University Bioethics Around the Globe should change the way bioethics is conceived and practiced in the U S and elsewhere Its rich and wide ranging comparative examination opens new possibilities for bioethical reflection I enthusiastically recommend this wonderful book James F Childress University of Virginia The past

40 years have seen a remarkable spread of bioethics to every part of the world Dr Myser s collection is a wonderful and rich exploration of its international impact revealing important similarities and differences from country to country It will have an important impact Daniel Callahan The Hastings Center *Love, Joy, and Sex* Stan Chu Ilo, 2019-07-30 There is no papal document that has generated as much interest controversy and debate in recent times as Pope Francis s *Amoris Laetitia* This document which came out of two very divisive synods of Catholic bishops and leaders in Rome in 2014 and 2015 will probably be the most discussed document ever produced by a pope in modern Catholicism on marriage and family life This volume has gathered seminal commentaries on *Amoris Laetitia* by African Catholic theologians social scientists and pastoral workers They offer African theological and pastoral responses to the principles and practices proposed by Pope Francis and the Synod on the family on such contested issues as same sex relations divorce and remarriage and reception and denial of Holy Communion in the church among other divisive issues These important essays and commentaries show the strengths and weaknesses of this papal commentary and point out the missing link in the global conversation on marriage family and same sex relations Their argument for the inclusion of African perspectives and moral traditions in the search for a third way in finding an inclusive and integrated pastoral art of accompaniment is very compelling The authors here also call for the inclusion of Africa s own unique challenges like polygamy childless marriages and the impact of migration civil conflict diseases ecological and population crises and the rights of African women in the global discussion on marriage and family life They also challenge uncritical clichés in world Christianity that Africa s opposition to same sex marriages or Western propaganda about population or birth control and contraception are conservative while showing diverse African conversations on these topics in the search for abundant life on this beautiful continent *Thinking Globally and Responding Locally in the Church* Thomas Knieps-Port le Roi, Shaji George Kochuthara, David Dawson Vasquez, 2023-07 How has Pope Francis s groundbreaking document on marriage and family *Amoris Laetitia* been implemented in Africa In Asia In Latin America In this volume scholars from across these regions reflect on their experiences correcting the overly western focus of most reactions to AL The contributions look at local issues like polygamy in Africa as well as more global issues in a local context like feminism in Indonesia and synodality in Colombia The reader will find that concerns about marriage and family can be similar throughout the world or specific to different contexts As a whole the book contributes to a more diverse and revisited catholic understanding of marriage and family *The African Synod* Chukwudum Barnabas Okolo, 1994

**Resolving the Prevailing Conflicts Between Christianity and African (Igbo) Traditional Religion Through Inculturation** Edwin Anaegboka Udoe, 2011 For not integrating initially some of the good elements in Igbo culture many Igbo Christians have double personality Christian personality and traditional personality They are Christians on Sundays but traditionalists on weekdays To combat such an anomalous situation in imitation of Christ s effort at completing what was lacking in the Jewish religion author Edwin Udoe proposes radical inculturation His book equally contains many serious

theological reflections such that it recommends itself to both theologians and the scholars researching on the religions of the world Udoe has therefore made a very significant contribution worthy of commendation to both theological and religious studies

**Liberation Theologies on Shifting Grounds** Georges de Schrijver,1998 Besides their insistence on praxis and the application of the Word of God to a given situation Liberation Theologies make ample use of tools of analysis to uncover root causes of oppression Now it is precisely with respect to these tools that Liberation Theologies today find themselves on shifting grounds In intra ecclesiastical circles cultural concerns have come to replace socio economic analysis whereas after the implosion of the East Bloc the liberationists proper also pay more attention to the issues of gender ecology and indigenous movements The contributions to this volume originating from various continents discuss to what extent this shift in emphasis is desirable and acceptable and conclude that the cultural focus cannot possibly invalidate but only enrich and complete the socio economic analysis They moreover try to assess the developments in light of globalization economics informatics on the one hand and postmodernity on the other Given the impact of western culture politics the question arises as to whether the native cultures will succeed in keeping up their religious core values and structures of solidarity two elements so indispensable for liberative commitments
