Writing Mad Lives in the Age of the Asylum Michael Rembis, 2025-02-03 The asylum at once a place of refuge incarceration and abuse touched the lives of many Americans living between 1830 and 1950 What began as a few scattered institutions in the mid eighteenth century grew to 579 public and private asylums by the 1940s About one out of every 280 Americans was an inmate in an asylum at an annual cost to taxpayers of approximately 200 million Using the writing of former asylum inmates as well as other sources Writing Mad Lives in the Age of the Asylum reveals a history of madness and the asylum that has remained hidden by a focus on doctors diagnoses and other interventions into mad people's lives Although those details are present in this story its focus is the hundreds of inmates who spoke out or published pamphlets memorials memoirs and articles about their experiences They recalled physical beatings and prolonged restraint and isolation They described what it felt like to be gawked at like animals by visitors and the hardships they faced re entering the community Many inmates argued that asylums were more akin to prisons than medical facilities and testified before state legislatures and the US Congress lobbying for reforms to what became popularly known as lunacy laws Michael Rembis demonstrates how their stories influenced popular legal and medical conceptualizations of madness and the asylum at a time when most Americans seemed to be groping toward a more modern understanding of the many different forms of insanity The result is a clearer sense of the role of mad people and their allies in shaping one of the largest state expenditures in the nineteenth and early twentieth centuries and at the same time a recovery of the social and political agency of these vibrant and dynamic mad writers

The Age Revealed Charles James, 1927 **The Age of Promiscuity** Doru Pop, 2018-11-15 This book presents an original and engaging look at contemporary popular culture opening with the provocative idea that this is a day and age of complete exhaustion of ideas images stories and myths Questioning the effects of content recycling in cinema and other media the author further elaborates on the repurposing of cultural junk the reassembling of narratives and myths The thought provoking hypothesis proposed in this research is that we have entered an age of cultural promiscuity By analyzing the mutations of myth making practices and connecting them with larger cultural manifestations the author explains these transformations as integral to the development of a myth illogical imagination Cinematic and mythological representations in mainstream Hollywood films have reached a point of amalgamation with no return which marks the beginning of a fourth age of representations where signs and meanings are manifested in illogical permutations This is more explicit in films that commingle aliens cowboys undead American presidents and zombie nazis joining together in the same narrative ghosts werewolves and vampires aggregating disjointed storylines and historical fake facts all coalesced in an orgy of empty burlesque and infantile masquerades This interdisciplinary research combines cultural studies film criticism art and myth interpretations bringing into the debate multiple concepts from related fields such as critical theory and media criticism The book also opens up to innovative approaches from a wide array of academic disciplines offering researchers students and those fascinated by the transformations happening in contemporary cinema an interpretative tool based on a revised dialectic approach The conclusion is that we are now victims of a zombie semiotics Meaning making in contemporary culture politics and aesthetics is dominated by a process of incessant desecration of significations specific to the total mishmash of representations analyzed here

Screening Images of American Masculinity in the Age of Postfeminism Elizabeth Abele,, John A. Gronbeck-Tedesco, 2015-12-03 This collection of essays presents a sampling of film and television texts interrogating images of U S masculinity Rather than using postfeminist as a definition of contemporary feminism this collection uses the term to designate the period from the late 1980s on as a point when feminist thought gradually became more mainstream The movies and TV series examined here have achieved a level of sustained attention from critical acclaim to mass appeal to cult status Instead of beginning with a set hypothesis on the effect of the feminist movement on images of masculinity on film and television these chapters represent a range of responses that demonstrate how the conversations within these texts about American masculinity are often open ended allowing both male characters and male viewers a wider range of options Defining the relationship between U S masculinity and American feminist movements of the twentieth century is a complex undertaking The essays collected for this volume engage prominent film and television texts that

directly interrogate images of U S masculinity that have appeared since second wave feminism The contributors have chosen textual examples whose protagonists actively struggle with the conflicting messages about masculinity These protagonists are more often works in progress acknowledging the limits of their negotiations and self actualization These chapters also cover a wide range of genres and decades from action and fantasy to dramas and romantic comedy from the late 1970s to today Taken together the chapters of Screening Images of American Masculinity in the Age of Postfeminism interrogate the possible screened in popular movies and television series confronting the multiple and competing visions of masculinity not after or beyond feminism but rather in its very wake

The Age of Radiance Craig Nelson, 2014-03-25 Radiation is a complex and paradoxical concept staggering amounts of energy flow from seemingly inert rock and that energy is both useful and dangerous While nuclear energy affects our everyday lives from nuclear medicine and food irradiation to microwave technology its invisible rays trigger biological damage birth defects and cellular mayhem From the end of the nineteenth century through the use of the atomic bomb in World War II to the twenty first century's confrontation with the dangers of nuclear power Craig Nelson illuminates a pageant of fascinating historical figures Enrico Fermi Marie and Pierre Curie Albert Einstein FDR Robert Oppenheimer and Ronald Reagan among others He reveals many little known details including how Jewish refugees fleeing Hitler transformed America from a country that created light bulbs and telephones into one that split atoms how the most grotesque weapon ever invented could realize Alfred Nobel's lifelong dream of global peace how emergency workers and low level utility employees fought to contain a run amok nuclear reactor while wondering if they would live or die Brilliantly fascinating and remarkably accessible The Age of Radiance traces mankind's complicated and difficult relationship with the dangerous power it discovered and made part of civilization

The History of Reason in the Age of Madness John Iliopoulos, 2017-07-27 The History of Reason in the Age of Madness revolves around three axes the Foucauldian critical historical method its relationship with enlightenment critique and the way this critique is implemented in Foucault's seminal work History of Madness Foucault's exploration of the origins of psychiatry applies his own theories of power truth and reason and draws on Kant's philosophy shedding new light on the way we perceive the birth and development of psychiatric practice Following Foucault's adoption of limit attitude which investigates the limits of our thinking as points of disruption and renewal of established frames of reference this book dispels the widely accepted belief that psychiatry represents the triumph of rationalism by somehow conquering madness and turning it into an object of neutral scientific perception It examines the birth of psychiatry in its full complexity in the late eighteenth century doctors were not simply rationalists but also alienists philosophers of finitude who recognized madness as an experience at the limits of reason introducing a discourse which conditioned the formation of psychiatry as a type of medical activity Since that event the same type of

recognition the same anthropological confrontation with madness has persisted beneath the calm development of psychiatric rationality undermining the supposed linearity absolute authority and steady progress of psychiatric positivism Iliopoulos argues that Foucault's critique foregrounds this anthropological problematic as indispensable for psychiatry encouraging psychiatrists to become aware of the epistemological limitations of their practice and also to review the ethical and political issues which madness introduces into the apparent neutrality of current psychiatric discourse *Madballs vs. Garbage Pail Kids: Time Again, Slime Again #1* Sholly Fisch, 2023-02-08 SEE THE PREHISTORIC ORIGINS OF THIS TIMELESS CLASH Just when you thought it was safe to go back into the comic shop For over three decades Madballs and GPK have both been known as the grossest of the gross co ruling counterculture with their pun heavy names and subversive humor This all new limited series event features the first time these two delightfully crude forces have ever met Your freaky favorites the Madballs and Garbage Pail Kids are at it again But this time the chaos can't be confined to a single neighborhood as we trace the entire history of Madballs GPK feud bursting and oozing out across the ages In this issue At the dawn of time the Earth is ruled by furry apelike beasts oh wait that's just Kim Kong From their neighboring caves the Cro Madballs and Neanderthal Pail Kids constantly try to one up each other Plus the star crossed crush between Hornhead and Scary Carrie triggers war between the Trojan GPK and Greek Madballs Each issue features stories and puzzle and activity pages that invite kids to dumpster dive in and get their own hands dirty as they play alongside their favorite creepy characters Written by Sholly Fisch each issue features three incredible covers Legendary Garbage Pail Kids and Mad artist Joe Simko series artist Jason Crosby and a special vintage fight poster art cover created especially for this momentous meeting of the depraved minds
