The Alcoholic Society Addiction And Recovery Of The Self:

The Alcoholic Society Norman K. Denzin, John M. Johnson, 1993-01-01 This work is both an amalgamation and extension of two early classic studies by the author *The Alcoholic Self* and *The Recovering Alcoholic* The new book provides a comprehensive study of how ordinary people live and experience alcoholism And it does so in a larger context of the recovery process Offering a unique theoretical foundation to understanding the lived experience of the active alcoholic the author asserts that alcoholism is a disease in which negative emotions divide the self into warring inner factions fueled and distorted by alcoholic intoxication The reader will find in *The Alcoholic Society* a clear concise picture of the inner life of alcoholism a collective portrait drawn from the perspective of the active drinking alcoholic The work is solidly anchored in a long term study of the socialization experiences that began in alcoholism treatment centers and continue in Alcoholics Anonymous recovery programs The new volume details the transformation of self that accompanies the life cycle of illness and recovery The book covers the treatment process the restructuring of self the alcoholic's interaction with his recovery treatment program and the modalities of self transcendence that result from treatment *The Alcoholic Society* will prove to be of inestimable value to professionals from all spheres especially social psychologists who are working on the loss of self efficacy and practitioners and researchers in treatment centers who must confront realities of alcoholism on an everyday basis

The Alcoholic Society Reece McGee, 2017-07-12 Offering a unique theoretical foundation to understanding the lived experience of the active alcoholic Denzin asserts that alcoholism is a disease in which negative emotions divide the self into warring inner factions fueled and distorted by alcoholic intoxication The work is solidly anchored in a long term study of the socialization experiences that began in alcoholism treatment centers and continue in Alcoholics Anonymous recovery programs It covers the treatment process the restructuring of self the alcoholic's interaction with his recovery treatment program and the modalities of self transcendence that result from treatment [The Alcoholic Society](#) Reece McGee, 2017 Offering a unique theoretical foundation to understanding the lived experience of the active alcoholic Denzin asserts that alcoholism is a disease in which negative emotions divide the self into warring inner factions fueled and distorted by alcoholic intoxication The work is solidly anchored in a long term study of the socialization experiences that began in alcoholism treatment centers and continue in Alcoholics Anonymous recovery programs It covers the treatment process the restructuring of self the alcoholic's interaction with his recovery treatment program and the modalities of self transcendence that result from treatment Provided by publisher **Research on Alcoholics Anonymous and Spirituality in Addiction**

Recovery Marc Galanter, Lee Anne Kaskutas, 2008-12-05 It was once taken for granted that peer assisted groups such as Alcoholics Anonymous had no real value in recovery from addiction More recently evidence based medicine is recognizing a spiritual component in healing especially when it comes to addiction The newest edition of *Recent Developments in Alcoholism* reflects this change by focusing on the 12 step model of recovery as well as mindfulness meditation and other

spiritually oriented activity More than thirty contributors bring together historical background research findings and clinical wisdom to analyze the compatibility of professional treatment and nonprofessional support day to day concepts of relapse prevention the value of community building in recovery and much more Among the topics covered 1 How and why 12 step groups work 2 The impact of the spiritual on mainstream treatment 3 The impact of AA on other nonprofessional recovery programs 4 AA outcomes for special populations 5 Facilitating involvement in 12 step programs 6 Methods for measuring religiousness and spirituality in alcohol research Whether one is referring clients to 12 step programs or seeking to better understand the process this is a unique resource for clinicians and social workers Developmental psychologists too will find Volume 18 Research on Alcoholics Anonymous and Spirituality in Addiction Recovery a worthy successor to the series

Intoxication and Society Jonathan Herring,Ciaran Regan,Darin Weinberg,Philip Withington,2012-12-21 Intoxicants substances that alter a person s mental and physiological state are a continuing obsession In their effect on the mind and body intoxicants go to the heart of what it means to be human In the tensions between free and uninhibited consumption on the one hand and the pressures of social regulation and personal responsibility on the other they also illuminate the daily paradoxes and sheer complexity of living in modern Western societies Yet this complexity and the rich history that underpins it is often lost in the current debates over public policy Intoxication and Society sets out to supplement the contemporary discourse surrounding intoxication with a more nuanced appreciation of the history and nature of what is very much a multidimensional problem It does so by employing an interdisciplinary framework that includes contributions from leading academics in law sociology anthropology history literature neuroscience and social psychology The result is a subtle historical and contemporary rereading of the social construction of intoxication that will provide a secure basis for analysis as society continues to respond to the problematic pleasures of intoxication

Addicted to Rehab Allison McKim,2017-07-03 After decades of the American war on drugs and relentless prison expansion political officials are finally challenging mass incarceration Many point to an apparently promising solution to reduce the prison population addiction treatment In Addicted to Rehab Bard College sociologist Allison McKim gives an in depth and innovative

ethnographic account of two such rehab programs for women one located in the criminal justice system and one located in the private healthcare system two very different ways of defining and treating addiction McKim's book shows how addiction rehab reflects the race class and gender politics of the punitive turn As a result addiction has become a racialized category that has reorganized the link between punishment and welfare provision While reformers hope that treatment will offer an alternative to punishment and help women McKim argues that the framework of addiction further stigmatizes criminalized women and undermines our capacity to challenge gendered subordination Her study ultimately reveals a two tiered system bifurcated by race and class

Handbook of Community Movements and Local Organizations Ram A. Cnaan, Carl Milofsky, 2007-12-18 Although the way associations and the organization of local social life are intertwined is one of the oldest approaches to community study the way citizens and residents come together informally to act and solve problems has rarely been a primary focus Associations are central to important and developing areas of social theory and social action This handbook takes voluntary associations as the starting point for making sense of communities It offers a new perspective on voluntary organizations and gives an integrated yet diverse theoretical understanding of this important aspect of community life

Fragmented Intimacy Peter J. Adams, 2007-12-20 I recall during my early years as a clinical psychologist being asked by hospital staff to speak with a 32 year old man addicted to alcohol who was being discharged following treatment for pancreatitis This had been his third admission for the same illness and hospital practitioners were exasperated by his choice to continue drinking despite being repeatedly told it would cause irreparable damage to his pancreas from which he would be unlikely to survive I met him in a side room on the ward He sat in his pyjamas in the corner of the room thin and ashen looking with a worried frown fixed across his face Our conversation was initially stilted and I was trying hard not to replicate the lectures and sermons he was likely to have already received from hospital staff As we talked I was able to piece together bits of information about his current circumstances he lived alone he was unemployed and his only family contact was with a brother who visited to check on him occasionally He started to relax into the conversation and then talked about his long struggles with alcohol his drinking had begun in his early teens it had provided him with confidence and friendships he had had some serious motor vehicle accidents he had tried to stop drinking but soon continued he had lost friends jobs and family relationships and in response he had increasingly sought intoxication as a refuge
