Smart, For decades the Alien franchise has stalked our collective nightmares But for the first time in Noah Hawley's acclaimed series *Alien Earth* the terror comes home This unofficial guide *The Making of Alien Earth* is the definitive companion to the series that rewrote the rules of the genre Go behind the scenes of a creative odyssey that began as a rejected pitch and evolved into a critical phenomenon praised for its stylistically bold and scary as hell approach Inside you will explore the meticulously crafted world of 2120 a corporate dystopia where five mega corporations rule the planet and humanity is trapped between a ruthless past and an uncertain future This book unearths the creative decisions that shaped the series from Hawley's artisanal filmmaking philosophy to his audacious choice to disregard the mythology of the prequel films restoring the Xenomorph as an unfathomable cosmic horror Discover the secrets of the show's groundbreaking production including the extensive use of practical effects and the immersive filming experience in Thailand that gave the creatures a visceral tangible presence Uncover the deeper thematic layers of the show's Peter Pan transhuman story which explores the terrifying commodification of consciousness through human synthetic hybrids With insightful analysis of critical and audience reception which placed the series on par with the original 1979 classic and a comprehensive breakdown of the world building casting and technical achievements this guide is your key to understanding a television event that redefined the boundaries of science fiction horror **Alien Earth** Greg Burke, 2004-04 Greg Burke Propells Us into the Future with *Alien Earth* What Another alien storyline This book is so much more You'll find something incredibly and believably riveting in Greg Burke's *Alien Earth* Even the setting will propel you into the future at the crossroads of fiction and fact The characters jump out of the pages and on to the streets walking hand in hand with us by the end of the book You won't be able to put it down To be honest it cries for a sequel What will become of the Earth as we know it *Earth's Harmony* Geoffrey Currens, 2024-01-05 Part thrilling sci-fi adventure part historical fiction *Earth's Harmony* is an endlessly imaginative tale from the creative mind of debut author Geoffrey Currens In the near future perhaps tomorrow humanity receives a message from deep space in an alien language a distress call along with a set of blueprints Two generations later Earth is growing increasingly barren animals are becoming scarce and lakes are drying up Nonetheless as the distress call warned alien attackers arrive at Earth seeking the one resource remaining worth harvesting human slaves Due in no small part to the efforts of pilot Byron Cowboy Carruthers and his ace gunner Jim the alien attack is fought off but one ship manages to escape through a vortex into the past where the alien could potentially take over the Earth and bring about a horrific future Cowboy and Jim must pursue the alien through the vortex aboard the result of the blueprints received in the distress call so long ago a telepathic ship they name *Mother Cowboy* and Jim thus end up in the Devil's Lake area of North Dakota in 1889 where awaiting them is the harsh prairie winter an Indigenous man named Dreamwalker whose

knowledge and collection of animals may prove pivotal to their mission and a romance that will test Cowboy's resolve to not make any ripples in time. Can they stop the alien and their own actions from destroying Earth's chance at a future? *The Chronicles Of ...* Tim Pledger, 2008-05 Politics secrets joys and sorrows fill the pages of *The Chronicles Of* Containing a number of stories within the main story this genre bending novel exhibits the future in the guise of a scientifically advanced society and shows how average people respond to extraordinary situations. Blending fantasy and reality Tim Pledger explores the basic human struggle to maintain control within our own lives. Through his complex characterization Pledger examines personality thought and behavioral changes that humans experience when faced with different situations. He also illustrates how we each choose uniquely individual paths and strategies when we encounter particular circumstances.
