The Aloha Conspiracy:

The Aloha Conspiracy Richard J. Meinhold, 2001-06 A sequel to the novel *If We Never Meet Again This Side of Heaven* The story tells of the Trapp family boys who were reunited after separation by adoption in their youth It shows how the love and prayers of a mother can influence their lives even after death and the strength of character of the four boys who survived You ll meet their families live their lives and share their victories and tragedies Barack Obama, The Aloha Zen President Michael Haas, 2011-01-19 With a foreword written by former presidential candidate Michael Dukakis this book portrays President Barack Obama as a true child of Hawai i and explains why he believes that America can achieve even more greatness by learning from the multicultural customs of the 50th state Obama s aspiration to transform the United States using Hawai i as his model has been a conspicuous theme in his books and speeches over the years In them he extols Hawai i s multicultural ethos describing how a normative problem solving mindset predicated on mutual respect and harmonious interchange is inculcated in the culture politics and society of the Islands Indeed this Aloha Spirit is imbued in Barack Obama is part of what made him irresistibly charismatic as a candidate and explains why voters in 2010 were baffled at his demeanor after he became the 44th President of the United States This unique book examines Obama s decisions as an adult and as president and exposes how they are directly linked to the culture of Hawai i and Obama s multicultural life as a child The author and contributors also describe the ways in which native Hawaiians were dispossessed of their sovereignty and their land how they steadfastly sought justice and how their quest served as a model for Obama s mobilization of support for his candidacy **The Aloha Guide** Ferdinand J. Hawaiian chief who took an English captain as his lover and while sailing throughout the Pacific considered how Chinese Filipinos Pacific Islanders and Native Americans might shape relations with Westerners to their own advantage Chang's book is unique in examining travel sexuality spirituality print culture gender labor education and race to shed light on how constructions of global geography became a site through which Hawaiians as well as their would be colonizers perceived and contested imperialism colonialism and nationalism Rarely have historians asked how non Western people imagined and even forged their own geographies of their colonizers and the broader world This book takes up that task It emphasizes moreover that there is no better way to understand the process and meaning of global exploration than by looking out from the shores of a place such as Hawai'i that was allegedly the object and not the agent of exploration
