Community Relations Service, 1976 The New Race Question Joel Perlmann, Mary C. Waters, 2002-11-14 The change in the way the federal government asked for information about race in the 2000 census marked an important turning point in the way Americans measure race By allowing respondents to choose more than one racial category for the first time the Census Bureau challenged strongly held beliefs about the nature and definition of race in our society The New Race Question is a wide ranging examination of what we know about racial enumeration the likely effects of the census change and possible policy implications for the future The growing incidence of interracial marriage and childrearing led to the change in the census race question Yet this reality conflicts with the need for clear racial categories required by anti discrimination and voting rights laws and affirmative action policies How will racial combinations be aggregated under the Census's new race question Who will decide how a respondent who lists more than one race will be counted How will the change affect established policies for documenting and redressing discrimination The New Race Question opens with an exploration of what the attempt to count multiracials has shown in previous censuses and other large surveys Contributor Reynolds Farley reviews the way in which the census has traditionally measured race and shows that although the numbers of people choosing more than one race are not high at the national level they can make a real difference in population totals at the county level The book then takes up the debate over how the change in measurement will affect national policy in areas that rely on race counts especially in civil rights law but also in health education and income reporting How do we relate data on poverty graduation rates and disease collected in 2000 to the rates calculated under the old race question A technical appendix provides a useful manual for bridging old census data to new The book concludes with a discussion of the politics of racial enumeration Hugh Davis Graham examines recent history to ask why some groups were determined to be worthy of special government protections and programs while others were not Posing the volume's ultimate question Jennifer Hochschild asks whether the official recognition of multiracials

marks the beginning of the end of federal use of race data and whether that is a good or a bad thing for society The New Race Question brings to light the many ways in which a seemingly small change in surveying and categorizing race can have far reaching effects and expose deep fissures in our society A Volume in the Russell Sage Foundation Census Series Copublished with the Levy Economics Institute of Bard College Racial and Ethnic Tensions in American Communities United States Commission on Civil Rights,1995 *Annual Report - Community Relations Service, United States Department of Justice* United States. Franks,2018-05-04 This book sheds light on experiences relatively underrepresented in academic and non academic sport history It examines how Asian and Pacific Islander peoples used American football to maintain a sense of community while encountering racial exclusion labor exploitation and colonialism Through their participation and spectatorship in American football Asian and Pacific Islander people crossed treacherous cultural frontiers to construct what sociologist Elijah Anderson has called a cosmopolitan canopy under which Asian Americans Pacific Islanders and people of diverse racial and ethnic identities interacted with at least a semblance of respect and equity And perhaps a surprising number of Asian Americans and Pacific Islanders have excelled in college and even professional football before the 1960s Finally acknowledging the impressive influx of elite Pacific Islander gridgers who surfaced in the late twentieth and early twenty first century it is vital to note as well the racialized nativism shadowing the lives of these athletes Community Forum on Race Relations in Grand Rapids United States Commission on Civil Rights. Michigan State Advisory Committee,1998 **Uneven Roads** Todd Shaw,Louis DeSipio,Dianne Pinderhughes,Lorrie Frasure,Toni-Michelle C. history and context of U S racial and ethnic politics to build the skills needed to draw their own conclusions In the Third Edition of this groundbreaking text authors Shaw DeSipio Pinderhughes Frasure and Travis bring the historical narrative to life by addressing the most contemporary debates and challenges affecting U S racial and ethnic politics Students will explore important issues regarding voting rights political representation education and criminal justice policies and the immigrant experience

Bibliography of Ethnicity and Ethnic Groups Richard Kolm,1973 *Asian American Family Life and Community* Franklin Ng,2014-06-23 Before World War II family life in Asian American communities was greatly influenced by immigration policies and cultural practices For some groups such as the Chinese and the Filipinos a dearth of females resulted in the appearance of bachelor societies Among the Japanese a healthy family society was maintained by the practice of sponsoring picture brides The essays in this volume examine such issues as the role of the family generational changes and the significance of kinship networks newspapers and credit associations in various Asian American groups
