

PRESIDENCY CONCLUSIONS

Copenhagen European Council - 21-22 June 1993

7. Relations with the Countries of Central and Eastern Europe

A. The Associated Countries

i) The European Council held a thorough discussion on the relations between the Community and the countries of Central and Eastern Europe with which the Community has concluded or plans to conclude Europe agreements ("associated countries"), on the basis of the Commission's communication prepared at the invitation of the Edinburgh European Council.

ii) The European Council welcomed the courageous efforts undertaken by the associated countries to modernize their economies, which have been weakened by 40 years of central planning, and to ensure a rapid transition to a market economy. The Community and its Member States pledge their support to this reform process. Peace and security in Europe depend on the success of those efforts.

iii) The European Council today agreed that the associated countries in Central and Eastern Europe that so desire shall become members of the European Union. Accession will take place as soon as an associated country is able to assume the obligations of membership by satisfying the economic and political conditions required.

Membership requires that the candidate country has achieved stability of institutions guaranteeing democracy, the rule of law, human rights and respect for and protection of minorities, the existence of a functioning market economy as well as the capacity to cope with competitive pressure and market forces within the Union. Membership presupposes the candidate's ability to take on the obligations of membership including adherence to the aims of political, economic and monetary union.

The Union's capacity to absorb new members, while maintaining the momentum of European integration, is also an important consideration in the general interest of both the Union and the candidate countries.

The European Council will continue to follow closely progress in each associated „country towards fulfilling the conditions of accession to the Union and draw the appropriate conclusions.

iv) The European Council agreed that the future cooperation with the associated countries shall be geared to the objective of membership which has now been established. In this context the European Council approved the following:

The European Councils Conclusions Of The Presidency 1992 1994

Michael J. Baun

The European Councils Conclusions Of The Presidency 1992 1994:

A Wider Europe Michael J. Baun, 2000-08-02 This clear and engaging text examines the process and politics of the European Union's Eastern enlargement beginning with its initial response to the 1989 revolution up through the Helsinki summit decisions of December 1999 Michael Baun explores such topics as the EU's original decision to enlarge the pre-accession strategy for prospective members the key political decisions on launching and expanding the accession negotiations and the actual progress of the negotiations He also examines the EU's efforts to reform its policies and institutions in advance of enlargement Throughout Baun weaves in understandable explanations of the complex multilevel process of EU decisionmaking He concludes by considering the limits of enlargement and its consequences for the EU's future development

Constructing the Path to Eastern Enlargement Ulrich Sedelmeier, 2005 This book focuses on explaining why the EU agreed to eastern enlargement and the uneven pattern of accommodation of the applicants' preferences in substantive policies

The Struggle for EU Legitimacy Claudia Sternberg, 2013-08-08 This award winning book answers some of the big questions on the legitimacy of the European Union Specifically it looks at what it would mean for the EU to be considered a legitimate body and where our ideas on this question come from *The Struggle for EU Legitimacy* traces the history of constructions and contestations of the EU's legitimacy in discourses of the European institutions and in public debate Through an interpretive non quantitative textual analysis of an eclectic range of sources it examines both long term patterns in EU official discourses and their reception in member state public spheres specifically in the German and French debates on the Maastricht and Constitutional Draft Treaties The story told portrays the history of legitimating the EU as a continuous contest over the ends and goals of integration as well as a balancing act which was inescapable given the nature of the integration project between bringing the people in and keeping them out In addition it was a balancing act between actively politicizing and deliberately de politicizing the stakes of EU politics

The European Council European Commission. DG X., 1995

The Making of EU Foreign Policy K. Smith, 2004-01-13 *The Making of EU Foreign Policy* argues that there has been a common European Union EU foreign policy towards six countries of Eastern Europe Bulgaria Czech Republic Hungary Poland Romania Slovakia and analyzes why the EU has agreed to the policy The objective of the EU's policy is to support the transformation of Eastern Europe and thus ensure security and stability The most important instrument that the EU has used to reach this objective has been the prospect of enlargement

The Developing Immigration and Asylum Policies of the European Union Elspeth Guild, Jan Niessen, 2023-08-07 Just as free movement and equal treatment were of crucial importance for the development of the European Community so common policies on immigration and asylum are indispensable for the deepening of the European Union This book summarizes against the backdrop of the developing overall goals of the European Community and the European Union the outcome of European policy making in these fields Furthermore the book contains the important texts concluded by the Member States

in the field of immigration and asylum both intergovernmentally and within the Third Pillar of the Maastricht Treaty The commentary analyses the contents of each document in turn by reference to the existing international human rights obligations of the Member States

From the Soviet Bloc to the European Union Ivan T. Berend, 2009-02-12 An authoritative study that covers the social and economic history of Central and Eastern Europe since 1973 *Human Rights and Minority Rights in the European Union* Kirsten Shoraka, 2010-06-17 Examines the development and the role of human rights in the European Union arguing that human rights have become an important component of the foreign policy of the European Union This book analyses the EU's policy on minorities as a particular example of human rights

The Politics of European Union Enlargement Frank Schimmelfennig, Ulrich Sedelmeier, 2005-11-16 This is a key reference text presenting the latest first rate approaches to the study of European enlargement Developed and significantly expanded from a special issue of the leading Journal of European Public Policy this new volume draws on the insights from the recently emerging theoretically informed literature on the EU's eastern enlargement and complements these studies with original articles that combine a theoretical approach with comparative analyses These expert contributors focus on the broader theoretical debates and their implications for the enlargement of the EU as well as placing the enlargement of the EU within the broader context of the expansion of international organisations and the study of institutions in international relations

The Maastricht Treaty: Second Thoughts after 20 Years Thomas Christiansen, Simon Duke, 2016-05-06 The Maastricht Treaty signed in 1992 and ratified in the following year is widely seen as a landmark in the evolution of the European Union It introduced into the treaty framework revolutionary new elements such as the co decision procedure between the Council and the European Parliament cooperation in the area of Justice and Home Affairs the Common Foreign and Security Policy and the euro as a single currency for the majority of the then member states It also introduced the concept of European citizenship into the treaty reflecting the rising expectations of both citizens and decision makers in the European project and upgraded the role of the European Council at the summit of the EU's institutional structure Twenty years later each of these innovations remain of central importance for the process of European integration while current developments provide a valuable opportunity to reflect on the historical decisions taken in Maastricht in order to assess their significance and examine the subsequent evolution of the Union This volume brings together an international group of leading scholars in the field in order to provide such an assessment with each article both looking back over the developments within each of these domains as well as looking ahead to the way in which the EU is positioned to address current challenges This book was published as a special issue of the Journal of European Integration

European Integration after Amsterdam Karlheinz Neunreither, Antje Wiener, 2000-03-16 European integration is at a turning point with implications for all member states and their citizens The Amsterdam treaty marks a shift towards constitutional issues Integration has involved a continually evolving process of constitution making A group of leading scholars argue that the shift towards constitutional issues is

rooted not only in the issues on the European level but also in shifting models of political and economic organisation in the member states Paradoxically however this push towards integration is accompanied by a number of institutional changes and political decisions which challenge the picture of on going integration and indicate a shift towards a new pluralism in the Euro polity The contributors address questions such as what are the likely effects of the Amsterdam treaty changes in comparison with Maastricht how will these changes effect the complex balance among the governing institutions of the EU and what will be the implications for the lingering quest for democracy

In Search of the Perfect Citizen? Sergio Carrera,2009-05-11 This book studies the normative intersection between integration immigration and nationality in the European Union EU It examines the relationship between integration and the legal frameworks of admission stay and access to nationality by third country nationals at national and European levels Integration is being subject to multifaceted processes transforming its traditional policy and legal settings as well as its classical theoretical premises and approaches The Europeanisation of immigration policy has provoked the emergence of distinctive European approaches on integration The legal elements of integration are being developed through two parallel settings the EU Framework on Integration and European immigration law These venues constitute two of the main pillars upon which the common EU immigration policy is being constructed and their nexus raises several elements in need of reflection and study This book examines the processes through which integration becomes a norm in nationality and immigration law and policy at the national and EU levels and the implications of these processes for the legal status of third country nationals and the overall coherency of the common EU immigration policy
