The Politics Of National Security:

The Politics of National Security Marcus G. Raskin, 1979-01 The evolution of the national security state in the United States can be traced from the political military and economic dimensions of American power in the postwar world In Raskin's view the United States emerged from the Second World War with tremendously increased prestige and material power and American leadership created a national security apparatus as a planning instrument to ensure national stability to mute class conflicts and to secure the domestic economy This state then became the basis around the world for covert and overt imperialism The consensus that developed served to maintain stability at home and to guide the modern empire abroad This development required a state that was orderly and that was predicated on modern bureaucracy which operated within the values and assumptions of the ruling elites The national security state system was successful primarily in the economic sphere with bipartisan foreign policy decision making aimed at ensuring a stable business climate at home and abroad Military involvement in Indochina evidenced the decline of American hegemony the genocidal nature of the arms race and the questions raised by protestors of the sixties signaled the break up of the national security consensus Raskin concludes the book with an examination of alternative directions especially regarding the need and the possibilities for renewed public debate of national policy and purpose

Philip Ellis, 1992 Based on interviews with US Congress members and their staff this study explains why Congress has taken an expanded role in the formulation of US national defence policies The author describes how these changes came about and their consequences for American interests

Arsenal of Democracy Julian E. Zelizer, 2010 In a book based on original archival findings a prize winning historian and author of *Taxing America* offers a

sweeping history of the interplay between United States domestic politics and foreign policy since World War II U.S. National Security Sam Charles Sarkesian, John Allen Williams, Stephen J. Cimbala, 2002 The authors present an overview of the institutions and processes of U S foreign and national security policy This is a standard and uncontroversial treatment that conforms to the mainstream assumptions of American policy makers and centrist academia The authors do acknowledge the debate about models and interests that is carried on within that mainstream Annotation copyrighted by Book News Inc Portland OR Congress and the Politics of National Security David P. Auerswald, Colton C. Campbell, 2012 In an increasingly complex and unpredictable world a growing number of observers and practitioners have called for a reexamination of our national security system Central to any such reform effort is an evaluation of Congress Is Congress adequately organized to deal with national security issues in an integrated and coordinated manner How have developments in Congress over the past few decades such as heightened partisanship message politics party committee relationships and bicameral relations affected topical security issues This volume examines variation in the ways Congress has engaged federal agencies overseeing our nation s national security as well as various domestic political determinants of security policy

Russett, 1990 *The Political Economy of National Security, Critical Infrastructure and Securitization of Foreign Investments* Jakub M. Joshua Rovner, 2011-07-26 What is the role of intelligence agencies in strategy and policy How do policymakers use or misuse intelligence estimates When do intelligence policy relations work best How do intelligence policy failures influence threat assessment military strategy and foreign policy These questions are at the heart of recent national security controversies including the 9 11 attacks and the war in Iraq In both cases the relationship between intelligence and policy broke down with

disastrous consequences In *Fixing the Facts* Joshua Rovner explores the complex interaction between intelligence and policy and shines a spotlight on the problem of politicization Major episodes in the history of American foreign policy have been closely tied to the manipulation of intelligence estimates Rovner describes how the Johnson administration dealt with the intelligence community during the Vietnam War how President Nixon and President Ford politicized estimates on the Soviet Union and how pressure from the George W Bush administration contributed to flawed intelligence on Iraq He also compares the U S case with the British experience between 1998 and 2003 and demonstrates that high profile government inquiries in both countries were fundamentally wrong about what happened before the war

Hard Power Kurt Campbell, Michael O'Hanlon, 2007-03-09 Our ideas about national security have changed radically over the last five years It has become a political tool a wedge issue a symbol of pride and fear It is also the one issue above all others that can make or break an election And this is why the Democratic Party has been steadily losing power since 2001 In *Hard Power* Michael O Hanlon an expert on foreign policy at the Brookings Institution and Kurt Campbell an authority on international security at the Center for Strategic and International Studies explain how the Democrats lost credibility on issues of security and foreign policy how they can get it back and why they must They recall the successful Democratic military legacy of past decades as well as recent Democratic innovations like the Homeland Security Office and the idea of nation building that have been successfully co opted by the Republican administration And most importantly they develop a broad national security vision for America including specific defense policies and a strategy to win the war on terror

The Culture of National Security Peter J. Katzenstein, 1996 The political transformations of the 1980s and 1990s have dramatically affected models of national and international security Particularly since the end of the Cold War scholars have been uncertain about how to interpret the effects of major shifts in the balance of power Are we living today in a unipolar bipolar or multipolar world Are we moving toward an international order that makes the recurrence of major war in Europe or Asia highly unlikely or virtually inevitable Is ideological conflict between states diminishing or increasing
