Studies in Singing consolidates the findings of each of these three questions defining the current state of theory and research in the field Volume III Wellbeing focuses on this third question and the health benefits of singing singing praises for its effects on wellbeing *Ethnomusicology* Jennifer Post,2004-03-01 Ethnomusicology A Research and Information Guide is an annotated bibliography of books recordings videos and websites in the field of ethnomusicology The book is divided into two parts Part One is organised by resource type in catagories of greatest concern to students and scholars This includes handbooks and guides encyclopedias and dictionaries indexes and bibliographies journals media sources and archives It also offers annotated entries on the basic literature of ethnomusicological history and research Part Two provides a list of current publications in the field that are widely used by ethnomusicologists Multiply indexed this book serves as an excellent tool for librarians researchers and scholars in sorting through the massive amount of new material that has appeared in the field over the past decades *Historical Dictionary of Lesotho* Scott Rosenberg,Richard F. Weisfelder,2013-06-13 Lesotho is rather different from most other African countries For starters it is a kingdom which preserves a traditional hierarchy and customs and its population consists of one fairly homogenous ethnic group although admittedly there are differences and occasional rifts within it Then it is a landlocked country completely surrounded by South Africa on which is depends heavily Economically it has not been doing particularly well this partly because the country is so poorly endowed by nature and its people often eke out a living abroad Politically there have been ups and downs the downs fortunately lying in the past with Lesotho doing somewhat better since the latest elections Socially and culturally as hinted it is quite unique and this can be gathered from reading the book This second edition of Historical Dictionary of Lesotho covers the full scope of Lesotho s ancient colonial and independence eras It gives greater emphasis to the more recent period and brings the book fully up to date This is done through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 400 cross referenced entries on civil society key events leaders governmental international religious and other private organizations policies political movements and parties economic elements and many other areas that have shaped the country s trajectory This book is an excellent access point for students researchers and anyone wanting to know more about Lesotho *The Land Is Sung* Thomas M. Pooley,2023-10-17 What does it mean to belong In The Land is Sung musicologist Thomas M Pooley shows how performances of song dance and praise poetry connect Zulu communities to their ancestral homes and genealogies For those without land tenure in the province of KwaZulu Nata performances articulate a sense of place Migrants express their allegiances through performance and spiritual relationships to land are embodied in rituals that invoke ancestral connection while advancing well being through intergenerational communication Engaging with justice and environmental ethics education and indigenous knowledge systems musical and linguistic analysis and the ethics of recording practice Pooley s analysis draws on genres of music and dance recorded in the midlands and borderlands of South Africa and in Johannesburg s inner city His detailed sound writing captures the visceral experiences of performances

in everyday life The book is richly illustrated and there is a companion website featuring both video and audio examples

The World of South African Music Christine Lucia,2009-03-26 The present Reader is a selection of texts on South African music which are chosen not only for their importance or the frequency of citations but with the express purpose of providing the reader with a deep understanding of the music itself Consequently there are readings that are chosen because they have been influential but there are also many which though published have not enjoyed very wide circulation There are those which are of obvious historic interest and others which speak to contemporary issues Among other things the volume provides an excellent sense of the varying ideologies and approaches that determine the relationship between author and subject The reader is indispensable to scholars and enthusiasts of South African music and it is of great interest to ethnomusicologists more generally It is also an excellent resource for those who do not have immediate access to harder to find articles and is perhaps most vital to those who are looking to find a way into the world of South African music

Historical Dictionary of Lesotho John Aerni-Flessner,Charles Fogelman,Nthabiseng Mokoena-Mokhali,2023-11-30 Lesotho s history has long been defined by its enclave status within South Africa but it is a hard fought and hard won status that helps unite Basotho through the shared history of struggle against colonial rule in the region Since the end of apartheid in 1994 Lesotho s status as a separate entity has been called into question though the fierce national pride built through centuries of resistance to outside rule has mitigated against any serious discussions of incorporating Lesotho into South Africa Still the political instability and lack of a flourishing domestic economy have made life difficult for the majority of Basotho and could call into question the viability and legitimacy of the state in the eyes of its citizens if it cannot enact significant reforms in the coming decades Historical Dictionary of Lesotho Third Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 500 cross referenced entries on important personalities as well as aspects of the country s politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Lesotho *Theory for*

The Study of Ethnomusicology Bruno Nettl,2010-10-01 The first edition of this book The Study of Ethnomusicology Twenty Nine Issues and Concepts has become a classic in the field This revised edition written twenty two years after the original continues the tradition of providing engagingly written analysis that offers the most comprehensive discussion of the field available anywhere This book looks at the field of ethnomusicology defined as the study of the world s musics from a comparative perspective and the study of all music from an anthropological perspective as a field of research Nettl selects thirty one concepts and issues that have been the subjects of continuing debate by ethnomusicologists and he adds four

entirely new chapters and thoroughly updates the text to reflect new developments and concerns in the field Each chapter looks at its subject historically and goes on to make its points with case studies many taken from Nettl's own field experience Drawing extensively on his field research in the Middle East Western urban settings and North American Indian societies as well as on a critical survey of the available literature Nettl advances our understanding of both the diversity and universality of the world's music This revised edition's four new chapters deal with the doing and writing of musical ethnography the scholarly study of instruments aspects of women's music and women in music and the ethnomusicologist's study of his or her own culture

In the Time of Cannibals David B. Coplan, 1994 The workers who migrate from Lesotho to the mines and cities of neighboring South Africa have developed a rich genre of sung oral poetry word music that focuses on the experiences of migrant life This music provides a culturally reflexive and consciously artistic account of what it is to be a migrant or part of a migrant's life It reveals the relationship between these Basotho workers and the local and South African powers that be the cannibals who live off of the workers' labor David Coplan presents a moving collection of material that for the first time reveals the expressive genius of these tenacious but disenfranchised people Coplan discusses every aspect of the Basotho musical literature taking into account historical conditions political dynamics and social forces as well as the styles artistry and occasions of performance He engages the postmodern challenge to decolonize our representation of the ethnographic subject and demonstrates how performance formulates local knowledge and communicates its shared understandings Complete with transcriptions of full male and female performances this book develops a theoretical and methodological framework crucial to anyone seeking to understand the relationship between orality and literacy in the context of performance This work is an important contribution to South African studies to ethnomusicology and anthropology and to performance studies in general

Music, Space and Place Andy Bennett, 2017-10-03 Music Space and Place examines the urban and rural spaces in which music is experienced produced and consumed The editors of this collection have brought together new and exciting perspectives by international researchers and scholars working in the field of popular music studies Underpinning all of the contributions is the recognition that musical processes take place within a particular space and place where these processes are shaped both by specific musical practices and by the pressures and dynamics of political and economic circumstances Important discourses are explored concerning national culture and identity as well as how identity is constructed through the exchanges that occur between displaced peoples of the world's many diasporas Music helps to articulate a shared sense of community among these dispersed people carving out spaces of freedom which are integral to personal and group consciousness A specific focal point is the rap and hip hop music that has contributed towards a particular sense of identity

as indigenous resistance vernaculars for otherwise socially marginalized minorities in Cuba France Italy New Zealand and South Africa New research is also presented on the authorial presence in production within the domain of the commercially driven Anglo American music industry The issue of authorship and creativity is tackled alongside matters relating to the production of musical texts themselves and demonstrates the gender politics in pop Underlying Music Space and Place is the question of how the disciplines informing popular music studies sociology musicology cultural studies media studies and feminism have developed within a changing intellectual climate The book therefore covers a wide range of subject matter in relation to space and place including community and identity gender race vernaculars power performance and production
