Soviet and Nazi Defectors Nigel West, 2024-12-30 Analyzes nine wartime and postwar defections highlighting motivations risks and counter intelligence significance A well informed defector is the most dangerous counter intelligence commodity because it takes a spy to catch a spy Very occasionally an agent especially a mole or an intelligence professional will make a mistake and incriminate themselves but usually it is a denunciation a tip or a vague clue from a defector that will provide the vital information required to expose the source of a leak Relying on recently declassified intelligence files and interviews with defectors their handlers their families and their victims Nigel West has analyzed nine examples of wartime and postwar defections to shed new light on the phenomenon Defectors are notoriously difficult to handle and resettle because of the range of genuine or

invented motives that led them to take such drastic action Some will provide a noble political motive seeking to impress their host while others may be driven by less worthy compulsions perhaps greed revenge career disappointment envy anger or nothing more complicated than a desire to start a life afresh with a different partner Defectors are the stock in trade for all counter intelligence specialists who seek the background and context of corridor gossip and water cooler chat cannot be substituted by any amount of technical surveillance overhead reconnaissance or hard to interpret intercepted communications This is the essence of Human Intelligence and goes to the heart of loyalty trust betrayal and deception the very DNA of espionage These nine examples of switching sides all involve intelligence professionals who followed the example of Erich Vermehren Because of his religious convictions Vermehren felt compelled to desert the Abwehr in January 1944 even though this meant the arrest of his parents and siblings who were consigned to Sachsenhausen concentration camp West traced Vermehren then living under an alias in Switzerland to hear his story first hand He then interviewed the British MI6 officer who had engineered the covert exfiltration from Istanbul of both the German and his wife Sometimes a defection may be the result of a period of cultivation as happened with Vladimir Petrov who was gently persuaded over many months by his Polish dentist to abandon his clandestine role as resident in Canberra for a chicken farm The intermediary Dr Michael Bialoguski admitted to the author that right up to the moment of his defection he and his Australian Security Intelligence organization colleagues were not entirely sure of Petrov's true status Once resettled a defector's life has daily challenges as was explained by Yuri Rastvorov's widow herself a CIA counter intelligence officer who recalled the day she had to tell their two daughters that their father was not a Czech tennis coach but an NKVD defector who had been based in Tokyo

The KGB's Poison Factory Boris Volodarsky, 2013-11-30 A cracking good read and a chilling true story of Russia's assassination program begun more than a century ago and which continues today Tennent H Bagley former CIA chief of Soviet Bloc counterintelligence In late November 2006 Alexander Litvinenko a former lieutenant colonel of the Federal Security Service of the Russian Federation was ruthlessly assassinated in London by radiation poisoning The shocking murder was the most notorious crime committed by the Russian intelligence on foreign soil in more than three decades Here former Russian military intelligence officer and an international expert in special operations Boris Volodarsky who was consulted by the Metropolitan Police during the Litvinenko investigation offers readers a startling narrative of the Russian security services history of covert assassination by poisoning Beginning in 1917 with Lenin and his dreaded Cheka secret police Russian security services have committed killing after killing both in Russia and across the globe In *The KGB's Poison Factory* Volodarsky proves that the Litvinenko's poisoning supposedly ordered by Russian strongman Vladimir Putin is

just one episode in a chain of murders going back decades Some of these assassinations or attempted assassinations are already known others are revealed here for the first time With keen insight Volodarsky brings readers inside the assassinations of twenty individuals killed by order of the Kremlin in a revealing tell all that will fascinate students as well as general readers interested in international espionage Library Journal **The Cold War** Spencer C. O'Connell, 1997-10-23 Accurst be he that first invented war wrote Christopher Marlowe a declaration that most of us would take as a literary not literal construction But in this sweeping overview of the rise of civilization Robert O Connell finds that war is indeed an invention an institution that arose due to very specific historical circumstances an institution that now verges on extinction In Ride of the Second Horseman O Connell probes the distant human past to show how and why war arose He begins with a definition that distinguishes between war and mere feuding war involves group rather than individual issues political or economic goals and direction by some governmental structure carried out with the intention of lasting results With this definition he finds that ants are the only other creatures that conduct it battling other colonies for territory and slaves But ants unlike humans are driven by their genes in humans changes in our culture and subsistence patterns not our genetic hardware brought the rise of organized warfare O Connell draws on anthropology and archeology to locate the rise of war sometime after the human transition from nomadic hunting and gathering to agriculture when society split between farmers and pastoralists Around 5500 BC these pastoralists initiated the birth of war with raids on Middle Eastern agricultural settlements The farmers responded by ringing their villages with walls setting off a process of further social development intensified combat and ultimately the rise of complex urban societies dependent upon warfare to help stabilize what amounted to highly volatile population structures beset by frequent bouts of famine and epidemic disease In times of

overpopulation the armies either conquered new lands or self destructed leaving fewer mouths to feed In times of underpopulation slaves were taken to provide labor O Connell explores the histories of the civilizations of ancient Sumeria Egypt Assyria China and the New World showing how war came to each and how it adapted to varying circumstances On the other hand societies based on trade employed war much more selectively and pragmatically Thus Minoan Crete long protected from marauding pastoralists developed a wealthy mercantile society marked by unmilitaristic attitudes equality between men and women and a relative absence of class distinctions In Assyria by contrast war came to be an end in itself in a culture dominated by male warriors Despite the violence in the world today O Connell finds reason for hope The industrial revolution broke the old patterns of subsistence war no longer serves the demographic purpose it once did Fascinating and provocative Ride of the Second Horseman offers a far reaching tour of human history that suggests the age old cycle of war may now be near its end

The Kremlin's Geordie Spy Vin Arthey, 2010-08-02 Discover an extraordinary true life adventure that could have appeared straight from the pages of a John le Carr Cold War novel In February 1962 Gary Powers the American pilot whose U 2 spy plane was shot down over Soviet Union airspace was released by his Russian captors in exchange for one of their own Soviet KGB Colonel Vilyam Fisher Colonel Fisher was remarkable not least because he was born plain Willie Fisher at number 142 Clara Street Benwell in Newcastle upon Tyne Willie s revolutionary parents fled Russia in 1901 settling in the north east where Willie was brought up to share the family ideology Leaving England for the newly formed Soviet Union in 1921 Willie began a career as a spy Narrowly escaping Stalin s purges Willie was sent to spy in New York where he ran the network that included notorious atom spies Julius Rosenberg and Ted Hall In 1957 he was arrested and sentenced to 30 years in prison Six years later the USSR s regard for Willie s talents was proven when they insisted on swapping him for the stricken Powers Tracing Willie s story from the most unlikely of beginnings in Newcastle to Moscow New York and back again The Kremlin s Geordie Spy is a singular and absorbing true story of Cold War espionage to rival anything in fiction
