Anatomy of Post-Communist European Defense Institutions Thomas-Durell Young, 2017-06-29 Although the West won the Cold War the continuation of the status quo is not a foregone conclusion The former Soviet aligned regions outside of Russia Ukraine Poland Czech Republic and others sit atop decaying armed forces while Russian behavior has grown more and more aggressive as evidenced by its intervention in Ukraine in recent years Thomas Young delves into the state of these defense institutions in Central and Eastern Europe whose resources have declined at a faster rate than their Western neighbors due to social and fiscal circumstances at home and shifting attitudes in the wider international community With rigorous attention to the nuances of each region's politics and policies he documents the status of reform of these armed forces and the role that Western nations have played since the Cold War as well as identifying barriers to success and which management practices have been most effective in both Western and Eastern capitals This is essential reading for undergraduates and graduates studying the recent history of Europe in the post Soviet era as well as those professionally involved in defense governance in the region

Public Control of Armed Forces in the Russian Federation Nadja Douglas, 2017-10-06 The volume deals with the fundamentals of the contemporary relations between civic actors and state power structures The main focus lies on public control of armed forces and the question of why civilians should have a vigilant eye on the military institution as well as the civilian authority that legitimizes the use of force Based on the example of conscription and recruitment as an intersection between the military and

society this study engages in an analysis of institutional change in the politico military field in post Soviet Russia Taking a critical stance on conventional military sociology the book shifts the focus away from the exclusive power relationship between political and military elites in the context of national security Instead it takes into consideration human and societal security i e the needs and demands of individuals and groups at the grassroots level affected by the military and the prevailing security situation in Russia The book addresses readers with an interest in civil military relations contemporary Russian affairs and social movement theories *Germany's New Security Demographics* Wenke Apt,2013-12-04 Military recruitment will become more difficult in times of demographic aging The question arises whether demographic change will constrain the capacity of aging states like Germany to conduct foreign policy and pursue their national security interests Since contemporary military operations still display a strong human element particular scrutiny is given to the empirical analysis of the determinants of military propensity and military service among youth An additional human capital projection until 2030 illustrates how the decline in the youth population will interact with trends in educational attainment and adolescent health to further complicate military recruitment in the future A concluding review of recruiting practices in other NATO countries provides insight in best practice policy options to reduce the military s sensitivity to demographic change Following this approach the book gives prominence to a topic that has thus far been under represented in the greater discussion of demographic change today namely the demographic impact on international affairs and strategic calculations

Gender Integration in NATO Military Forces Lana Obradovic,2016-04-15 Numerous states have passed gender integration legislation permanently admitting women into their military forces As a result states have dramatically increased women s numbers and improved gender equality by removing a number of restrictions Yet despite changes and initiatives on both domestic and international levels to integrate gender perspectives into the military not all states have improved to the same extent Some have successfully promoted gender integration in the ranks by erasing all forms of discrimination but others continue to impede it by setting limitations on equal access to careers combat and ranks Why do states abandon their policies of exclusion and promote gender integration in a way that women s military participation becomes an integral part of military force By examining twenty four NATO member states this book argues that civilian policymakers and military leadership no longer surrender to parochial gendered division of the roles but rather support integration to meet the recruitment numbers due to military modernization professionalization and technological advancements Moreover it proposes that increased pressure by the United Nations to integrate gender into security and NATO seeking standardization and consistency on the international level and women s movements on the domestic level are contributing to greater gender integration in the military Winner of the 2015 ERGOMAS Best Book in Civil Military Relations Award Between Military Rule and Democracy Yaprak Gursoy,2017-07-06 Why do the armed forces sometimes intervene in politics via short lived coups d tat at other times establish or support authoritarian regimes or in some cases come under the democratic control of

civilians To find answers Yaprak G rsoy examines four episodes of authoritarianism six periods of democracy and ten short lived coups in Greece and Turkey and then applies her resultant theory to four more recent military interventions in Thailand and Egypt Based on more than 150 interviews with Greek and Turkish elites G rsoy offers a detailed analysis of both countries from the interwar period to recent regime crises She argues that officers politicians and businesspeople prefer democracy authoritarianism or short lived coups depending on the degree of threat they perceive to their interests from each other and the lower classes The power of elites relative to the opposition determined in part by the coalitions they establish with each other affects the success of military interventions and the consolidation of regimes With historical and theoretical depth *Between Military Rule and Democracy* will interest students of regime change and civil military relations in Greece Turkey Thailand and Egypt as well as in countries facing similar challenges to democratization **Advances in Military Sociology** Giuseppe Caforio,2009-12-21 A selection of the papers presented at RC01 s international conference in Seoul July 2008 It offers a view of the panorama of social studies on armed forces and conflict resolution in a context of fast moving change that renders many preceding theoretical previsions obsolete **Military Unionism In The Post-Cold War Era** Richard Bartle,Lindy Heinecken,2006-07-29 Richard Bartle and Lindy Heinecken are acknowledged experts in this area and they bring together a contemporary collection of papers from leading authorities in 12 countries **Armed Forces and Conflict Resolution** Guiseppe Caforio, Gerhard Kummel, Bandara Purkayastha,2008-10-15 Covers the various aspects of war in the twenty first century where asymmetric warfare has changed many rules of the game imposing a profound transformation on the military not only tactical but also structural preparatory mental and ideological This book also covers the delicate relations between the armed forces and societies **Women and War in the 21st Century** Margaret D. Sankey,2018-08-17 Twenty three countries currently allow women to serve in front line combat positions and others with a high likelihood of direct enemy contact This book examines how these decisions did or did not evolve in 47 countries This timely and fascinating book explores how different countries have determined to allow women in the military to take on combat roles whether out of a need for personnel a desire for the military to reflect the values of the society or the opinion that women improve military effectiveness or in contrast have disallowed such a move on behalf of the state In addition many countries have insurgent or dissident factions in that have led armed resistance to state authority in which women have been present requiring national militaries and peacekeepers to engage them incorporate them or disarm and deradicalize them This country by country analysis of the role of women in conflicts includes insightful essays on such countries as Afghanistan China Germany Iraq Israel Russia and the United States Each essay provides important background information to help readers to understand the cultural and political contexts in which women have been integrated into their countries militaries have engaged in combat during the course of conflict and have come to positions of political power that affect military decisions **The Handbook of European Defence Policies and Armed Forces** Hugo Meijer,Marco Wyss,2018-06-22 The

The Politics of Military Reform Jürgen Rüländ, Maria-Gabriela Manea, Hans Born, 2012-09-03 This volume seeks to explain why democratization and military reforms stagnate in newly democratizing countries The contributions blend historical ideational cultural and structural explanatory factors to analyze the trajectories of military reform in Indonesia and Nigeria two major regional powers that share many structural commonalities In the tradition of the literature on security sector reform SSR the book not only scrutinizes executive initiatives toward military reform but also provides ample coverage of societal actors Findings show that while military reform is stagnating in both countries societal forces ought to be taken into account more as major driving forces in explaining military reform Several chapters study how legislatures non governmental organizations and the civilian defence epistemic community contribute to the transformation of military institutions The last part of the book tackles another aspect rarely studied in the literature on military reform namely the role of militias in military reform

III Lopez, Daniel Nataf, Elizabeth Sammis, 2015-12-22 First published in 1991 In the late 1970s Nicos Poulantzas in Crisis of the Dictatorships Portugal Spain Greece applied his well known theoretical perspectives to a concrete analysis of the major transformations that occurred in those three countries during 1974 and 1975 His provocative and interpretative analysis not only provided a basis for comparative study but also examined several important theoretical questions about transition from dictatorship to representative democracy and on to socialism The present essays offer a retrospective assessment of this transition and

examine current developments with particular attention to the role of the state and social classes in the overthrow of the old dictatorships the evolution of representative democracy and political parties and the formal integration of these countries into the European Economic Community and the international capitalist system Environmental Protection and Transitions from Conflict to Peace Carsten Stahn, Jens Iverson, Jennifer S.
