The Event Of The Qur'an Islam In Its Scripture:

The Event of the Quran Kenneth Cragg, 1994-09 Renowned author Kenneth Cragg examines the questions What happens in the Qur'an in this uniquely comprehensive scholarly and historical study *The Event of the Qur'an* Kenneth Cragg, 1994

Modern Muslim Intellectuals and the Qur'an Suha Taji-Farouki, Institute of Ismaili Studies, 2006-01-26 This volume examines the writings of ten Muslim intellectuals working in the Muslim world and the West who employ contemporary critical methods to understand the Qur'an Their work points to a new trend in Muslim interpretation characterised by a direct engagement with the Word of God while embracing intellectual modernity in a global context The volume situates and evaluates their work and responses to it among Muslim and non Muslim audiences ***The Event of the Qu'rân* Kenneth Cragg, 1971-01-01** *The Qur'an* Oliver Leaman, 2006-05-02 A RUSA 2007 Outstanding Reference Title The Qur'an is the source of inspiration for one of the world's major religions followed today by over a billion people It plays a central role in Islam and ever since it appeared fourteen hundred years ago has been the subject of intense debate Some of this has been carried out by Muslims and some by those hostile or indifferent to Islam producing a very wide range of views Authored by forty three international experts the objective of *The Qur'an An Encyclopedia* is to present this diversity of thought approach and school without priority in order to give a strong appreciation of the range of response that the text has provoked throughout its history and providing students and researchers with a powerful one volume resource covering all aspects of the text and its reception Islam and the Qur'an are much in the news today and there is a public debate going on in which things are said about the Qur'an without much knowledge or understanding of the book Every effort has been made to help the reader use the Encyclopedia as an investigative tool in Quranic studies The volume assumes no previous knowledge of the Qur'an Islam or Arabic Technical terms are explained in the text itself and the style of each entry is designed to be as self contained as possible Entries are cross referenced and many include a brief bibliography At the end of the work there is a substantial annotated bibliography providing a detailed guide to the most significant books journals and articles in Quranic Studies There is a full index The readership will include those seeking basic information on the Qur'an however the substantial number of longer entries means that it will also be used by specialists ***Believing Women in Islam* Asma Barlas, 2019-01-16** Does Islam call for the oppression of women Non Muslims point to the subjugation of women that occurs in many Muslim countries especially those that claim to be Islamic while many Muslims read the Qur'an in ways that seem to justify sexual oppression inequality and patriarchy Taking a wholly different view Asma Barlas develops a believer's reading of the Qur'an that demonstrates the radically egalitarian and antipatriarchal nature of its teachings Beginning with a historical analysis of religious authority and knowledge Barlas shows how Muslims came to read inequality and patriarchy into the Qur'an to justify existing religious and social structures and demonstrates that the patriarchal meanings ascribed to the Qur'an are a function of who has read it how and in what contexts She goes on to reread the Qur'an's position on a

variety of issues in order to argue that its teachings do not support patriarchy To the contrary Barlas convincingly asserts that the Qur'an affirms the complete equality of the sexes thereby offering an opportunity to theorize radical sexual equality from within the framework of its teachings This new view takes readers into the heart of Islamic teachings on women gender and patriarchy allowing them to understand Islam through its most sacred scripture rather than through Muslim cultural practices or Western media stereotypes For this revised edition of *Believing Women in Islam* Asma Barlas has written two new chapters Abraham's Sacrifice in the Qur'an and Secular Feminism and the Qur'an as well as a new preface an extended discussion of the Qur'an's wife beating verse and of men's presumed role as women's guardians and other updates throughout the book

Sufism and the Scriptures Fitzroy Morrissey, 2020-12-10 The Sufi thinker Abd al Karim al Jili d 1408 is best known for his treatment of the idea of the Perfect Human yet his masterpiece *al Insan al kamil* The Perfect Human is in fact a wide ranging compendium of Sufi metaphysical thought in the Ibn Arabian tradition One of the major topics treated in that work is sacred history the story of God's revelation of the truth to humanity through His prophets and scriptures Fitzroy Morrissey provides here the first in depth study of this important section of al Jili's major work and the key ideas contained within it Through a translation and analysis of the key passages on the Qur'an Torah Psalms and Gospel it shows how al Jili's view of sacred history is conditioned by his Ibn Arabian Sufi metaphysics whereby the phenomenal world is viewed as a manifestation of God and the prophets and scriptures as special places where the divine attributes appear more completely It also looks at how this idea influences al Jili's understanding of the hierarchy of prophets scriptures and religions The book argues that contrary to common assumptions al Jili's Sufi metaphysical view of sacred history is in keeping with the common medieval Muslim view of sacred history whereby the Qur'an is viewed as the best of scriptures Muhammad as the best of prophets and Islam as the best religion The book therefore not only gives an insight into a key text within medieval Sufi thought but also has ramifications for our understanding of medieval Sufi views on the relationship between Islam and other religions

Routledge Handbook on Christian-Muslim Relations David Thomas, 2017-08-16 The matter of Christian Muslim relations cannot be ignored these days While the term itself may not appear all that often relations between the two faiths and their reciprocal perceptions are undeniable influences behind many

current conflicts declarations of mutual recognition and peace negotiations not to mention the brooding hatred of religious extremists Since 9 11 relations between the two faiths have in one form or another hardly been away from the news This Handbook contains fundamental information about the major aspects of relations between Christians and Muslims Its various sections follow the history from the early seventh century to the present the major religious issues that have led to disputes between the two faiths and the political implications of religious differences at various stages through history as well as in the present It includes analysis of scriptural and theological themes and explores the characteristics of relations at important points in history and also in various parts of the world today Chapters are devoted to the most significant intellectual interpretations and encounters the main armed clashes including the Crusades and the important documents issued by each faith that in recent years have led the way towards new developments in recognition and acceptance With chapters written by some of the foremost experts in the field the book traces the largely dark history of relations and explains the underlying reasons why Muslims and Christians have found tolerance and respect for the other difficult It is an excellent resource for understanding the past and for highlighting lessons for future relations between the world's two largest religions **The Qur'an as Text** Wild,2021-09-20 This book contains the updated papers of an international symposium The Qur'an as Text which was held at the University of Bonn in November 1993 This collection intends to break away from the 19th century paradigm of influences which seems largely exhausted but still dominates Qur'anic studies Instead this collection focuses on the literary the intertextual and the receptional aspects of the Qur'anic text A new approach to the holy book of Islam in the light of modern hermeneutics which is based on modern methods of literary history text linguistics and aesthetics can open the door for a new and more adequate understanding of the Qur'an its role for Islamic religion and its unique place in the history of world religions today *The Event of the Qu'rān* Kenneth Cragg,1994 **Rethinking Quranic Studies** William Al-Sharif,2010-06-11 The book proposes a critical methodology in Quranic studies based on human and social studies It suggests that a rational rethinking of the Quran is a prerequisite for the liberation of Muslim societies from closed dogmatism *Epistemology of the Quran* M. Ashraf Adeel,2019-07-17 This book examines all verses of the Quran involving knowledge related concepts It begins with the argument that an analysis of the Quranic concept of ignorance points to epistemic virtues that can pave our way towards gaining knowledge and or understanding It deals with the Quranic concepts of perceptual rational and revelatory knowledge as well as understanding and wisdom in the light of recent discussions in Western analytic epistemology It also argues that the relevant Quranic verses seem to involve concept of an epistemic conscience whose proper exercise can yield knowledge or understanding While not overlooking the Quranic emphasis on revelation as a source of knowledge the book draws our attention to a remarkable overlap between some strains of contemporary virtue epistemology and Quranic approach to knowledge It shows that the Quranic verses suggest a progressive sequence from propositional knowledge to understanding to wisdom **The Qu'ran as Text** Stefan Wild,1996

This collection of papers focusses on the literary the text linguistic the intertextual and the receptional aspects of the Quranic text Using modern methodology can open the way towards a more adequate hermeneutical approach to the Quran
