Bronner, 2012-09-10 From their beginnings campuses emerged as hotbeds of traditions and folklore

American college students inhabit a culture with its own slang stories humor beliefs rituals and pranks Simon J Bronner takes a long engaging look at American campus life and how it is shaped by students and at the same time shapes the values of all who pass through it The archetypes of absent minded profs fumbling jocks and curve setting dweebs are the stuff of legend and humor along with the all nighters tailgating parties and initiations that mark campus tradition and student identities Undergraduates in their hallowed halls embrace distinctive traditions because the experience of higher education precariously spans childhood and adulthood parental and societal authority home and corporation play and work Bronner traces historical changes in these traditions The predominant context has shifted from what he calls the old time college small in size and strong in its sense of community to mass society s mega university a behemoth that extends beyond any campus to multiple branches and offshoots throughout a state region and sometimes the globe One might assume that the mega university has dissolved collegiate traditions and displaced the old time college but Bronner finds the opposite Student needs for social belonging in large universities and a fear of losing personal control have given rise to distinctive forms of lore and a striving for retaining the pastoral campus feel of the old time college The folkloric material students spout and sprout in response to these needs is varied but it is tied together by its invocation of tradition and social purpose Beneath the veil of play students work through tough issues of their age and environment They use their lore to suggest ramifications if not resolution of these issues for themselves and for their institutions In the process campus traditions are keys to the development of American culture

Shamanism Mircea Eliade,2004-02-08 Surveys the practice of Shamanism over two and a half millennia of human history moving from the Shamanic traditions of Siberia and Central Asia where Shamanism was first observed to North and South America Indonesia Tibet China and beyond Eliade illuminates the magico religious life of societies that give primacy of place to the figure of the Shaman at once magician and medicine man healer and miracle doer priest mystic and poet

Interpreting Child Sacrifice Narratives Benjamin Beit-Hallahmi,2023-03-23 Examining the theme of child sacrifice as a psychological challenge this book applies a unique approach to religious ideas by looking at beliefs and practices that are considered deviant but also make up part of mainstream religious discourse in Judaism Islam and Christianity Ancient religious mythology which survives through living traditions and transmitted narratives rituals and writings is filled with violent stories often involving the targeting of children as ritual victims Christianity offers Abraham s sacrifice and assures us that the only begotten son has died and then been resurrected This version of the sacrifice myth has dominated the West It is celebrated in an act of fantasy cannibalism in which the believers share the divine son s flesh and blood This book makes the connection between Satanism stories in the 1980s the Blood Libel in Europe The Eucharist and Eastern Mediterranean narratives of child sacrifice

People and

Change in Indigenous Australia Diane Austin-Broos, Francesca Merlan, 2017-11-30 People and Change in Indigenous Australia arose from a conviction that more needs to be done in anthropology to give a fuller sense of the changing lives and circumstances of Australian indigenous communities and people Much anthropological and public discussion remains embedded in traditionalizing views of indigenous people and in accounts that seem to underline essential and apparently timeless difference In this volume the editors and contributors assume that the person is socially defined and reconfigured as contexts change both immediate and historical Essays in this collection are grounded in Australian locales commonly termed remote These indigenous communities were largely established as residential concentrations by Australian governments some first as missions most in areas that many of the indigenous people involved consider their homelands A number of these settlements were located in proximity to settler industries pastoralism market gardening and mining locales that many non indigenous Australians think of as the homes of the most traditional indigenous communities and people The contributors discuss the changing circumstances of indigenous people who originate from such places revealing a diversity of experiences and histories that involve major dynamics of disembedding from country and home locales re embedding in new contexts and reconfigurations of relatedness The essays explore dimensions of change and continuity in childhood experience and socialization in a desert community the influence of Christianity in fostering both individuation and relatedness in northeast Arnhem Land the diaspora of Central Australian Warlpiri people to cities and the forms of life and livelihood they make there adolescent experiences of schooling away from home communities youth in kin based heavy metal gangs configuring new identities and indigenous people of southeast Australia reflecting on whether an Aboriginal way can be sustained By taking a step toward understanding the relation between changing circumstances and changing lives of indigenous Australians the volume provides a sense of the quality and feel of those lives      New Approaches to the Study of Religion Peter Antes, Armin W. Geertz, Randi Ruth Warne, 2004      **Betwixt & Between** Louise Carus Mahdi, Steven Foster, Meredith Little, 1987 Betwixt and Between offers new insights into the basic elements of initiations and rites of passage The absence of these traditional supports creates problems in the lives of those who are caught in the void and lack definite expectations at various times of their lives The chapters on masculine and feminine initiation provide new and creative concepts and practical possibilities for each of us Initiation has been a missing component in the modern world and needs to be re introduced with new understanding and consciousness
