Streeter,2016-03-22 The popular belief that a scientific understanding of reality is incompatible with a Christian one is simply
wrong Some Christian understandings of reality do conflict with some scientific understandings But a thoroughly rational
Christian understanding of the origin and history of the universe will be informed by the best scientific theories and the facts
founded on them This book weaves a narrative of the origin and history of the universe from the perspective of contemporary
science with a Christian understanding of God and of God s role in the origin and history of the universe At the center of this
integrated narrative is the view that God who is pure unbounded Love is Creator the zest for life in the universe comes from
God and God is the source of Truth Beauty and Goodness in the universe God is amazed and delighted at what God and the
world has created God is saddened by ways creatures have fallen short of pure unbounded Love Truth Beauty and Goodness
and God s pure unbounded Love keeps on trying to persuade all creatures toward Truth Beauty and Goodness The

two main interacting ways They constitute that with which exploration into problems or questions is carried out But they also
constitute that which is exchanged between scholars or in other terms that which is shaped by one or by some for use by
others In these various dimensions texts obviously depend on the means and technologies available for producing
reproducing using and organizing writings In this regard the contribution of a history of text is essential in helping us
approach the various historical contexts from which our sources originate However there is more to it While shaping texts as
texts the practitioners of the sciences may create new textual resources that intimately relate to the research carried on One
may think for instance of the process of introduction of formulas in mathematical texts This aspect opens up a
