**SIOP, the Secret U.S. Plan for Nuclear War** Peter Pringle, William M. Arkin, 1983-01-01 Examines the American policies concerning nuclear warfare and describes the development of plans and strategies for fighting a nuclear war

**S.I.O.P** Peter Pringle, William Arkin, 1983-10 This is the first comprehensive look at the plan Single Integrated Operating Plan or S I O P the United States has had since 1960 to wage nuclear war on Russia **Bulletin of the Atomic Scientists**, 1984-11 *Bulletin of the Atomic Scientists*, 1984-11 *Air University Library Index to Military Periodicals*,

*Clausewitz in the Twenty-First Century* Hew Strachan, Andreas Herberg-Rothe, 2007-09-13 Clausewitz's *On War* has at least until very recently been regarded as the most important work of theory on its subject But since the end of the Cold War in 1990 and even more since the 9 11 attacks on the United States in 2001 an increasing number of commentators have argued that *On War* has lost its analytical edge as a tool for understanding war They have argued that Clausewitz was concerned solely with inter state war and with properly defined armies and that the sorts of conflicts which he discussed are therefore part of a historical pattern which dominated Europe between 1648 the end of the Thirty Years War and 1990 itself Some have gone further and suggested that Clausewitz's best known aphorism that war is a continuation of policy by other means is not only irrelevant today but also inapplicable historically Clausewitz in the Twenty First Century reconsiders the principal themes in Clausewitz's writings from a contemporary perspective and finds in them much more inspiration and insight than these generalisations allow Embracing the perspectives of history philosophy and political science the book reconsiders both the text and its current implications Traditional interpretations of *On War* are put into fresh light neglected passages are re examined and new insights are derived from the conjunction between Clausewitz's text and today's challenges This book is a project of the Oxford Leverhulme Programme on the Changing Character of War **On the Eve of**

**the 21st Century** William Gay, T. A. Alekseeva, 1994 Presents a collection of essays by both Russian and American philosophers responding to the dissolution of the Soviet Union Included are a liberal feminist critique of political realism a view of Hobbes political philosophy and a view of the Marxian legacy and world security **Fraud, Famine and Fascism** Douglas Tottle, 1987 Argues that charges of a deliberate Soviet policy of genocide by famine directed against the Ukrainian nation in the early 1930s are based on inflated figures and fabricated evidence This campaign was initiated by extreme right wing forces in the USA and Nazi propagandists and has continued since the 1950s by Ukrainian emigre organizations Some writers have accused the Jews and Stalin's Jewish government of deliberately causing the famine Ch 9 pp 102 119 *Collaboration and Collusion* discusses Ukrainian nationalist involvement in pogroms and assistance to the Germans during the Holocaust particularly the faction led by Stepan Bandera and the Ukrainian Insurgent Army also describes how ex members of these groups and of Ukrainian Waffen SS units were enabled to enter the USA and Canada after the war **The Generals Have No Clothes** William M. Arkin, 2022-04-26 The definitive book about America's perpetual wars and how to

end them from bestselling author military expert and award winning journalist William M Arkin The first rule of perpetual war is to never stop a fact which former NBC News analyst William M Arkin knows better than anyone having served in the Army and having covered all of America s wars over the past three decades He has spent his career investigating how the military throws around the word war to justify everything from physical combat to today s globe straddling cyber and intelligence network In *The Generals Have No Clothes* Arkin traces how we got where we are bombing ten countries killing terrorists in dozens more all without Congressional approval or public knowledge Starting after the 9 11 attacks the government put forth a singular idea that perpetual war was the only way to keep the American people safe Arkin explains why President Obama failed to achieve his national security goal of ending war in Iraq and reducing our military engagements and shows how President Trump has been frustrated in his attempts to end conflict in Afghanistan and Syria He also reveals how COVID 19 is a watershed moment for the military where the country s civilian and public health needs clash with the demands of future wars against China and Russia North Korea and Iran Proposing bold solutions Arkin calls for a new era of civilian control over the military He also calls for a Global Security Index GSX the security equivalent to the Dow Jones Industrial Average which would measure the national and international events in real time to determine whether perpetual war is actually making the nation safer Arguing that the American people should be empowered by facts rather than spurred by fear *The Generals Have No Clothes* builds a damning case against the status quo Publishers Weekly and outlines how we can take control of the military before it s too late *Bracing for Armageddon* Dee Garrison,2006-03-30

This text presents a survey of the US government s civil defense plans from World War II It argues that the purpose of federal civil defense was to legitimize deterrence policy and the arms race through false assurances to the masses that they could survive nuclear war **Asia, Militarization & Regional Conflict** Yoshikazu Sakamoto,1988 *Soul of the Sword* Robert L. O'Connell,2002 In an elegantly illustrated volume a noted historian reveals culture society and history through the saga of war and its implements from the claws and horns of our evolutionary antecedents to today s nuclear MIRV missiles 150 illustrations throughout *The Long Gray Line* Rick Atkinson,2010-04-01 The New York Times bestseller about West Point s Class of 1966 by Pulitzer Prize winning journalist and author Rick Atkinson A story of epic proportions and an awesome feat of biographical reconstruction The Boston Globe A classic of its kind *The Long Gray Line* is the twenty five year saga of the West Point class of 1966 With a novelist s eye for detail Rick Atkinson author of the Liberation Trilogy illuminates this powerful story through the lives of three classmates and the women they loved from the boisterous cadet years to the fires of Vietnam to the hard peace and internal struggles that followed the war The rich cast of characters also includes Douglas MacArthur William C Westmoreland and a score of other memorable figures The class of 1966 straddled a fault line in American history and Atkinson s masterly book speaks for a generation of American men and women about innocence patriotism and the price we pay for our dreams **The Agency: The Rise and Decline of the CIA (Book Two)** John

Ranelagh, 2024-08-08 In 2000 the Washington Post listed *The Agency* as one of the ten best books on Intelligence in the twentieth century calling it An encyclopedic and fair minded overview of the agency into the 1980s A history of the CIA from its intrepid early days to becoming a mature bureaucracy riddled with scandal and scrutiny During World War II Wild Bill Donovan started the Office of Special Services OSS and gave the CIA its original image dashing Ivy League and Eastern Establishment Successive CIA Directors covered in the book were Allen Dulles Richard Helms William Colby and William Casey The Agency is the first comprehensive history of the CIA a book designed in its author s words to get away from contemporary demonology and to place the CIA firmly within the context of its time a dazzling panoramic overview of the CIA s history Ranelagh mixes keen insights into the organization and the people who ran it with superb accounts of specific crises and operations This brilliant book is so rich both in detail and generalization that even a reader unfamiliar with the history of the CIA will find it hard to put down the book pursues many themes such as organizational changes within the agency and shifts in its sense of mission its relationship with presidents and their advisers and other intelligence agencies the history of specific projects and operations and the general mood within both the CIA and the government and nation at large The result is a complex tapestry full of new information and fresh generalizations Reviews in American History A massive history of the CIA Ranelagh has a good feel for the murky world of intelligence and has constructed quite a readable work he conducted scores of interviews with insiders and studied more than 7 000 pages of classified and formerly classified documents Great reading and a valuable reference for students of government bureaucracy and intelligence work Kirkus Ranelagh provides here a major overview of the Central Intelligence Agency from its founding in 1947 to 1987 Based largely on hundreds of interviews the book examines the personality and policies of each director in the context of the times Publishers Weekly A comprehensive examination of the CIA Unlike most books on the nearly 40 year old spy organization The Agency is not a diary of old war stories or a flashy expose it is a thoughtful analysis of the CIA from gestation to middle age An important difference between The Agency and many other scholarly treatments of intelligence gathering is the extensive use of quotes from both on the record and unattributed sources as well as documents obtained under the Freedom of Information Act The New York Times A thoughtful analysis of the CIA from its beginnings arguing that dependence on technology has crippled American intelligence The New York Times Mr Ranelagh a British television producer has written the best comprehensive history of the CIA He is in control of the massive secondary literature has used the Freedom of Information Act effectively interviewed widely and mined congressional sources The tone is critical but detached devoid of both the muckraking passion of the left and the self congratulatory approach of the old boy network A fine book Foreign Affairs The Agency is without a doubt the finest best documented and most entertainingly written study of the Central Intelligence Agency CIA of which I know It traces the agency from its first gleam in the eye of Wild Bill Donovan through the first term of William Casey on behalf of President Reagan a genuine literary and stylistic accomplishment Annals of the American Academy of Political and

Social Science      **An Untaken Road** Steven A Pomeroy, 2016-01-15 Steven A Pomeroy has authored the first history of the American mobile intercontinental ballistic missile ICBM a technology the United States spent four decades and billions of dollars creating but never deployed An Untaken Road showcases how the evolution of a technology that ultimately never existed and the politics that surrounded it end up significantly shaping American nuclear strategy and forces for decades Utilizing recently declassified documents years of experience and an unrivaled passion for the history of military technologies Pomeroy has created a new framework on the nature of strategic weapons technology innovation This thorough study of a road not taken is a must read for those seeking to understand the challenges and constraints on U S military weapon programs especially when inter organization competition domestic politics strategic needs and new technologies collide

**Army** ,1985      Why Not Preempt? Rachel Bzostek, 2016-02-11 Anticipatory military activities which include both preemptive and preventive military actions are at the centre of American strategic doctrine however states rarely use these activities Rachel Bzostek puts forward an integrated analysis to help understand why states have or have not undertaken such activities in the past By exploring what kinds of strategic or structural elements compel states or leaders to take anticipatory military action as well as how these concepts are viewed in both international law and the just war tradition this book uses case studies to examine those elements that have played an influential role in the decision making process Ideal as a course reader for upper division undergraduate and graduates in security studies international law US foreign policy and those involved in the teaching and training of the military      Harold Brown Edward Coltrin Keefer, 2017 Author Edward Keefer chronicles and analyses the tenure of Secretary of Defense Harold Brown who worked to counter the Soviet Union s growing military strength during the administration of President Jimmy Carter Flush with cash from oil and gas development the Soviets came closest to matching the United States in strategic power than at any other point in the Cold War threatening to make the U S land based missile force vulnerable to a first strike By most reckonings the Kremlin also surpassed the West in conventional arms and forces in Central Europe creating a direct threat to NATO In response Brown a nuclear physicist advocated for the development of more technologically advanced weapon systems to offset the Soviet military advantage but faced Carter s efforts to reign in the defense budget Eventually the secretary backed by the JCS the national security adviser and key members of Congress persuaded a reluctant Carter to increase defense spending for the last two years of his term As a result weapons development such as stealth technology precision guided bombs and cruise missiles went forward These initiatives and more provided a head start for the acclaimed Ronald Reagan revolution in defense As the author points out there was more continuity than contrast in defense policy between Carter and Reagan The book also highlights Brown s policymaking efforts and his influence on Carter as the administration responded to international events such as the Middle East peace process the Iran revolution and hostage crisis the rise of radical Islam negotiations with the Soviets over arms limitations the Soviet invasion of Afghanistan and the creation of a new security

Designing Denuclearization Bruce D. Larkin, 2011-12-31 This work canvasses nuclear weapon abolition proposals placed on the table since 1945 and the obstacles and issues which a realistic program for abolition confronts today It has an ambitious purpose to show that nuclear abolition can and should be placed on the public agenda The author terms it interpretive in that it incorporates his commentaries never hiding his reasons and judgments It is neither just the facts nor all the facts It is an encyclopedia in the original meaning of a general course of instruction He identifies himself with all who pursue the problem posed by nuclear weapons systematically and with seriousness of purpose committed to self instruction In another sense he writes this work is a conversation with the Reader What is needed to abolish nuclear weapons His starting point is this As long as nuclear weapons are stockpiled and deployed there is risk of their use which would be catastrophic Abolition however is inconceivable in the absence of a

developed and articulated alternative to the nuclear status quo Even with that the politics of abolition bringing the governments of the nuclear weapon states to believe that abolition is in their interest is the sine qua non of achieving a world free of nuclear weapons Larkin s text is written for those whether practitioners or citizens interested in designing and bringing about denuclearization Abolition cannot be achieved by political elites in the absence of broad concurrent public support Governments career policy officials and legislators have chosen to assume responsibility for the public agenda They may be asked must be asked what they will do to bring about denuclearization
