Radical Frontiers in the Spaghetti Western Austin Fisher, 2014-02-06 Ever more popular in the age of DVDs eBay and online fandom the Spaghetti Westerns of the 1960s have undergone a mainstream renaissance which has nevertheless left their intimate relationship to the troubled politics of 1960s Italy unexamined Radical Frontiers reappraises the genre in relation to the revolutionary New Left and the events of 1968 to uncover the complexities of a cinematic milieu too often dismissed as formulaic and homogeneous Establishing the backdrop of post war Italy in which the Roman studio system actively blended Italian and American culture Austin Fisher looks in detail at the works of Damiano Damiani Sergio Sollima Sergio Corbucci Giulio Questi and Giulio Petroni and how these directors reformatted the Hollywood Western to yield new resonance for militant constituencies and radical groups Radical Frontiers identifies the main variants of these militant Westerns which brazenly endorsed violent peasant insurrection in the Mexico of the popular imagination turning the camera on the hitherto heroic colonialists of the West and exposing the brutal mechanisms of a society infested with latent fascism The ways in which the films artistic failures reflect the ideological confusions of the radical groups is examined and the genre s legacy is reappraised as the revolutionary energy of Italy s New Left becomes subsumed amidst the conflicting agendas of New Hollywood blaxploitation and the grindhouse revival of Tarantino Rodriguez and Raimi Reclaiming the Spaghetti Western from the domain of the merely cool and repositioning it within the spectrum of late 1960s radical cinema Radical Frontiers analyses the genre s narrative and cinematographic inscriptions in their political context to uncover Far Left doctrines in these tales of outlaws and sheriffs banditry and redemptive violence *A History of Western American Literature* Susan Kollin, 2015-12-11 The American West is a complex region that has inspired generations of writers and artists Often portrayed as a quintessential landscape that symbolizes promise and progress for a developing nation the American West is also a diverse space that has experienced conflicting and competing hopes and expectations While it is frequently imagined as a place enabling dreams of new beginnings for settler communities it is likewise home to long standing indigenous populations as well as many other ethnic and racial groups who have often produced different visions of the land This History encompasses the intricacy of Western American literature by exploring myriad genres and cultural movements from ecocriticism settler colonial studies and transnational theory to race ethnic gender and sexuality studies Written by a host of leading historians and literary critics this book offers readers insight into the West as a site that sustains canonical and emerging authors alike and as a region that exceeds national boundaries in addressing long standing global concerns and developments Gendered (Re)Visions Marion Gymnich, Kathrin Ruhl, Klaus Scheunemann, 2010-11-17 In academic as well as in public debates audiovisual media have often been accused of perpetuating gender stereotypes and of confronting viewers time and again with traditional role models and binary concepts of masculinity and femininity In recent

years films television series and music videos increasingly have shown women and men who transgress the traditional gender dichotomy One of the central ideas behind this volume is the attempt to bring together explorations of gendering in different audiovisual media The contributions seek to explore in particular shifting constructions of femininity and masculinity and aim to provide further insight into the media and genre specific ways of constructing perpetuating and challenging gender concepts in audiovisual media taking into consideration the interplay of the different levels on which gendering occurs in them Thus two articles in the present volume address the processes of constructing perpetuating and challenging notions of femininity and masculinity in music videos while other contributions are dedicated to the analysis of gendering in films and or TV series

He Was Some Kind of a Man Roderick McGillis, 2011-04-08 *He Was Some Kind of a Man* Masculinities in the B Western explores the construction and representation of masculinity in low budget western movies made from the 1930s to the early 1950s These films contained some of the mid twentieth century s most familiar names especially for youngsters cowboys such as Roy Rogers Hopalong Cassidy and Red Ryder The first serious study of a body of films that was central to the youth of two generations *He Was Some Kind of a Man* combines the author s childhood fascination with this genre with an interdisciplinary scholarly exploration of the films influence on modern views of masculinity McGillis argues that the masculinity offered by these films is less one dimensional than it is plural perhaps contrary to expectations Their deeply conservative values are edged with transgressive desire and they construct a male figure who does not fit into binary categories such as insider outsider or masculine feminine Particularly relevant is the author s discussion of George W Bush as a cowboy and how his aspirations to cowboy ideals continue to shape American policy This engagingly written book will appeal to the general reader interested in film westerns and contemporary culture as well as to scholars in film studies gender studies children s literature and auto biography

Race, War, and the Cinematic Myth of America Eric Trenkamp, 2022-03-09 In this book Eric Trenkamp addresses a question that many American cinema fans may have asked themselves over the past 20 years why is everything superheroes now Although it might be easy to dismiss Hollywood s last two decades of comic book movies as nothing more than overly simplified morality tales the reality is much more complex The pervasiveness of the comic book genre throughout American culture Trenkamp argues perpetuates a subtextual myth about what it means to be an American in the contemporary world At the core of this myth is the image of who Hollywood considers to be the ideal American hero the White male savior This book explores the evolution of this ever changing image of White superiority in American cinema which can be traced from the earliest silent Westerns through decades of war films and up to the modern day comic book genre Through provocative and engaging analysis of a wide variety of Hollywood films Trenkamp demonstrates the industry s history of popularizing White supremacy and the ways in which these films can act as propaganda to support various dehumanizing U S policies both abroad and at home Scholars of film studies comic studies genre studies American studies race studies pop culture and history will find this book particularly useful

portrayals have made an impact on our collective cultural life The Philosophy of the Western Jennifer L. McMahon, B. Steve Csaki, 2010-05-28 Essays about how stories of the Old West reflect and affect our beliefs and values The solitude of the lone rider the loyalty of his horse and the unspoken code of the West for many Western movies embody America and its values though the view of the country's history they present isn't always accurate In recent years scholars had declared the genre dead but a steady resurgence of western themes in literature film and television has reestablished its importance and influence In *The Philosophy of the Western* editors Jennifer L McMahon and B Steve Csaki examine philosophical themes in the western genre Investigating subjects of nature ethics identity gender environmentalism and animal rights the essays in this volume draw from a wide range of westerns including the more recent popular and critical successes *Unforgiven* *All the Pretty Horses* *3 10 to Yuma* and *No Country for Old Men* as well as literature and television serials such as *Deadwood* *The Philosophy of the Western* reveals the powerful role of the western in the American psyche *Analysing Politics and Protest in Digital Popular Culture* Lyndon Way, 2020-12-16 Supporting you with varied features throughout this intriguing new book provides a foundational understanding of politics and protest before focusing on step by step instructions for carrying out analysis on your own It includes up to date cases such as analysis of memes about Brexit Trump and coronavirus that cater for this quickly moving field Cormac McCarthy's Western Novels Barclay Owens, 2000-07 In the continuing redefinition of the American West few recent writers have left a mark as indelible as Cormac McCarthy A favorite subject of critics and fans alike despite or perhaps because of his avoidance of public appearances the man is known solely through his writing Thanks to his early work he is most often associated with a bleak vision of humanity grounded in a belief in man's primordial aggressiveness McCarthy scholar Barclay Owens has written the first book to concentrate exclusively on McCarthy's acclaimed western novels *Blood Meridian* National Book Award winner *All the Pretty Horses* *The Crossing* and *Cities of the Plain* In a thought provoking analysis he explores the differences between *Blood Meridian* and the *Border Trilogy* novels and shows how those differences reflect changing conditions in contemporary American culture Owens captures both *Blood Meridian*'s wanton violence and the *Border Trilogy*'s fond remembrance of the Old West He shows how this dramatic shift from atavistic brutality to nostalgic Americana suggests that McCarthy has finally given his readers what they most want the stuff of their mythic dreams Owens's study is both an incisive look at one of our most important and demanding authors and a penetrating analysis of violence and myth in American culture Fans of McCarthy's work will find much to consider for ongoing discussions of this influential body of work **The Figure of the Migrant in Contemporary European Cinema** Temenuga Trifonova, 2020-07-09 *The Figure of the Migrant in Contemporary European Cinema* explores contemporary debates around the concepts of Europe and European identity through an examination of recent European films dealing with various aspects of globalization the refugee crisis labour migration the resurgence of nationalism and ethnic violence neoliberalism post colonialism with a particular attention to the figure of the migrant and the ways in which this figure

challenges us to rethink Europe and its core Enlightenment values citizenship justice ethics liberty tolerance and hospitality in a post national context of ephemerality volatility and contingency that finds people desperately looking for firmer markers of identity The book argues that a compelling case can be made for re orienting the study of contemporary European cinema around the figure of the migrant viewed both as a symbolic figure representing post national citizenship urbanization the gap between ethics and justice and as a figure occupying an increasingly central place in European cinema in general rather than only in what is usually called migrant and diasporic cinema By drawing attention to the structural and affective affinities between the experience of migrants and non migrants Europeans and non Europeans Trifonova shows that it is becoming increasingly difficult to separate stories about migration from stories about life under neoliberalism in general **Film**
