The Culture of Sports in the Harlem Renaissance Daniel Anderson, 2017-04-11 During the African American cultural resurgence of the 1920s and 1930s professional athletes shared the spotlight with artists and intellectuals Negro League baseball teams played in New York City's major league stadiums and basketball clubs shared the bill with jazz bands at late night casinos Yet sports rarely appear in the literature on the Harlem Renaissance Although the black intelligentsia largely dismissed the popularity of sports the press celebrated athletics as a means to participate in the debates of the day A few prominent writers such as Claude McKay and James Weldon Johnson used sports in distinctive ways to communicate their vision of the Renaissance Meanwhile the writers of the Harlem press promoted sports with community consciousness insightful analysis and a playful love of language and argued for their importance in the fight for racial equality

Sport Management Cultures Vassil Girginov, 2014-06-11 This is the first book to address the link between culture and sport management The aim is to demonstrate that culture profoundly affects how we research teach and practice sport management The book engages with the concept of culture both as an abstract analytical category and specific beliefs and practices It recognizes that a single best way of managing does not exist that the applicability of management theories may stop at national boundaries and that fundamental cultural values act as a strong determinant to managerial ideology and practice Culture makes the study of sport management interesting because it challenges many taken for granted assumptions about management yet it reinforces our belief in the existence of common management problems The book offers a comprehensive review of the conceptualisations of culture and its relation with sport management by examining a range of issues the emergence of multiculturalism as a policy issue the impact of commonly shared cultural values within the fitness industry on managers and organisations behaviour building cultural bridges in community sport organisations cultural meanings attached to the consumption of Olympic merchandise and culturally informed interpretation through a reflective analysis of sport management texts This book was published as a special issue of European Sport Management Quarterly
