Sir Gardner Wilkinson And His Circle:

Sir Gardner Wilkinson and His Circle Jason Thompson, 1992-01-01 Following in the footsteps of Napoleon's army Europeans invaded Egypt in the early nineteenth century to gaze in wonder at the massive inscrutable remains of its ancient civilizations One of these travelers was a twenty four year old Englishman John Gardner Wilkinson His copious observations of ancient and modern Egyptian places artifacts and lifeways recorded in such widely read publications as *Manners and Customs of the Ancient Egyptians* and *Handbook for Travellers in Egypt* made him the leading early Victorian authority on ancient Egypt and paved the way for the scientific study of Egyptology In this first full scale biography of Wilkinson 1797-1875 Jason Thompson skillfully portrays both the man and his era He follows Wilkinson during his initial sojourn in Egypt 1821-1833 as Wilkinson immersed himself in a contemporary Egyptian lifestyle and in study of its ancient past He shows Wilkinson in his circle of friends among them Edward William Lane Robert Hay and Frederick Catherwood And he traces how Wilkinson continued to use his Egyptian material in the decades following his return to England With the rise of professional Egyptology in the middle and later nineteenth century Sir Gardner Wilkinson came to be viewed as an amateur and his popularity diminished Drawing upon recently opened sources Thompson returns Wilkinson to his rightful place within centuries of Egyptian scholarship and assesses both the vision and the limitations of his work The result is a compelling portrait of a Victorian gentleman scholar and his cultural milieu

Life-writing in the History of Archaeology Gabriel Moshenska, Clare Lewis, 2023-07-10 Life writing is a vital part of the history of archaeology and a growing field of scholarship within the discipline

The lives of archaeologists are entangled with histories of museums and collections developments in science and scholarship and narratives of nationalism and colonialism into the present

In recent years life writing has played an important role in the surge of new research in the history of archaeology including ground breaking studies of discipline formation institutionalisation and social and intellectual networks

Sources such as diaries wills film and the growing body of digital records are powerful tools for highlighting the contributions of hitherto marginalised archaeological lives including many pioneering women hired labourers and other hidden hands

This book brings together critical perspectives on life writing in the history of archaeology from leading figures in the field

These include studies of archive formation and use the concept of dig writing as a distinctive genre of archaeological creativity and reviews of new sources for already well known lives

Several chapters reflect on the experience of life writing review the historiography of the field and assess the intellectual value and significance of life writing as a genre

Together they work to problematise underlying assumptions about this genre foregrounding methodology social theory ethics and other practice focused frameworks in conscious tension with previous practices

The Rape of the Nile Brian Fagan, 2009-04-20 The scandalous rape of Ancient Egypt is a historical vignette of greed vanity and dedicated archaeological research

It is a tale vividly told by renowned archaeology author Brian Fagan with characters that include the ancient historian Herodotus Theban tomb robbers obelisk stealing Romans Coptic Christians determined to erase the heretical past mummy traders leisured antiquarians major European museums Giovanni Belzoni a circus strongman who removed more antiquities than Napoleon's armies shrewd consuls and ruthless pashas and archaeologists such as Sir Flinders Petrie who changed the course of Egyptology

This is the first thoroughly revised edition of *The Rape of the Nile* Fagan's

classic account of the cavalcade of archaeologists thieves and sightseers who have flocked to the Nile Valley since ancient times Featured in this edition are new accounts of stunning recent discoveries including the Royal Tombs of Tanis the Valley of Golden Mummies at Bahariya the Tomb of the Sons of Ramses and the sunken city of Alexandria whose lighthouse was one of the Seven Wonders of the Ancient World Fagan concludes with a clear eyed assessment of the impact of modern mass tourism on archaeological sites and artifacts Cracking Codes R. Volume 3 John Romer, 2023-05-25 The final chapter in the definitive three volume history of the world's first known state Archaeologist John Romer has spent a lifetime chronicling the history of Ancient Egypt and here he tells the epic story of an era dominated by titans of the popular imagination the radical iconoclast Akhenaten the boy king Tutankhamun and the all conquering Ramesses II But heroes do not forge history by themselves This was also a time of international trade cultural exchange and sophisticated art even in the face of violent change Alongside his visionary new history of this the most famous period in the long history of Ancient Egypt Romer turns a critical eye on Egyptology itself Paying close attention to the evidence he corrects prevailing narratives which cast the New Kingdom as an imperial state power in the European mould Instead he reveals through broken artefacts in ruined workshops or preserved letters between a tomb builder and his son a culture more beautiful and beguiling than we could have imagined Romer carefully reconstructs the real story of the New Kingdom as evidenced in the archaeological record and the result the final volume of a life long project secures his status as Ancient Egypt's finest chronicler **The World of Disney: From Antiquarianism to Archaeology** David W. Bierman, Nasser

Rabbat, 2005-03-25 During the nineteenth century Cairo witnessed once of its most dramatic periods of transformation Well on its way to becoming a modern and cosmopolitan city by the end of the century a medieval Cairo had somehow come into being While many Europeans in the nineteenth century viewed Cairo as a fundamentally dual city physically and psychically split between East West and modern medieval the contributors to the provocative collection demonstrate that in fact this process of inscription was the result of restoration practices museology and tourism initiated by colonial occupiers The first edited volume to address nineteenth century Cairo both in terms of its history and the perception of its achievements this book will be an essential text for courses in architectural and art history dealing with the Islamic world **Finding the**

Walls of Troy Susan Heuck Allen, 2023-09-01 The relentlessly self promoting amateur archaeologist Heinrich Schliemann took full credit for discovering Homer's Troy over one hundred years ago and since then generations have thrilled to the tale

of his ambitions and achievements But Schliemann gained this status as an archaeological hero partly by deliberately eclipsing the man who had launched his career Now at long last Susan Heuck Allen puts the record straight in this fascinating archaeological adventure that restores the British expatriate Frank Calvert to his rightful place in the story of the identification and excavation of Hisarlik the site now thought to be Troy as described in the Iliad Frank Calvert had lived in the Troad in the northwest corner of Asia Minor excavating there for fifteen years before Schliemann arrived and learning the local topography well He was the first archaeologist to test the hypothesis that Hisarlik was the Troy of Hector and Helen So that he would have unrestricted access to the site he purchased part of the mound and was the first archaeologist to conduct excavations there Running out of funds he later interested Schliemann in the site The thankless Schliemann stole Calvert's ideas exploited his knowledge and advice and finally stole Calvert's glory in part by slandering him and denigrating his work Allen corrects the record and does justice to a man who was a victim of his own integrity while giving a balanced treatment of Schliemann's true accomplishments This meticulously researched book tells the story of Frank Calvert's development as an archaeologist his adventures and discoveries It focuses on the twists and turns of his turbulent relationship with the perfidious Schliemann the resulting gains for archaeology and the successful conclusion of their common quest Allen has brought together a wide range of relevant published material as well as unpublished sources from archives diaries letters and personal interviews to tell this gripping story The relentlessly self-promoting amateur archaeologist Heinrich Schliemann took full credit for discovering Homer's Troy over one hundred years ago and since then generations have thrilled to the tale of his ambitions and achievements But Schliemann gain

Private Collecting, Exhibitions, and the Shaping of Art History in London Stacey J. Pierson, 2017-01-12. The Burlington Fine Arts Club was founded in London in 1866 as a gentlemen's club with a singular remit to exhibit members' art collections. Exhibitions were proposed, organized, and furnished by a group of prominent members of British society who included aristocrats, artists, bankers, politicians, and museum curators. Exhibitions at their grand house in Mayfair brought many private collections and collectors to light, using members' social connections to draw upon the finest and most diverse objects available. Through their unique mode of presentation, which brought museum-style display and interpretation to a grand domestic style gallery space, they also brought two forms of curatorial and art historical practice together in one unusual setting, enabling an unrestricted form of connoisseurship where new categories of art were defined and old ones expanded. The history of this remarkable group of people has yet to be presented and is explored here for the first time. Through a framework of exhibition themes ranging from Florentine painting to Ancient Egyptian art, a study of lenders, objects, and their interpretation paints a picture of private collecting activities, connoisseurship, and art world practice that is surprisingly diverse and interconnected.

Conflicted antiquities Elliott Colla, 2007. A cultural history of European and Egyptian interest in ancient Egypt and its material culture from the early nineteenth century until the mid-twentieth.

The Oxford Handbook of Egyptology Ian Shaw, Elizabeth Bloxam, 2020-11-10. The Oxford Handbook of Egyptology offers a comprehensive survey of the entire study of ancient Egypt from prehistory through to the end of the Roman period. It seeks to place Egyptology within its theoretical, methodological, and historical contexts, indicating how the subject has evolved and discussing its distinctive contemporary problems, issues, and potential. Transcending conventional boundaries between archaeological and ancient textual analysis, the volume brings together 63 chapters that range widely across archaeological, philological, and cultural sub-disciplines, highlighting the extent to which Egyptology as a subject has diversified and stressing the need for it to seek multidisciplinary methods and broader collaborations if it is to remain contemporary and relevant. Organized into ten parts, it offers a comprehensive synthesis of the various sub-topics and specializations that make up the field as a whole, from the historical and geographical perspectives that have influenced its development and current characteristics to aspects of museology and conservation and from materials and technology as evidenced in domestic architecture and religious and funerary items to textual and iconographic approaches to Egyptian culture. Authoritative yet accessible, it serves not only as an invaluable reference work for scholars and students working within the discipline but also as a gateway into Egyptology for classicists, archaeologists, anthropologists, sociologists, and linguists.
