Introspectives Henry John Drewal, 1989 **The Art of Brasília** Sophia Beal, 2020-01-29 People from outside of Brasília often dismiss Brazil's capital as socially divided boring corrupt and emotionally cold Apparently its founders created not a vibrant capital but a cultural wasteland However as Sophia Beal argues Brasília's contemporary artists are out to prove the skeptics wrong These twenty first century artists are changing how people think about the city and animating its public spaces They are recasting Brasília as a vibrant city of the arts in which cultural production affirms a creative right to the city Various genres prose poetry film cultural journalism music photography graffiti street theater and street dance play a part Brasília's initial 1960s art was state sanctioned carried out mainly by privileged white men In contrast the capital's contemporary art is marked by its diversity challenging norms about who has a voice within the Brasília art scene This art demystifies the capital's inequities and imagines alternative ways of inhabiting the city **The War of the Saints** Jorge Amado, 1995-02-01 Jorge Amado has been called one of the great writers of our time The joyfulness of his storytelling and his celebration of life's sensual pleasures have found him a loyal following With The War Of The Saints he has created an exuberant tale set among the flashing rhythms intoxicating smells and bewitching colors of the carnival The holy icon of Saint Barbara of the Thunder is bound for the city of Bahia for an exhibition of holy art As the boat the bears the image is

docking a miracle occurs and Saint Barbara comes to life disappearing into the milling crowd on the quay Somewhere in the city a young woman has fallen in love and her prudish guardian aunt has locked her away an act of intolerance that Saint Barbara must redress And when she casts her spell over the city no one's life will remain unchanged Salvador & Bahia Footprint Focus Guide Alex Robinson, 2014-03-10 Relax on one of Salvador's white sand beaches and you will see the art ballet of capoeira smell the rich spicy cooking of Bahia and get the unmistakable feeling that you are in African Brazil The homeland of Brazil's African heritage is like nowhere else in Brazil carnivals sway to the rhythms of the drum troupe orchestras while churches are decorated with statues of black saints Footprint Focus Bahia Salvador will take you from the cultural capital Salvador along Bahia's beautiful coast stopping off at an assortment of laid back little towns and hedonistic party cities on the way Includes practical advice on getting to and around the region plus fascinating insights into the area's culture and history Essentials section with practical advice on getting there and around Highlights maps of the region so you know what not to miss Comprehensive up to date listings of where to eat sleep and party Detailed street maps for Salvador and other key towns Slim enough to fit in your pocket Loaded with advice and information on how to get around this concise Footprint Focus guide will help you get the most out of Bahia and Salvador without weighing you down The content of Footprint Focus Bahia Salvador guide has been extracted from Footprint's Brazil Handbook *Envisioning Brazil* Marshall C. Heise, 2016-08-10 We are currently facing the sixth mass extinction of species in the history of life on Earth biologists claim the first one caused by humans Activists filmmakers writers and artists are seeking to bring the crisis to the public's attention through stories and images that use the strategies of elegy tragedy epic and even comedy Imagining Extinction is the first book to examine the cultural frameworks shaping these narratives and images Ursula K Heise argues that understanding these stories and symbols is indispensable for any effective advocacy on behalf of endangered species More than that she shows how biodiversity conservation even and especially in its scientific and legal dimensions is shaped by cultural assumptions about what is valuable in nature and what is not These assumptions are hardwired into even

seemingly neutral tools such as biodiversity databases and laws for the protection of endangered species Heise shows that the conflicts and convergences of biodiversity conservation with animal welfare advocacy environmental justice and discussions about the Anthropocene open up a new vision of multispecies justice Ultimately *Imagining Extinction* demonstrates that biodiversity endangered species and extinction are not only scientific questions but issues of histories cultures and values
