Script Culture and the American Screenplay Kevin Alexander Boon, 2008-01-10 By considering the screenplay as a literary object worthy of critical inquiry this volume breaks new ground in film studies Though the history of the screenplay is as long and rich as the history of film itself critics and scholars have neglected it as a topic of serious research Script Culture and the American Screenplay treats the screenplay as a literary work in its own right presenting analyses of screenplays from a variety of frameworks including feminism Marxism structuralism philosophy and psychology In distancing the text of screenplays from the on screen performance typically associated with them Kevin Alexander Boon expands the scope of film studies into exciting new territory with this volume Script Culture and the American Screenplay is divided into two parts Part 1 provides a general background for screenplay studies tracing the evolution of the screenplay from the early shot lists and continuities of George M li s and Thomas Harper Ince to the more detailed narratives of contemporary works Part 2 offers specific primarily thematic critical examinations of screenplays along with discussions of the original screenplay and the screenplay adaptation In all Boon explains that screenplay criticism distinguishes itself from traditional film studies in three major ways The primary focus of screenplay criticism is on the screenplay rather than the film the focus of screenplay studies is on the screenwriter rather than the director and screenplay criticism like literary criticism is written to illuminate a reader s understanding of the text Boon demonstrates that whether we are concerned with aesthetics and identifying rules for distinguishing the literary from the non literary or whether we align ourselves with more contemporary theories which recognize texts as distinguishable in their inter relationships and marked difference screenplays constitute a rich cache of works worthy of critical examination Film scholars as well as students of film creative writing and literary studies will

In *The Coen Brothers Encyclopedia*, all aspects of these gifted siblings as writers, directors, producers, and even editors in the guise of Roderick Jaynes are discussed. Entries in this volume focus on creative personnel behind the camera, including costume designers, art directors, and frequent contributors like cinematographer Roger Deakins and composer Carter Burwell. Recurring actors are also represented, such as Jeff Bridges, Steve Buscemi, George Clooney, John Goodman, Holly Hunter, Frances McDormand, and John Turturro. Each entry is followed by a bibliography of published sources, both in print and online. Drawing on decades of practical experience and savvy, *How to Build a Great Screenplay* deconstructs the craft of screenwriting and carefully reveals how to build a good story from the ground up. Howard eschews the system offered by other books, emphasizing that a great screenplay requires dozens of unique decisions by the author. He offers in-depth considerations of characterization, story arc, plotting, and subplotting, dealing with coincidence in story plotting, classical vs. revolutionary screenplay structure, tone, style, and atmosphere, the use of time on screen, the creation of drama and tension, crucial moments in storytelling. Throughout the book, Howard clarifies his lessons through examples from some of the most successful Hollywood and international script-oriented films, including *Pulp Fiction*.
