Sports Process A Comparative And Developmental Approach:

The Sports Process Eric Dunning, Joseph A. Maguire, Robert E. Pearton, 1996 The Sports Process uses a historical developmental approach to explore the development of sport its international diffusion and ongoing changes in sport around the world Thirteen international leaders in the sociology of sport study sport beginning with the ancient world and progressing through the end of the cold war They examine how sport development is affected by politics gender roles nationalism capitalism class race conflict and economics Part I Perspectives on the Making of Modern Sports emphasizes the need to study sports not only in one place and time but as they change and evolve through time The contributors contend that to understand any sport as it exists today you must examine the social processes that transformed it from early forms of play into an organized game Part I looks at these processes over a broad span of time from ancient civilizations through the Victorian period Part II examines the diffusion of modern sport from its beginnings in 18th century England throughout the rest of the world You will learn about some of the factors that influenced this diffusion both outward to other countries and downward within each country from higher to lower social levels Part III compares sports across modern cultures The contributors examine how major ideologies of the 20th century capitalism socialism and nationalism have affected the practice and development of sport in various countries The Sports Process is a valuable reference for scholars and students studying the sociology of sport The book also includes such special features as suggested research tasks a guide to further reading and essay suggestions which make it an excellent supplemental text for classes in sport sociology sport history and comparative physical culture Handbook of Sports Studies Jay Coakley, Eric Dunning, 2000 An authoritative cast of international and inter disciplinary contributors present the best of current thinking in sports studies as the subject matures and develops academically **Management of Sports Development** Vassil Girginov, 2009-06-04 Management of Sports Development is the first book to offer a holistic approach to a field which has been growing in importance for some years Although many books exist on various aspects of development never before has there been a text which addresses the process of development in such a comprehensive manner This book offers everything needed to develop an understanding of the process of sports development The book provides comprehensive coverage of the major themes in the process of sports development with contributions from an internationally renowned author team These themes include models of sports development funding of sports development mega sporting events networks and partnerships in sports development sports development and social change It is also supplemented with a dedicated accompanying website featuring updates and extra material This accessible book is essential reading for students or lecturers in the field of sports development and is set to be a vital contribution to the literature in this area Sport: Approaches to the study of sport Eric Dunning, Dominic Malcolm, 2003 A collection of texts providing a useful resource for students in the field of sports studies Subject headings include approaches to the study of sport the development and structure of modern sport sport and power relations and major
