Representing War and Violence Joanna Bellis, Laura Slater, 2016 An examination of written and other responses to conflict in a variety of forms and genres from the thirteenth to the seventeenth century War and violence took many forms in medieval and early modern Europe from political and territorial conflict to judicial and social spectacle from religious persecution and crusade to self mortification and martyrdom from comedic brutality to civil and domestic aggression Various cultural frameworks conditioned both the acceptance of these forms of violence and the protest that they met with the elusive concept of chivalry Christianity and just war theory political ambition and the machinery of propaganda literary genres and the expectations they generated and challenged The essays here from the disciplines of history art history and literature explore how violence and conflict were documented depicted narrated and debated during this period They consider manuals created for and addressed directly to kings and aristocratic patrons romances whose affective treatments of violence invited profoundly empathetic even troublingly pleasurable responses diaries and autobiographies compiled on the field and redacted for publication and self promotion The ethics and aesthetics of representation as much as the violence being represented emerge as a profound and constant theme for writers and artists grappling with this most fundamental and difficult topic of human experience JOANNA BELLIS is the Fitzjames Research Fellow in Old and Middle English at Merton College Oxford LAURA SLATER holds a Postdoctoral Fellowship from The Paul Mellon Centre for Studies in British Art in London Contributors Anne Baden Daintree Anne Curry David Grummitt Richard W Kaeuper Andrew Lynch Christina Normore Laura Slater Sara V Torres Matthew Woodcock

Thomas Churchyard Matthew Woodcock, 2016-11-24 Soldier courtier author entertainer and amateur spy Thomas Churchyard c 1529 1604 saw action in most of the principal Tudor theatres of war was a servant to five monarchs and had a literary career spanning over half a century during which time he produced over fifty different works in

a variety of forms and genres Churchyard's struggles to subsist as an author and soldier provides an unrivalled opportunity to examine the self-promotional strategies employed by an individual who attempts to make a living from both writing and fighting and who experiments throughout his life with ways in which the arts of the pen and sword may be reconciled and aligned Drawing on extensive archival and literary sources Matthew Woodcock reconstructs the extraordinary life of a figure well known yet long neglected in early modern literary studies In the first ever book-length biography of Churchyard Woodcock reveals the author to be a resourceful and innovative writer whose long literary career plays an important part in the history of professional authorship in sixteenth-century England This book also situates Churchyard alongside contemporary soldier-authors such as Henry Howard Earl of Surrey George Gascoigne and Sir Philip Sidney and it makes a significant contribution to our understanding of the relationship between literature and the military in the early modern period Churchyard's writings drew heavily upon his own experiences at court and in the wars and the author never tired of drawing attention to the struggles he endured throughout his life Consequently this study addresses the wider methodological question of how we should construct the biography of an individual who was consistently preoccupied with telling his own story

An Invincible Beast Christopher Matthew, 2015-11-30 An innovative study of the Macedonian war machine's sarissa wielding infantry under such leaders as Philip II and Alexander the Great The Hellenistic pike phalanx was a true military innovation transforming the face of warfare in the ancient world For nearly 200 years from the rise of the Macedonians as a military power in the mid fourth century BC to their defeat at the hands of the Romans at Pydna in 168BC the pike wielding heavy infantryman the phalangite formed the basis of nearly every Hellenistic army to deploy on battlefields stretching from Italy to India And yet despite this dominance and the vast literature dedicated to detailing the history of the Hellenistic world there remains fierce debate among modern scholars about how infantry combat in this age was actually conducted Christopher Matthews critically examines phalanx combat by using techniques such as physical re creation experimental archaeology and ballistics testing and then comparing the findings of this testing to the ancient literary artistic and archaeological evidence as well as modern theories The result is the most comprehensive and up to date study of what heavy infantry combat was like in the age of Alexander the Great and his successors
