own coins Archaeologists and historians have found these coins to be a major resource for the reconstruction of Phoenician
history They have increasingly been able to use them to discern important details of Phoenicia s political history that were
previously unknown or were presented only from the perspective provided by the reports of the Greek historians or were
based on knowledge of the Greek language rather than being based on knowledge of Semitic languages and the iconography
and inscriptions of the Phoenicians themselves For more than two decades Alain and Josette Elayi have researched the
history of the Phoenician cities in the Persian period before Alexander s conquest In the first stage of their research the
authors provided an overview of the Phoenician economy under Persian rule The second stage provided an analysis of all
hoards which included Phoenician coins dating to the Persian period The third stage was an investigation of Phoenician
weights in which the Elayis used an original method that is also suited to numismatic studies The fourth stage covered the
monetary and political histories of the four Phoenician cities In *A Monetary and Political History of the Phoenician City of*

Diplomat Extraordinary Lee H. Burke,2012-12-06 A mbassador at Large Diplomat Extraordinary is a welcome contri bution to

the literature on contemporary diplomacy and is especially relevant to the conduct of United States foreign relations. Concomitant with pressures to escalate the level of diplomatic representation and negotiation the Ambassador at Large a recent innovation in the American diplomatic hierarchy may play an increasingly important role. Should other governments follow the American lead by creating similar offices a new flexible layer of diplomatic relations may be added to the four which currently are most widely used namely the summit the ministerial the traditional professional and the technical strata. Diplomacy may be defined as the international political process whereby political entities mostly the recognized members of the family of nations but also emergent states international and supranational organizations and a few special entities like the Vatican conduct their official relations with one another in the international environment. Like other human and societal processes it is astatic and in the course of time experiences significant changes. It has expanded to meet the needs of a rapidly proliferating community of nations and it has been adapted to the growing complex of international concerns and interactions. Scientific and technological changes have created new problems and revolutionized methods of diplomatic communication and transportation. These developments have both intensified the needs and enriched the potentialities of the diplomatic process. Throughout history doubtless each major permeative modification in diplomatic practice has produced a so called new diplomacy.

Annuario della Scuola Archeologica di Atene e delle Missioni Italiane in Oriente, Supplemento 8. Monetary and social aspects of Hellenistic Crete Renata Cantilena, Federico Carbone, 2020-11-20. Nel giugno del 2018 presso la Scuola Archeologica Italiana ad Atene si svolse il convegno internazionale di studi Monetary and Social Aspects of Hellenistic Crete al quale hanno partecipato numerosi studiosi di diversi ambiti disciplinari impegnati in ricerche su Creta in epoca ellenistica. L'idea di organizzare l'incontro scaturiva dalla volontà di avviare una discussione tra numismatici archeologi storici epigrafisti su aspetti della società cretese tra la fine del IV e il I a.C. al fine di indagare l'incidenza che la moneta ha avuto nello sviluppo delle comunità locali vuoi se emessa in risposta a esigenze di spesa per assetti urbanistici e difensivi vuoi se connessa a pratiche di mercenariato o per mobilitazioni di carattere militare vuoi se funzionale a relazioni commerciali o a scelte di politiche interne e o esterne. Unprecedented Power Steven Fenberg, 2011-09-01. In this poignant and timely biography Unprecedented Power Jesse Jones Capitalism and the Common Good shows how the Reconstruction Finance Corporation RFC saved the United States economy during the Great Depression and militarized industry in time to win World War II. RFC strategies and Jesse Jones's approaches can be adapted now to address the impacts of the new coronavirus and climate change. President Herbert Hoover had established the RFC in 1932 to make loans to banks railroads and insurance companies and appointed Jesse Jones Houston's preeminent developer and a former finance chair of the Democratic National Committee to the bipartisan board. With clear implications today Jones complained the RFC was slow and a year late and said if it had judiciously

loaned five to seven billion dollars in 1931 and 32 economic collapse would have been prevented Soon after his inauguration President Franklin Roosevelt supercharged the RFC made Jones chair and the government agency began buying preferred stock in banks to stabilize and help them lend again Jones knew capital rather than debt was needed to save the banks and revive the flow of credit just as it was when the program was duplicated in 2008 as the Troubled Asset Relief Program better known as TARP Under Jones s leadership the RFC became the largest investor in the nation and rescued banks businesses homes and farms saved the railroads rebuilt communities after environmental calamities built bridges dams and aqueducts across the nation and brought electricity and appliances to rural America The RFC helped people and saved businesses during the Great Depression through judicious lending not spending and remarkably returned a profit to the government and its taxpayers As war spread Jones and FDR shifted the RFC s focus from domestic economics to global defense In its second cover story about Jones TIME magazine reported In all the U S today there is only one man whose power is greater Franklin Roosevelt The President knows Congress will give more to Jones without debate than he can get after a fight Emperor Jones is the greatest lender of all time Accordingly after Germany s European victories Congress on June 25 1940 gave Jones and the RFC the authority to build buy and lease plants to develop and manufacture metals ships airplanes tanks and guns to train aviators and with FDR s approval to do anything required to arm the Allied Forces Almost half of its outsized investments went to corporations to help convert their production to war time needs One of its largest new plants the Dodge Chicago plant covered 145 acres and took in raw metal at one end and produced finished airplane engines at the other Like all its new factories the plant was built and owned by the federal government s RFC leased to corporations to operate and sold to private interests after the war Likewise coordinated national large scale efforts and government investments can be made to address today s daunting challenges Unprecedented Power dramatically describes how Jesse Jones and the RFC used every option to save life democracy and capitalism during two of the 20th century s most threatening events

Sōtērakopoulou,Peggy Sotirakopoulou,2005 Keros is a small mountainous and now deserted island situated between Naxos Amorgos and Ios in the southeast Cyclades Keros became widely known after a series of extensive and clandestine excavations in the 1950s and early 1960s which concentrated on a particularly rich deposit of material at the site of Kavos situated at its barren western extremity These major lootings resulted in the illegal export from Greece of a large number of Early Cycladic objects mostly fragmentary marble figurines that flooded the international antiquities market under the general name the Keros Hoard The cache was said to have included at least 350 Cycladic objects and is now widely dispersed This study features a review of the archaeological investigations on Keros a discussion of the so called Keros Hoard an extensive account of the various aspects of Cycladic figurines and a catalogue of the objects identified as coming from the Hoard Also included are an analysis of the

data derived from the Hoard the results of the study comparing the fragments in the Museum of Cycladic Art with those discovered at Kavos during official archaeological investigations an interpretation of the Ho **Gardening World Illustrated** ,1902 **The Paston Family in the Fifteenth Century: Volume 1, The First Phase** Colin Richmond,2002-05-16 This volume describes in lively and original style the beginnings of the family's gentility **The Day Parliament Burned Down** Caroline Shenton,2013-08-29 The thrilling but largely unknown story of the day in 1834 that the 800 year old Houses of Parliament burned down an event that was as shocking and significant to contemporaries as the death of Princess Diana was to us at the end of the 20th century
