The Crime And Punishment Of Ig Farben:

The Crime and Punishment of I. G. Farben Joseph Borkin, 1979 Trilateralism Holly Sklar, 1980 This is a classic work a highly readable wide ranging study of the Trilateral Commission and the worldwide strategies of Trilateralism It demystifies national and international events power propaganda and policy making from World War II through the sixties and seventies and into the eighties *European Business, Dictatorship, and Political Risk, 1920-1945* Christopher Kobrak, Per H. Hansen, 2004 For much of the twentieth century the prevalence of dictatorial regimes has left business especially multinational firms with a series of complex and for the most part unwelcome choices This volume which includes essays by noted American and European scholars such as Mira Wilkins Gerald Feldman Peter Hayes and Wilfried Feldenkirchen sets business activity in its political and social context and describes some of the strategic and tactical responses of firms investing from or into Europe to a myriad of opportunities and risks posed by host or home country authoritarian governments during the interwar period Although principally a work of history it puts into perspective some commercial dilemmas with which practitioners and business theorists must still unfortunately grapple **Critical Mass** Carter Hydrick, 2016-08-01 On May 19 1945 eleven days after the surrender of Nazi Germany in Europe a U boat was escorted into Portsmouth Naval Yard New Hampshire News reporters covering the surrender of U 234 were ordered contrary to all previous and later U boat surrender procedures to keep their distance from crew members and passengers of U 234 on threat of being shot by the attending Marine guards Why the tight security Buried in the nose of the specially built mammoth boat sealed in cylinders lined with gold was 1 120 pounds of enriched uranium labeled U235 the fissile material from which atom bombs are made Critical Mass documents how these Nazi bomb components were then used by the Manhattan Project to complete both the uranium bomb dropped on Hiroshima and the plutonium bomb dropped on Nagasaki to defeat the Japanese and win World War Two and global domination in the modern age Lethal Elites Alex Alvarez, Richard R. Fernández, 2025-11-13 This eye opening book highlights the role of elites in constructing systems of persecution and extermination during the Holocaust Being highly educated or living within a certain social class doesn't prevent us from being lured into destructive systems especially when they operate to our benefit The perception that the Holocaust was largely a crime carried out by ill educated thugs acting on nationalistic hysteria and xenophobic prejudice is a myth Leaders from many sectors of society including industry science and religion came to support and enable the Nazi government often due to the ways in which they were able to profit and benefit from the policies of persecution and genocide With both a social science and historical approach Lethal Elites highlights and assesses the ways in which the influence training and expertise of the most powerful and best educated were used in service to the genocidal agenda of the National Socialist Regime *Pynchon Notes* , 1994 **Acres, U.S.A.** , 1987 **The International System and the International Political Economy: State structures and strategies** Joseph M.
