The Philosophical Basis of Religion John Watson,1907 **The Philosophical Basis of Religion** John Watson,2015-06-16 Excerpt from The Philosophical Basis of Religion A Series of Lectures Six of the lectures contained in this volume the third fourth fifth seventh sixteenth and seventeenth were delivered in April of this year before the Brooklyn Institute of Arts and Sciences Brooklyn U S A the two first were composed at the same time and were intended to be introductory to the course while the substance of the sixth together with the eighth ninth tenth eleventh twelfth thirteenth fourteenth and fifteenth were read some years ago to the Theological Alumni Association of the University with which I have the honour to be connected The lectures which constitute the body of this work are mainly essays in the reconstruction and history of religious belief The importance of the problem and the pressing need of its solution will hardly be denied by any one who realizes the significance of the unrest and confusion of ideas which have invaded our modern life The appeal to external authority in any form does not in our day carry conviction even to those who make it Nothing short of a complete revision of current theological ideas as I am convinced can bring permanent satisfaction to our highly reflective age About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The Philosophical Basis of Religion; a Series of Lectures* John Watson,1907 *Philosophical Basis of Religion* J. Charles Sears Baldwin, Selden Peabody Delany, Charles Carroll Edmunds, Granville Mercer Williams, 1929 Includes section Book reviews **Outlook** , 1899 **RELIGIONS** Ruben Ygua, 2025-04-09 Traditional methods of studying the past have always given greater importance to nationalist religious and moral interests which subordinated the historical fact to the System point of view The time has come to simplify and show respect for our ancestors striving to know what really happened in the past and not just what they want to inform us about After so many years of studying History I came to the conclusion that the best study system is through an impartial objective Chronology that just put each event in its exact place in time revealing History without manipulation This Chronology contains not only purely political facts such as the foundation of cities the birth of kingdoms and empires scientific and geographical discoveries natural disasters and epidemics it also includes information on the most different fields of human activity chemistry astronomy geography mathematics and so on In parallel the chronology is complemented by data that do not belong to a specific date but to an entire epoch they are each society generalities curiosities customs the religion of each civilization inventions or discoveries that cannot be placed in an exact date etc The result of all this set is one of the most complete chronologies within its reach periodically updated with the latest archaeological and scientific discoveries and that transforms the reader into an eyewitness of the past understanding the relation of geographically distant facts to each other but closely connected in time and influencing unexpected consequences This is something that traditional history has generally ignored when it was not usable A work of this magnitude could not be published in a single book so I have divided it into several collections and the Spanish originals are being translated into French English Italian and Portuguese The chronology goes from prehistory to the present day year by year as far as possible For those who prefer a deeper and more detailed study I have prepared a second chronology day by day which for now covers from 1789 to 1946 divided into five collections The History of Religions is an important complement to understanding the philosophy and behavior of each people and civilization
