John Marshall and the Heroic Age of the Supreme Court R. Kent Newmyer, 2007-04-01 John Marshall 1755 1835 was arguably the most important judicial figure in American history As the fourth chief justice of the United States Supreme Court serving from 1801 to 1835 he helped move the Court from the fringes of power to the epicenter of constitutional government His great opinions in cases like Marbury v Madison and McCulloch v Maryland are still part of the working discourse of constitutional law in America Drawing on a new and definitive edition of Marshall s papers R Kent Newmyer combines engaging narrative with new historiographical insights in a fresh interpretation of John Marshall s life in the law More than the summation of Marshall s legal and institutional accomplishments Newmyer s impressive study captures the nuanced texture of the justice s reasoning the complexity of his mature jurisprudence and the

affinities and tensions between his system of law and the transformative age in which he lived It substantiates Oliver Wendell Holmes Jr s view of Marshall as the most representative figure in American law **The Harvard Guide to**

of The Eloquence of Effort Beware the Path of Least Resistance are deeply moored in the principles of Entropy to wit the tendency of all things events to spontaneously degenerate into chaos unless of course there is an infusion of human energy It is a universal law chaos is spontaneous solutions demand effort Have you ever wondered why things naturally break up breakdown degenerate depreciate or simply fall apart Why is Alzheimer s Disease more prevalent among the lesser educated Why is physical exercise a vital component to a healthier lifespan Consider two cars an old and a new abandoned under similar conditions Revisited a 100 years later the new would deteriorate while the old would disintegrate into untraceable dust But why not the reverse As the new car aged into a rusted rattle trap the old retrogressed into a spanking new car Just the way the universe operates you exclaim Answers to these questions reside in the forces governing Second Law of Thermodynamics sometimes referred to as the Law of Entropy To prevent being submerged under an Entropic tsunami of destruction one must apply personal effort Failure to do so can only result in catastrophe Over 700 years ago the concept was succinctly captured by the polymath Leonardo da Vinci He wrote that God sells us all things at the price of labor Arguing that dreams are only achievable through sustained effort the book relies heavily on biographical philosophical economic religious historical and scientific data Accordingly work is the mission the multiple rewards are the byproducts More significantly the pleasure resides in the effort not the outcome Against the dark backdrop of malignancies inflicted on society by unrepentant leeches the benefits of unstinting diligence are sharply focused The reader is nudged into a higher plane of reality namely purposeful effort is rewarding Hence regardless of the end result effort is never wasted Conversely indolence is the bane of progress the root cause of socio economic crimes and social chaos Indeed corruption in all its diabolical forms is nothing but laziness masquerading as diligence Analysis of biographical data sustains the thesis that hard work extends life indolence shortens it Moreover indolence in all its fiendish forms is causally related to personal chaos The terminally lazy degenerate Pablo Escobar validates this principle when he prophetically asserted that no drug dealer ever died of old age He was right at age 44 he was slaughtered The persuasiveness of the arguments is supported by a wealth of references Together they form the final authority they lend credence to the arguments provided **Encyclopedia of U.S. Political History**
