EMERGENCY MEDICINE GRAND ROUNDS

NATIONAL DRUG SHORTAGE IN EMERGENCY MEDICINE

Wednesday,
October 18, 2017

11:00am-12:00pm

Poison Control
Center Auditorium

BRENNA M. FARMER, MD

Assistant Residency Director, Emergency Medicine
New York-Presbyterian Hospital

Director of Patient Safety
Weill Cornell Emergency Department

An attending physician board-certified in emergency medicine and medical toxicology at Weill Cornell Medicine / New York-Presbyterian Hospital, Dr. Farmer serves as the assistant residency director for emergency medicine at New York-Presbyterian and the director of patient safety for the Weill Cornell Emergency Department. She completed her residency in emergency medicine at Vanderbilt University Medical Center and a fellowship in medical toxicology at NYU Langone/Bellevue Hospital Center and the New York City Poison Control Center. Dr. Farmer's interests include medication safety, patient safety, simulation, and multi-disciplinary trauma care. She is currently pursuing her MBA/MS in healthcare leadership at Cornell University's Johnson School of Business and Weill Cornell Medical College's Graduate School.

Speak To Me In Medicine

Magdalena García Pinto

Speak To Me In Medicine:

Healing and Medicine Paul Dieppe, 2023-12-29 Healing is on many people's minds today. In the wake of the COVID 19 pandemic and a host of other disruptions and disasters many of us feel that we need healing in our personal lives for the environment and for our planet. But healing is rarely defined and is not an accepted part of medicine in the West. This book examines the relationship between healing and medicine through the eyes of an academic physician who changed his interests from biomedical research to healing late in his career in medicine. It is based on his experiences and stories of his encounters with patients, practitioners and others for whom healing has had a particular significance as well as his rigorous research into the subject. A central theme of the book is that modern medicine needs to be more pluralistic in its approach to health and accept that spirituality and healing techniques have roles to play alongside scientific medicine which currently has its base in materialism alone.

Intertwinements of Law and Medicine Jan M. Broekman, 1996 The general aim of this book is to discuss a number of important and interrelated issues in life of modern man in medicine and the law. That discussion is not only on material aspects of those issues but also on the forms of knowledge which enable us to develop the relevant arguments and to cope with related experiences in everyday life. These issues are on the whole understood in terms of the law medicine relationship or the law and medicine interface. However a reflexion on the philosophical and cultural basis of those expressions shows the shortcomings of that approach and the need for an understanding of that relationship in terms of intertwining discourses.

Songs for Dead Parents Erik Mueggler, 2017-12-02 In a society that has seen epochal change over a few generations what remains to hold people together and offer them a sense of continuity and meaning. In *Songs for Dead Parents* Erik Mueggler shows how in contemporary China death and the practices surrounding it have become central to maintaining a connection with the world of ancestors, ghosts and spirits that socialism explicitly disavowed. Drawing on more than twenty years of fieldwork in a mountain community in Yunnan Province, *Songs for Dead Parents* shows how people view the dead as both material and immaterial as effigies replace corpses, tombstones replace effigies and texts eventually replace tombstones in a long process of disentangling the dead from the shared world of matter and memory. It is through these processes that people envision the cosmological underpinnings of the world and assess the social relations that make up their community. Thus state interventions aimed at reforming death practices have been deeply consequential and Mueggler traces the transformations they have wrought and their lasting effects.

The Atlantic Medical Weekly, 1896
Food Over Medicine Pamela Popper, Glen Merzer, 2013 Discusses the dire state of American health due to poor nutrition choices based on cynical food politics and medical misinformation and reveals how diet can dramatically improve and turn around many life threatening conditions.
The St. Louis Medical Review, 1906

International Record of Medicine and General Practice Clinics Frank Pierce Foster, 1887
The Medical Brief, 1907

Women Writers of Latin America Magdalena García Pinto, 1991-11-01 What does it take for a woman to succeed as a writer. In these revealing

interviews first published in 1988 as *Historias íntimas* ten of Latin America's most important women writers explore this question with scholar Magdalena García Pinto discussing the personal social and political factors that have shaped their writing careers The authors interviewed are Isabel Allende Albalucía Ángel Rosario Ferré Margo Glantz Sylvia Molloy Elvira Orphée Elena Poniatowska Marta Traba Luisa Valenzuela and Ida Vitale In intimate dialogues with each author García Pinto draws out the formative experiences of her youth tracing the pilgrimage that led each to a distinguished writing career The writers also reflect on their published writings discussing the creative process in general and the motivating force behind individual works They candidly discuss the problems they have faced in writing and the strategies that enabled them to reach their goals While obviously of interest to readers of Latin American literature this book has important insights for students of women's literature and cultural studies as well as for aspiring writers Association Medical Journal ,1855
